Power on/off the FM transmitter:

Power on : Plug the transmitter into the car cigarette socket.

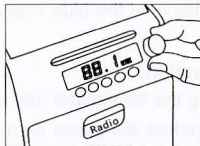

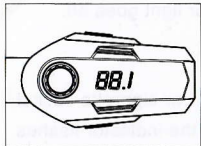

Power off : Press the multifunction button for about 2 seconds until the blue indicator light goes off.

Instruction:

1. Plug the transmitter into the car cigarette socket, the product will power on and the indicator flashes means it's ready to pair.
2. Turn on the Bluetooth function of your phone.
3. Search for the Bluetooth devices and select "FM 25".
4. If pairing is successful, the blue indicator light will be always on.
5. Tune the car FM radio frequency to an unused FM station.

6. Tun the FM transmitter into the same frequency with the car FM radio.

7. Now you can enjoy your music through the car stereo.

Remark:

1. It will connect to the pre-set phone automatically when turns on. (Turn on the Bluetooth of your cell phone first, and the turn on the product.)

2 For the best audio quality, please turn the volume of the cell phone and FM transmitter into the max level.

3. If the noisy is too loud, please try other FM frequency.
