Aurora function

Before using

Your Aurora must be charged before your first use.

To charge your Aurora, insert the watch into the dock, with the charging terminals in good contact.

The LED indicators will blink on your Aurora when it is charging. Once all lights are solidly lit, your watch will be fully charged, it takes around 1 hour.

Mobile device pairing

Unlike most Bluetooth devices, like speakers, your Aurora must be paired directly through the Fii App, not through the "Settings" on your mobile device.

1. Open the Bluetooth on your mobile device.
2. Open the Fii App.
3. Enter your phone number or email address to create your Fii account.
4. Login and click "Setting" > "Data Synchronization" and choose the smart watch to start syncing.
5. The LED indicators will blink as you first syncing, you need to tap the panel twice to ensure the syncing. Once your watch has been bounded with your mobile device, it will vibrate to confirm.

Battery life

Your Aurora powered by dual watch batteries: a rechargeable lithium-polymer battery for smart feature and a removable SR521SW button battery for swiss timekeeping movement. With normal use, the button cell should last 3 years before replacing a new one. when battery fully charged, the button cell of women's watch should last 5-7 days and the battery cell of man's watch should last 13-15 days. When battery power is lower than 10%, the smart watch will stop vibration in order to save power, There is also symbol on the APP to
