USB Wall Charger

Model: TS-WC3PC

## Introduction

Thank you very much for choosing Transmart VoltIQ™ TS-WC3PC 42W/4.8A Three Ports USB AC Wall Charger! Please read this manual carefully before using the wall charger as it contains some important information. And if you have trouble understand and follow the instructions listed in this manual, please contact our customer support team at [support@tronsmart.com](mailto:support@tronsmart.com).

## What is in the Box?

- Tronsmart Wall Charger
- Micro USB cable (1.8m)
- Instruction Manual

## What is VoltIQ™ Technology?

### Smart:

Automatically recognize your mobile devices and compatible with them.

### Fast:

Identify the voltage setting of your device and automatically adjust the output to fit it, so you can charge it at its full speed.

### Easy:

As all ports have VoltIQ™ tech, so you don't need to find the most suitable USB output to charge. And just plug your device into any one of the ports.

### Safe:

Over-current, over-charging, short-circuit protection make your wall charger and mobile devices safe.

## What is Qualcomm Quick Charge 2.0?

### Reduce Charging Time:

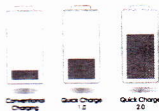

With Qualcomm Quick Charge Tech, you can charge devices up to 75% faster. Staymobile and doing what you enjoy with dramatically reduced charging time.

### Maximizes Power:

Quick Charge 2.0 uses the maximum power available from your Quick Charge 2.0 certified USB charging source to reduce the time you're plugged in compared to devices without fast charging technology.

### Universal Charges:

Full compatibility and interoperability enables true universal charging, with no need for multiple cords or adapters.

## Identification of Parts:

### Identification of Parts:

- ① Quick Charge
- ② VoltIQ™
- ③ AC Plug

## How to Use?

1. Connect the Transmart TS-WC3PC Wall Charger into the wall socket and the LED light will turn green.

2. Then connect your mobile devices with your original charging cable (not included) to the Transmart TS-WC3PC Wall Charger.
3. Remove your mobile devices and the Transmart TS-WC3PC Wall Charger from outlets as the charging finished.

### Note:

1. The wall charger may be a little warm when you use it to charge multi devices. This is normal.
2. When your device is run out of the battery and power off, some devices may be charged a little slower at beginning because of the battery protection from your device.

3. Please avoid beating or crashing the Transmart TS-WC3PC Wall Charger.
4. As the TS-WC3PC's total output is 4.8A, so it will be charged little slower when you charge 3 ipad simultaneously.
