ACTION CAMCORDER USER MANUAL

Foreword

Thank you for purchasing this digital camera. Please carefully read through this product manual before using, and keep this manual properly for future reference.

Contents of the product manual are based on the updated information when compiled. The screen display and figures used in the manual are for detailed and visual operation of the camera. Due to technical development and different production lots, they may differ from the digital camera you actually use.

Operation Notice

This camera uses the Micro SD card (Multimedia memory card) Instructions for using the memory card

 For the first time of using a new memory card, or when there is unrecognized data for the camera or images shot with other cameras in the memory card, please make sure to firstly format the memory card;

Please power the camera off before plugging in or taking out the memory card;

After using for many times, performance of the memory card will get lower. In case of lower performance of the memory card, please buy a new one; The memory card is a precision electronic device. Please do not bend the card and prevent

from falling down or heavy load on it; Keep the memory card away from the environment with strong electromagnetic field or

magnetic field like places close to speaker or TV receiver; Keep the memory card away from the environment with over high or low temperature;

 Keep the memory card clean and prevent it from contacting liquid. In case of liquid contacted, clean and dry it with a piece of soft cloth;

In case of idle use, please keep the memory card in a guard staple; Please note that the memory card will get hot after long-term use, and this is normal;

Do use the memory card having been used on other digital video recorder or digital cameras. In case of using the memory card, please firstly format it;
 Using the memory card formatted with other digital video recorders or digital cameras are

In case of one of the followings for the memory card, the recoded data may be damaged:

 Improper use of the memory card;
 Power-off of taking out the memory card during recording, deleting (formatting) or reading;

 It is recommended to make backup for the important data on other media like soft disk, harddisk or CD;

 To ensure image quality, minimum class 4 high-speed card is needed for Micro SD card. Camera maintenance

Use proper protective cover to avoid lens and display scratched;

 It is to blow off dust and sand on surface of the lens before cleaning, and then gently clean the lens with cloth or paper suitable for cleaning optical devices. If needed, please use lens cleanser. It is strictly prohibited to clean the camera with organic solution;

It is strictly prohibited to touch surface of the lens with finger.

System Requirements

When operating and using this digital camera, please pay attention to minimum system requirements from the camera. You are strongly recommended to use better computer to control the camera for better effect. The requirements for minimum system are as below:

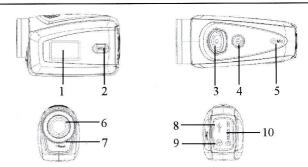

System Requirements	
Operating system	Microsoft Windows 7, 2000, XP, VISTA
CPU	Intel PIII667above or CPU with equivalent performance
International memory	512 MB or above
Sound card, graphics card	Sound card and graphics card support DirectX8 or above
CD-ROM	4X speed or above
Harddisk	Minimum 1 GB free space
Others	One standard USB 1.1 or USB 2.0 interface(s)

Function Characteristics

This camera is equipped with various characteristics and functions:

- Digital video recorder;
- Digital camera (1.3 Mega pixel);
- Black and white digital display;
- Mass Storage (portable disc)

Appearance

(1) Black and white digital screen(2)MODE key(3)Shutter (4)Power(5)Microphone(6)Lens(7) Reset(8)USB port(9)TV port(0)Micro SD card slot

Key Functions and Indictors

Key/Indicator	Function
Power	Power On/Off
