### convenient and efficient

Listen to music without ears   Listen to music without hurting ears

USB   VOL- VOL+

Power   LED

play button   Call button

Release the ears, feel free,listen to music, meanwhile, you can hear outside voice.
Listen music, play games, Stereo sound which clear and real.

As show in the picture,hang the earphone on the back of the neck,and at the same time,the speaker should stick on the cheekbone in front of the ear-rather than on the ear.

The Bluetooth Matching Method:

1.Put the blue-tooth headset's switch at "ON".
2.Find the blue-tooth set on your cellphone or other with blue-toothfunction device, then search the Bluetooth device and choose "Pairing name:DIGICare"
3.NFC, Near field communication, is a form of contactless communication between devices like smartphones or tablets.

----If you matching the headphone for the first time, it will automatically match when turning on, and the LED indicator will alternate flash between blue and red.

----If it is connected with last device, it will automatically match in 10 seconds after turning on, and the LED indicators flash in blue.
---- If it matches other device or re-match, press the "play button" and keep in 3 seconds, the headphone will enter manually matching mode, and the LED indicator will alternate flash between blue and red.

Note:

If the connecting device is beyond the Bluetooth headset's effective range (10 meters or 33 feet), the headphone will be disconnected with the device. Once it,s within the effective distance, it will connect again automatically. But if it disconnects for a long time (3 minutes), you may need to double click the "Play button" to re-connect the device.

If you turn off the connecting device, the headphone will disconnect. When you turn on connecting device, you only need to double click the "Play button" to connect.

Charging Method:

With a standard Micro USB cable (attach with the package) to connect the headphone and the USB port of your PC or wall charging source, the headphone will charge. It takes 2 hours for full charging. When charging, the LED indicator is in Red, after finish charging, the LED indicator will turn in Blue.

Note:

1. Because the battery may lose some power in the storage, here kindly suggest charging your headphone full the first time you use it.
2. When charging, the headphone can not be used.
3. If not using headphone for a long time, suggest charging it one time every month to keep the battery life.
