USEr MANUAL

To make sure the long lifetime of the digital
photo frame, PLS pay attention to reading this user manual!

DIRECTORY

Preference

Appreciate for your choice to our digital photo frame. We prepare the service manual for your reference so that you can operate this machine easily.

Safety & Maintain

To make sure the long lifetime of the digital photo frame, PLS pay attention to following factors:

1. When you use this machine firstly, PLS read the manual carefully.

2. Please pay att ention to the warning and follow the instruction in the manual.

3. Please use the AC Adapter together with the machine, don't use any other adapter. Otherwise your digital frame will be damaged.

4. Please avoid sprinkling the water on the m achine. When you use it, Please be far from the water.

5. Don 't press the digital frame greatly, otherwise the product will be damaged. Also please put the digital frame on the flat and steady surface to avoid the damage.

6 . All the opening hole or the slot is used for the ventilation. Don't block up all these hole to disperse the hot. Also don't put and store the product near to the heat object or the place full of dust. Otherwise the digital frame will become very hot and lead to danger.

7. Please pay more attention and follow the power criterion in the bottom or back of the digital frame. If you are not sure the local voltage, please consult the local dealer or your power supply comp any.

8. Don't trample or press the cable.

9. If you use the extension cable to supply the power to the digital frame, please make sure that the total Ampere of the total power con sumption for all the electric equipment in one extension is not more than the max Ampere of extension or the plug on the wall stipulated.

10. Don't put any other thing but the right memory card into the slot of the machine. You should know there is a large danger when you put anything into the machine and touch the inverter inside the machine. Especially warn the child don't do like that.

11. LCD panel is easy to be destroyed, please don't press or bump it strongly.

12. Don't touch the bottom of the digital frame for a long time to avoid the burn your skin. As the long-playing frame will get very hot.

13. Don't put the AC Adapter on the n non-ovenproof surface when it is in the working status. It is the normal circs that the AC Adapter disperse the hot when it works .

14. Before clean the product, please cut off the power and pull out the plug firstly. Then use the soft and clear fabric to clean. Please be c areful that you can not use any king of sp rayer solvent or the other cleanser.

15. Before you move it , Please make sure that you have cut off the power

16. For safety reasons, never watch or turn on TV while driving.

17. It is very dangerous to watch or operate TV while driving]

18. A few highlights or dark spots may occur on the LCD screen. It is a very common problem to the active matrix display technology, and does not necessarily means any defects or faults. Never try to repair this machine by youself. In case of any fau lt or failure, please turn off the TV set at once, and notify our Company or the authorized dealer. The TV set is made up of many precision electronic components. Any disassembly or modification may leada to damage or breakage.
