# WIRELESS RECHARGEABLE OPTICAL MOUSE WITH 3 PORTS HUB

Included you will find:

Retractable Cable

Mouse

WARNINGS: Mouse will NOT work if there is more than 5ft between the mouse and receiver. Mouse will NOT work well on glass or reflective surfaces, or 3-D mouse pads. Please recharge the batteries if the mouse will not be used for extended periods

1 Make sure your computer is on and that the pointer icon is active on you computer (by way of your existing mouse)
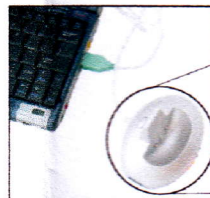

2 To insert batteries, Simply pull out the battery cover. Insert the batteries according to the appropriate polarity marks (+, -). Pull back the battery cover. When you hear a "click" the cover is locked
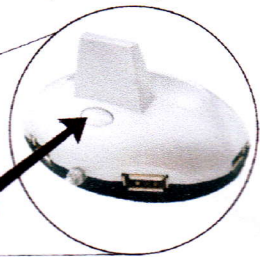

Warning: Only rechargeable batteries shall be used (otherwise, batteries may explode if being charge at the USB stand).

3 Connect the USB Port from the desktop docking receiver to your computer, If the connection is OK, then the power light will be on

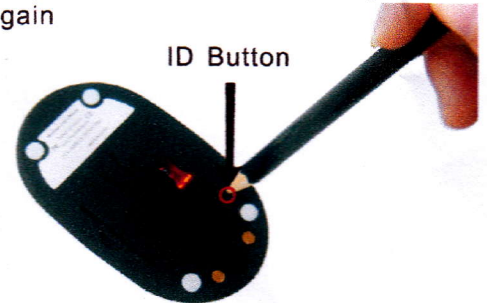

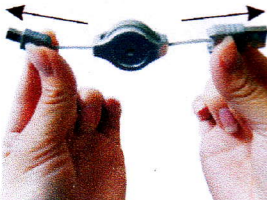

ID Button

4 Press the ID Buttons from the docking receiver and the bottom of the mouse, Then you can start to use, If the mouse doesn't work, Please press the ID Buttons together again

ID Button

5 Please pull on both two sides synchronously.

6 You should recharge the batteries if the power is getting weak, To charge the mouse, you can use two ways as below
A. Put the mouse back to the docking receiver   B. Use a 5P retractable cable, Thus it can also be used as a wired mouse while charging
