

open Note Taker

Package Content

- Base unit
- Ink refill
- 2xPen Batteries
- Standard USB Cable
- Digital Pen
- Quick Start Guide
- 2 x Software CD
- 30-pin to USB Cable
- Refill Extractor

Step by Step to Get Started

Step1 Charge the Battery

For initial use, your base unit needs to be charged for about 3 hours. Connect your base unit to your PC using the USB cable for charging.

Step2 Installing Pen Batteries

- Remove the battery compartment cover.
- Install two SR41 batteries, with the positive poles facing up as shown (Use the enclosed SR41 batteries).
- Replace battery compartment cover.

WARNING:

Do not attempt to open the pen. This may cause the pen to malfunction.

Step3 Installing Ink Refill

To replace the ink refill,

- Detach the cap from the digital pen.
- Clamp the ink refill with the refill extractor. Hold the pen firmly, and apply pressure with the extractor against it.
- Pull the used refill out.

To insert a new refill,

- Slide the new refill into the tip of the pen.
- Gently press the new refill until it is lodged securely in place.

Step4 Turn On the Base Unit

Press and hold the Power button on the base unit.

Step5 Clip your Base unit on a Paper

Clip the base unit to the paper. Your Digital Pen can support a paper size of up to A4. The following illustrations show how to clip the base unit to the paper.

- Hold the base unit and gently press the clip.
- Slide the base unit into the paper's top center.

Step6 Start writing

When you pick up the pen, find a position that is comfortable for you. Be careful to hold the pen in a way that does not block the signals sent from the tip of the pen to the memory unit receivers.

When you are writing with the pen, make sure its inclination to the paper surface is between 45° and 90°.

Hold the pen firmly and write normally.

Note: Make sure the pen point is 1.5cm away from the unit. Otherwise, the unit sensor may not work.

Buttons & Ports

- Mini USB port** – connect to computer through the USB cable.
- LCD display**
- ON/OFF button** – Press and hold for about 5 seconds to turn on the unit. Press shortly to create a new note.
- Paper Clip** – Clip the unit to a page or paperboard.
- Reset button** – Reset the device when then the unit does not respond

Quick Start Guide

For more info, please refer to the user manual

	Note Mode	Pen down/Pen move	Mouse Mode	Pen down/Pen move
	Mouse Mode	Pen down/Pen move	Pen Mode	Pen down/Pen move
	Number of saved notes in memory	Always	Unit is Off	Memory full Or Error

Creating Notes in Mobile Mode

While in Mobile mode, you can store all your notes into the base unit. To do so, simply turn the unit ON and start taking notes.

To start a new file, simply press the **Power** button on your base unit.

When you start writing, the LCD should indicate the Pen Mode icon.

For the next page, press the **Power** button on the base unit once. The number on LCD will go up by one, indicating the number of saved page.

When you finish writing, press the **Power** button to save notes.

Create Note in On line Mode

Connecting your Apen to your computer and drawing with your Apen in Note mode creates a new note. Everything you write is being captured automatically. Before doing so, make sure the Note Manager is installed and run on your computer.

When you have finished with your note, use the toolbar to save your note to a picture file, email it, print it, or simply save it to your Note Manager for later use.

Use your Digital Pen as a Mouse

The device can behave as a mouse, performing the click and hovering function. Make sure you have connected the base unit to your PC before using the Mouse function. Changing to Mouse mode can be done in 3 ways:

- Start your Note Manager application > right click the application tray icon  > select "Mouse Mode".
- Press the top button (ON/OFF button) on the base unit.
- Click the virtual area using your pen.

In Mouse mode, your Digital Pen behaves as a mouse, having the following functionality:

- To move your mouse cursor you can hover with the pen. To start **Hovering** you can press the side button or tip the pen on the paper. The pen will now hover even with no press for about 30 seconds.
- To **Click** an object, point your mouse cursor on that object. Now tip the pen on the paper or click the side button.
- To **Double-Click** an object, point your mouse cursor on that object. Now tip the pen twice on the paper or click the side button twice.
- To **Right-Click** an object, point your mouse cursor on that object. Now press the tip of the pen a bit longer on the paper. A special 'Right Click' cursor will appear. Lift the pen from the paper, and the context menu (Right Click menu) appears.

Using your Digital Pen in Window XP

1. Installing the Note Manager

One of the provided CDs contains the Note Manager software which is required. Simply insert the CD and then follow the wizard's instructions.

2. Connecting your Digital Pen to your Computer.

3. Uploading your Mobile Notes

First make sure your Note Manager is running. Now simply connect your base unit to your USB port. The Note Manager application will detect your unit and will prompt you to upload your notes. Select "Yes" to start transferring your notes.

