Main Functions

• Entering the Menu
When the "M" key is pressed for a long time or a short time, all main menus and the submenus can be entered or quitted; when the "VOL" key is pressed for a short time, the submenu can be quitted directly.

• Show the Preview
o Displays of the main menu on the screen are shown as follows:

Music   Photo   E-book   Record

FM   Navigation   Setting

• Power Switch

Slide the power switch to ON position, and press the "► ‖" key for a long time to power on.

When the MP4 player is in the working state, if the "► ‖" key is pressed for a long time, the player can be powered off.

• Play/Pause

The "► ‖" key is pressed for a short time in the music playing, and the music will be played or paused.

• Sound Volume Adjustment

On the play interface, if the "*VOL*" key is pressed, the "*VOL*" key will flash. Then, if the "NEXT/►►‖" key is pressed for a short time, the sound volume will be increased.

Or the "PRE/‖◄◄" key is pressed for a

short time, and the sound volume will be reduced.

Upgrading

When the program (the phenomenon that the player can not be opened, the screen is a blank space screen, and the player is crash etc.) is interrupted because your player is used improperly, or when the manufacturer's Web site can supply a firmware with expandable new function, then you can upgrade your player.

• Troubleshooting

Fail to be Powered on

1. Check the battery for the electric quantity, if the battery has no electric quantity, and the battery mused be charged.

2. Check whether the power switch is

ON position.

No Sound

1. Check whether the sound volume is too small.

2. Determine whether the earphone connection is good, and the earphone is good.

3. Check whether the MP3 file is complete and correct.

Strange characters on display

Check the language selection for the accuracy.

Unable to download the music normally

1. Check whether the USB connecting wire is damaged, and the connection is normal.

2. Make sure that the drive (Windows 98) has been installed.

3. Check whether there is enough

space to store.
