### How to use the Bluetooth earphone

#### 1. Function define

1. Bluetooth pairing: the devices with Bluetooth function (support HSP, A2DP, AVRCP etc. profile) such as mobile phone, computer, tablet, connect with Bluetooth headset. Passcode is no need for Bluetooth version 2.1 or above.
2. Automatically connect: When mobile phone or computer is in Bluetooth searching mode, if the Bluetooth headset connected with that mobile phone or computer before and the connected records of the mobile phone or computer did not been clear, power on the headset, and click the connected records of the device to connect the Bluetooth headset.

#### 2 .Operations

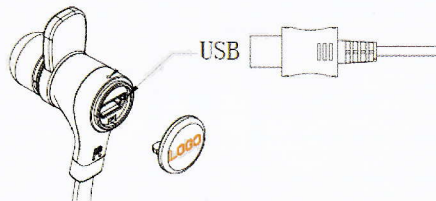

- A. Press and hold the multi-function button around 5 seconds until hear a voice of "hello" and "pairing" to enter into pairing mode.
- B. Follow your phone's instruction guide, Bluetooth is activated on your mobile phone. Then set your phone to search for the headset. The phone will find BH-M55 and your phone will ask if you want to pair with the headset.
- C. Accept by pressing 'Yes' or 'OK' on the phone, then the headset and mobile phone connected successfully, and you can hear the tone "Your device is connect" from the headset.
- D. Open the music player that comes with the mobile phone to play music, use the multi-function button and volume button to get play/pause/next /previous song ect.

**Note:** if the mobile phone used with download music player, it maybe not support function control via headset.  
If the mobile phone shows that the headset connected successfully, but no sound when playing music, then you could switch off Bluetooth function of your mobile phone and switch on Bluetooth of your mobile phone to connect with BH-M55 again to play music.

- E. If the connection of headset and mobile phone disconnected, the headset will tune "your device is disconnect".
- F. Press and hold multi-function button about 3 seconds to power off the headset, headset will tune "goodbye"

### 3. How to charge with the unit

- A. Plug the USB charging cable to the Micro USB of the headset
- B. Connect the other end of the charging cable to the power supply with DC 5v

**Note:** please charge the unit in off state, which will shorten the charging time.

## Specification

Bluetooth version : V4.0	Unit dimension : $\Phi 13 \times 29 \times 29 \text{mm}$
Built in Lithium ion battery: 3.7V	Battery capacity: 80MAH
THD: $\leq 0.5\%$	Driver size: $\Phi 6 \times 4.5 \text{mm}$ 5mW
Net weight: approx. 15g	SNR: $\geq 85 \text{Db}$
Charging voltage: 5V	Charging time: approx. 1 hours
Talking time: approx. 6 hours	Music time: approx. 5 hours(Max Volume)
