For optimum performance and safety, please read these
instructions carefully before operating this product. Please
keep this manual for future reference.

MOBILE POWER

Instruction Manual.

Components indication

- 1.High capacity: 20000mAh, is equivalent to 4-30 times of the common digital batteries.
- 2.Automatically turn off if the mobile charger doesn't work in 2 minutes.
- 3.Prolong 2-4 hours working time for the notebook PC.
- 4.Eight range capacity display, blue LCD,indicationwith the alarm and automatically turn off function when low power.
- 5.Powerful compatibility, suitable for the general digital devices and notebook PC.
- 6.Intellectual protection chip: for overcharge, overdischarge, overload and short circuit protection.
- 7.Compatible with 14V~24V notebook adaptor, achieve charging and discharging at the same time.

Battery type: Lithium ion battery

Dimension: 112*175*24 (mm)

Weight: 610g

Color: silver

Capacity: 11.1V 6600mAh/74Wh

Rated input: DC:14V~24V

Rated output: DC OUT: 12V, 16V, 19V

USB OUT: 5V/1.5A

Working temperature: -10°C ~50°C

Optional accessory: notebook PC connectors,
adaptor, connecting cable

Charge time: around 6 hours

Idle discharge: less than 500uA
