## 6. Care and maintenance

### Battery care

- Your device is powered by a rechargeable battery. When the power is weak, please charge the battery.
- Leaving the battery in hot or cold

places, such as in a closed car in summer or a freezer in winter conditions, will reduce the capacity and lifetime of the battery. Always try to keep the battery between 59°F and 77°F (15°C and 25°C).

- Battery performance is particularly limited in temperatures below freezing. Cellphones are not considered household waste.

### Mobile phone maintenance

- Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that will corrode electronic circuits. If your device does get wet, remove the battery and allow the device to dry completely before replacing it.
- Use only the supplied or an approved replacement antenna. Unauthorized antennas, modifications, or attachments could damage the device and may violate regulations governing radio devices. All of the above suggestions apply to

your device, battery, charger.

## 7. Technical Information

Weight

Size Length × Width × Depth

Battery

Networks:
