What is Qualcomm Quick Charge 2.0?

Reduce Charging Time:

With Qualcomm Quick Charge Tech, you can charge devices up to 75% faster. Stay mobile and doing what you enjoy with dramatically reduced charging times.

Maximizes Power:

Quick Charge 2.0 uses the maximum power available from your Quick Charge 2.0 certified USB charging source to reduce the time you're plugged in compared to devices without fast charging technology.

Universal Charges:

Full compatibility and interoperability enables true universal charging, with no need for multiple cords or adapters.

3. Remove Devices and the charger form the outlet when the charging is finished.

FAQ and Solution:

1. Tronsmart **Quick Charge support 5V,9V,12V, and which voltage I should use to charge my device?**

Qualcomm Quick Charge 2.0 Tech can recognize the power source type of your devices to automatically optimize the output power. It have over-current, short circuit protection and you do not need to worry it will over-charge your devices.

2. **How do I know whether my device is Quick Charge tech supported or not?**

Any devices with QuickChargeTech can be supported by Tronsmart TS-WC1Q wall charger. And please refer to your device's user manual, original charging adapter or contact.

the manufacturer to determine the information.

3. Can I use this charger to charge my devices which do not have Quick Charge tech?

Yes. You can use this charger to charge any devices with 5V / 9V / 12V output. However, the charging speed will not as fast as the Quick Charge tech compatible devices.

4. How fast is this charger when charge my device?

- Up to 40% faster than conventional charging for the devices with Quick Charge 1.0 Technology.
- Up to 75% faster than conventional charging for the devices with Quick Charge 2.0 Technology.

Note:

When use the Rapid Wall Charger to charge your mobile devices, it will need massive current, so we suggest you use the original charging cable came with your mobile devices or Tronsmart's quick charge cable.
