

Instruction:

According to the research of Sanitation and Human body Toxicology center, the atmosphere is consist of a variety of chemical substances, dusts and mixture of microorganism, which are usually of colorless and odorless. When there is poor ventilation indoors, the accumulation of this microorganism will threaten the health of human body. It is usually take place in working places, and caused "Sick Building Syndrome", with the symptom of headache, infection of eye and nose to throat, be apt to catch cold, dry and itching skin, somnolence, nausea, cannot be concentrate and be apt to fatigue. These symptoms will lead to great economic shock, influence the health of the staff and the productivity, then it comes to the tendency of asking for leave. The only solution is to minimize the influence of this poisonous mixture.

Product Usage:

Adopting cold catalyst and high efficient active carbon purification, with the function of high density negative ions, the new conception air freshener can oxygenize, desintergrate and wipe off mainly all harmful substance in the air, make the air clean, eliminate electrostatic and radiation, refreshing and increase body resistance. It can be widely used in office, laboratory, computer room and dwelling place., with the connection of computer, or you can put it in the car to enjoy the fresh air of nature-like. You can also make your perfume on the fibre of the purifier and it spread fragrance. (Perfume is not contained)

Application Method:

1. Put the self-contained power cord into the car cigarette lighter holder home;
2. Press the button "POWER", it'll start to work.

Technical Data:

1. working condition: 0~45°C, < 80%RH
2. Power Supply: DC12V
3. Operating Current: 0.25A
4. Rated Power: ≤3W
5. Anion Density: 3x10 pcs/cm
6. Blast volume: 25m /h
7. Longevity of Air Blower: ≥50000h

Considerations:

1. Don't let the children to play with the product or teardown it or put metal in it, all these will lead to electric shock.
2. Don't use the purifier on the metal shell like media player devices or the refrigerator.
