

Solar Charger

Flashlight Radio

Operation Manual

Name of Parts

1. Front LED on/off Button
2. Solar Panel
3. Mobile Phone Charging Output
4. Charge switch
5. Volume Button
6. Charge Indicator
7. Radio Reset Button
8. Radio Scan Button
9. Power Input
10. String/Radio Antenna

Operation Instruction

1. Charge this product before using. There are two ways to charge it:

1.1) Move switch ④ to the front position and then put this product under the sunshine. The solar power will convert into electrical energy and charge the built-in rechargeable battery. The charge indicator ⑥ will be bright.

1.2) Use an AC-DC power charger. Insert the power charger into AC 110-220V and the other end into jack ⑨. Also the charge indicator ⑥ will be bright when charging. ①

2. FM radio ①

2.1) Turn on the volume button ⑤ and adjust to the ④ desired level.

2.2) Select your desired channel by pressing the radio scan button ⑧.

3. Flashlight

Press button ① to turn on/off the LED Lights.

3. Method a: Move switch ④ to the back position, and then put this product under the sunshine. Insert the charging cable into jack ③ and select the correct adapter for your phone.

Insert the adapter in your phone and the other end into the charging cable. This is suitable for strong sunlight.

Method b: Move switch ④ to the front position.

Connect: this product and your phone with the charging cable.

This is suitable for weak sunlight or without sunlight.

Functions and Features

- 1) Full of very useful features makes it suitable for camping, travel, outdoor activities, etc.
- 2) Can charge your mobile phone and digital products by solar power.
- 3) Four high brightness LED lights with life more 10,000 hours
- 4) Sensitive FM radio.
- 5) Mobile phone charger for most popular models.

Unit Specification

- 1) Solar panel: 0.5V/0.6W
- 2) Charging time: 8-10hrs (strong sunlight)
1-2hr (indoor power 5V/300mA)
- 3) Power expense: <0.5W
- 4) Radio Frequency: 76MHz-108MHz ☐
88MHz-108MHz ☐
- 5) Speaker Voltage: 0.25W
- 6) LED life: >10000h
- 7) Dimension: 135×62×28mm
- 8) Weight: 120g

Attention

- 1) This product is not intended for children under age 8.
- 2) Make sure unit is completely off when storing.
- 3) Put it in the sunlight, if possible, after use.
- 4) Don't use in extreme temperatures, dusty or moist conditions.
- 5) Charge unit if not used for an extended period.
- 6) Don't use a charger without over charge protection, and charging time should not exceed 3 hours. Standard charging voltage is 5V.
