

Product description:

Thank you for purchasing our photography, broadcast color LCD Monitor kit. This product adopts proprietary digital signal processing circuit and professional IPS LCD screen. It's high brightness, low power consumption, stable performance and emits no radiation advantages. It's with HDMI Input, AV input and output, which make it wide application, casing compact, simple operation, and portable convenient. Advanced features include Screen Marker, Camera Mode, Zoom All, Image Flip and Color Temp. etc. It is an ideal portable light weight frame supporting the monitor.

The monitor built-in battery plate, you can use the power adapter supply or use the external battery for power supply.

To insure best use of the unit, please read the user's manual carefully

CAUTION

1. Do not use any damaged or leaking battery and please replace the battery immediately if its working life becomes short significantly
2. Do not expose this product to direct sunlight, heat or humid conditions
3. Keep away from strong light while using this product so as to obtain the clearest and the most colorful picture. Please use sun shade for the outdoor necessary
4. Please avoid heavy impact or drop on the ground.
5. Do not use chemical solutions to clean this unit. Please simply wipe with a clean soft cloth to keep the brightness of the surface.
6. Without adjustable component in the unit, please do not take apart or repair the unit by yourself, to avoid damage the product.

Features

- High brightness, contrast, high resolution with sun shade, visible under the sunshine
- Built-in VIDEO/AUDIO /HDMI inputs, enable for a various of signal
- External remote control, to control the functions of the monitor in distance.
- Optional for external battery plate and various batteries for outdoor usage
- 4 F Buttons can be self-defined for different function,
- Picture Zoom can be operated Zoom All, U/D Zoom, L/R Zoom
- Contain Camera Mode, Center Marker, Safe Frames, Image Freeze, Image Flip, Check Field, P2P, Focus Assist etc.

1. Product description

1.1 Front view:

1. Power Indicator light: when power on/standby, it turns red; when signal in, it turns green!
2. : Power on/off
3. F4: Custom button, enter secondary menu item F(self-defined button), then self-define the function that user need
4. F3: Custom button, same as F4 operation
5. /F2: Multi button. In OSD Menu for up adjustment. It can be custom button when not in OSD. See F4.
6. /F1: Multi button. In OSD Menu for down adjustment. It can be custom button when not in OSD. See F4.

3

7. MENU: Menu button
8. : Volume up, in OSD menu to increase the value of analog on the menu.
9. : Volume down, in OSD menu to decrease the value of analog on the menu.
10. MODE: Signal Switch Button
11. LCD Display

1.2 Rear View:

1. USB Upgrade Port
2. OSD Controller input. Can insert OSD Controller into this port, to have a remote operation on the parameters of the monitor

4

3. : Earphone insert
4. AV: AV signal input, to input the AV signal into the monitor through the assorted port
5. HDMI: HDMI(High Definition Multimedia Interface) signal input
6. : DC power input interface, pole of the power should match the image.
7. Battery Plate
8. Built-in Speaker

1.3 VIDEO Matched Cable (option)

The input of the VIDEO signal is 3.5mm four section plug (as the picture above)

When use ,

Insert the black plug (1) into the video input of the monitor
White RCA jack (2) for L Audio input
Red RCA jack (3) for R Audio input
Yellow RCA jack (4) for Video input

5

1.4 HDMI Lock

1. HDMI locking plate
2. Locking Screw

To use HDMI locking plate to lock the plug of HDMI cable, then put the locking plate close to the monitor, and finally bolt the locking screw to lock the plate with the monitor. As the picture below (arrow direction)

6

1.5 Sunshade

① Sunshade

② Sunshade Frame

③ Complete Shape

④ Sunshade Application

First to open the sunshade ①, and match the sticker on the sunshade inside to the marked part of the sunshade frame, press the side of the sunshade frame, ③ smooth and press 3 sides on the sunshade, ④ to lock the sunshade with the monitor tight.

1.6 Battery Plate

There is a battery plate installed on the back of the monitor, can assemble the corresponding battery to power the monitor. There are many different battery plates. The customers can choose the suitable battery plate according to the battery.

7

Battery Plates in different model as below:

F970

LP-E6

D28

• Sony F970 battery plate for battery of Sony DV:

Sony F970 F960 F950 F930 F770 F750 F730 F570 F550 F530 QM91D QM91 QM90D QM90 QM71D QM71 QM70D QM70 QM51D QM51 FM71 FM70 series

• LP-E6 battery plate for battery of Canon DV:

Canon LP-E6

• D28 battery plate for battery of Panasonic DV:

Panasonic D55 554S D54SE D40 D35 D33 D32 D28 D25 D22 series

• Three types of batteries corresponding to the upper three slots

F970

LP-E6

D28

Remark: Different specifications of the battery, capability is different. The working time for the monitor will be different. Higher capability (working time) will be longer. Please take off the battery from the monitor if you don't use the monitor in a long time
