- Volume Down/Previous Song

(1) Control tower (Speaker)
(2) Microphone
(3) Charging Socket (Micro-USB)
(4) Volume Down/Previous Song
(5) Volume Up/Next Song
(6) Multi-function Button (MFB)

3. Charging
A rechargeable battery is embedded in the product. We recommend charging the battery fully for 3 hours (approx .) before your first use.
(1) The battery has low voltage protection. In case of low power, the Red light flashes once every three seconds. Continued use of the product may reduce the battery lifespan and standby time.
(2) The Red light is constantly on during charging, and will turn off when the charging is finished.

4. Power On/Off
Power On: Push the control tower to power on the product. This Bluetooth speaker will automatically connect with the last Bluetooth device it connected with.
*Note: If no Bluetooth device connection is found, the product will enter pairing status.
Power Off: Press the control tower (or the "MFB" button) and hold for 3 second to power off the product .

*Note: After being disconnected with a Bluetooth device, there will be automatic system shutdown within 10 minutes.

5. Pairing and Connection
Prior to using the Bluetooth speaker for the first time, it should be paired and connected manually with the Bluetooth device.
(1) Power on this product, When the red and blue lights alternately flash, the speaker is ready for pairing.
(2) Then use your Bluetooth device search and connect this product "BT Speaker".If password is required, please enter "0000".
*Note: If the Bluetooth pairing fails to be completed, Please try again by repeating the above steps.

6. Play the stereo music
(1) the Play/Pause: in standby mode, press the control tower (or the "MFB" button) for 1 second, then music play; in music playback mode, press the control tower (or the "MFB" button) for 1 second, then music suspend.
(2) Previous/Next song:shortly press (V-) to the previous song, shortly press (V+) to the next song.
