

# Air Purifier AP01

- Size:163.5\*83mm
- Input:5V 2A
- Frequency atomization:160KHz
- Positive and negative ion generator:5VDC, 50mA
- motor:5VDC,170mA
- Air quality sensor:8VDC,150MA
- MCU controller:5VDC
- Efficient purification Removing harmful substances viruses, bacteria, PM2.5, formaldehyde, toxic gases, odors, etc
- Skin Humidification Unique humidification function, relieve air drying affect on the skin after purification
- Air quality testing The only MINI purifier on the market with air quality testing display
- Small and portable Cup size, easy to carry and place
