

manual

Intelligent game machine features Product picture

Operating system:

Built-in android 4.1 system, Support network or hundreds of millions of massive Android Application software: QQ, dictionary, e-book reading, PPTV/PPS, electronic dictionary, the European common market stock software etc, the user can download massive network application.

CPU design:

Use the strongest ARM-Contex A9 kernel, That type of line eight of the most advance currently. Dual-core 1.2GHz frequency, speed is equal to 5-10 times ARM9/11.

Strong Mali400 GPU 3D graphics engine, built-in OpenGL ES 2.0 GPU, support HD 3D games, memory for 1G DDR3.

Wireless network:

Support WIFI wireless internet, quickly open the webpage, support the network games, QQ video chat, TV and video.

Video: Video format, support 1080P(1920x1080) HD decoding.

Game:

Game format, support PC HD.3D large network games; Supports 8-256 simulator game (Tian Ren Chang, Sega, Sony) Support android 3D games; Support for multiplayer network games, multiplayer mahjong, landlords, chess battle etc; Support adobe flash lite 10.3 and network games.

Camera: HD camera (DC), DV function, support network video call and chat.

HDMI output: Built-in HDMI 1080P TV output.

The display effect:

24 true color high-definition 5 - inch screen (800x480), no dirty, full-screen touch, built -in multi-channel sensor, support a variety of games and application.

Operate style: touch+ button+ rocker+ sensor, full range of compatible with any games and Applications.

UI design: with cool wallpaper function.

External equipment function: support USB-OTG, USB, USB mouse.

Battery: battery capacity 2500MAH.

Long pay: Continuous watching movies or playing games is more than 3 hours, music 30 hours.

Speaker: Using high quality with high bass vibration horn, goods listen.

Delicate appearance: pink, blue, black.

Material and technology: ABS plastic shell, beautiful UV effect.

Breakpoint play: help record the move playback progress, considering of you next Watch.

Music function: support MP3, WMA, APE, FLAC A lossless compression format music player, superior sound quality

Audio mode: Bring multiple audio mode of natural, pop, classical, jazz, rock, soft, heavy bass, perfect quality, enjoy the personal music world.

Electronic photo album: JPG, BMP, GIF, PNG format images easily browse, can a slide show, A variety of optional switching effect

support TXT, IRC format, background music, can insert a bookmark, Set the text font size and color screen, switching, and new memories to browse.

Digital recording: built-in HD microphone can be set to achieve high quality recording. instantaneous record.

FM radio(optional): Stereo radio function, automatic station search, preference. Get the the new information whenever and wherever.

Video output: Mainstream video output mode YUV HD component and AVOUTPAL/NTSC, HD image restoration, HD HDMI output, can connect TV and game machine.

Multitask: support multi-task operation, can listening music/radio while reading e-book.

Speaker: support speaker playback,

Energy-saving setting:

Provide automatic shutdown, automatic screen off, auto sleep and other energy-saving settings, help you save energy, use more conveniently.

Fast interface: USB2.0 fast interface, reading and write swiftly.

Firmware upgrade: support firmware upgrade, let you enjoy the product free value-added services.

The basic parameters:

Size:	196mm*92mm*15mm
Display screen:	5.0inch HD display screen resolution: 800*480 16:9 wide
Color:	white, blue, black
Memory:	4G/8G/16G(specific please with the product in kind prevail)
Video format:	RM, RMVB, AVI, FLV, MP4, VOB, MOV, 3GP, MPG, DAT, MKV etc.
Video resolution:	1080P (1920*1080)
Music format:	MP3, WMA, APE, FLAC, OGG
MP3code flow rate:	32Kbps-320Kbps
The lyrics format:	IRC
Repeat settings:	Single player, single cycle, full circulation, the order of play, random play.
Video output	High definition HDMI output.
Picture format:	JPG, BMP, PNG, GIF
E-book:	TXT, IRC
The output frequency:	20Hz-20KHz
Noise	≥85dB
Interface type:	USB2.0
Earphone seat:	Diameter 3.5mm
Expansion card:	TFCard best supportive 32GB
Battery:	Built-in polymer battery.
Battery capacity:	2200mAh high capacity battery.
Weight:	220G
End-use temperature:	0-45 degree Celsius.

Packing accessories parameters:

Charger:	Input 100-240V 50/60HZ output 5.5V 1500MA
USB line:	A mini5P line length80MM
Earphone line	32M Diameter 3.5
AV line:	
Instructions:	
Packing box:	200*97*95MM
G.W/pes:	350 g
Qty/CTN:	50 pcs
G.W/CTN	18.5KG
N.W/CTN:	17.5KG
Carton size:	49.5*40.5*50.5CM