4. Using the Note Manager

The Note Manager can be used for storing, viewing, searching, copying and exporting notes. It is set up in Windows Explorer format, which allows you to browse through your files in the left pane and view them in the right pane.

The Note Manager contains buttons that give you access to the most commonly used menu commands.

The Tool Bar

Using the Digital Pen in Windows Vista/7

Windows Vista and 7 provides rich inking features & utilities which enable users to take handwritten notes, convert handwriting to text, annotate documents, add electronic signatures and send handwritten emails. With integrated Pen-Tablet support, digital ink technologies and handwriting recognition technologies your Digital Pen turns into a Tablet PC compatible device that's practical, comfortable, intuitive and easy to use while you are on the go and it also works well when you are at your desk.

Getting Started

To start inking in windows Vista, just plug-in your Digital Pen to any available USB port, place the receiver unit at the top of the page in the middle.

Writing on your Tablet PC Input Panel

In Windows Vista or 7, the Tablet PC Input Panel allows users to insert text into website forms, word processing and e-mail applications, web browsers, and more.

Tap the Input Panel icon  , which appears when you place the pointer in a text entry area, such as the Address bar in a web browser or a text box in a dialog box, and then start writing with your Digital Pen. The Input Panel icon does not appear on the taskbar by default. To make it appear, right-click the taskbar, tap Toolbars, and then tap Tablet PC Input Panel.

Annotations in Office 2007

In Windows Vista or 7, Microsoft Office 2007 and Digital Pen offer new capabilities that allow you to work more naturally and efficiently.

Within Office 2007, numerous applications support digital mark-up with Digital Pen and provide easy access to digital inking tools for intuitive collaboration in Word, Excel, Outlook, PowerPoint and OneNote.

Writing with a pen is a particularly efficient and natural way to comment on an existing document and to capture rough thoughts that are emerging in real time. Word, PowerPoint and Excel have a Review tab with a Start Inking button that provides an Ink Tools menu. This menu includes tools such as: felt tip pen, ballpoint pen, highlighter, and eraser, as well as options to select the Ink Color.

Using the Digital Pen in MAC

Installing the Note Manager for Mac software

Simply insert the Note Manager CD and follow the wizard's instructions.

Setting Preferences with the NoteTaker Preference Tool

Before you can start transferring your text from the Digital Pen, you first need to decide where on your Mac's hard drive you want to save your uploaded notes from the Digital Pen.

Click on the NoteTaker Preferences icon to open the preference tool, and then specify the path to the location on your Mac's hard drive where TIFF images from the Digital Pen will be saved.

Digital Pen operation with Mac

- (1) Use the Digital Pen to capture and save your notes while you are away from your Mac, in meetings or lectures.
- (2) Connect the Digital Pen to your Mac to upload the saved notes. The notes are saved in TIFF format in the directory that you have specified. Double click on the desired TIFF file in order to view the note.

- (3) While being connected to the Mac via the USB port, the Digital Pen can be used as a Mouse and as a Tablet input device for Mac ink applications. To use the Digital Pen as a Tablet Input device, you first need to enable this mode by clicking the Ink icon at the top bar of the MAC desktop and then selecting "Write Anywhere". If you deselect "Write Anywhere", your Digital Pen will work as a mouse only.

- (4) Use the digital pen in applications such as iWork'08. You can write handwritten letters on-line, and the Mac will convert it into text. The feature is available iWork Pages (word processor), iWork Keynote (presentations) and iWork Numbers (spreadsheets).

Note: The Digital Pen can be also used for drawings inside applications such as Adobe Illustrator, Photoshop, etc.

Using the Vision Objects MyScript® Notes

MyScript® Notes is a well known character recognition engine. It can convert the notes in your Digital Pen to texts. You can purchase the software from its vendor if you want.

- (1) Installing MyScript® Notes. Follow the installation instructions in the software manual.
- (2) Operating MyScript® Notes. To use the MyScript® Notes recognition engine, please make sure you have installed Digital Pen software Suite. Then, you can select a note, Notes, or a Sticky Note, and export them to the MyScript® Notes recognition engine.

Exportable objects from the Digital Pen to MyScript® Notes:

- A New Note
- A single Note from "Note Manager"
- Multi pages Note from "Note Manager"
- Sticky Note from "Note Manager"

- (3) Exporting objects. Use the following methods for each type of object in order to export it to MyScript®.

a. For a New Note, Click the "Convert to Text" toolbar button .

b. For a single/multi page Note from "Note Manager", right click the Note in the thumbnails area.

c. Right click the Note in the tree area.

d. Select a note and select "File --> Convert to Text" menu.

e. For sticky Note from 'Note Manager', right click the "Sticky Note" and select "Convert to Text" menu.

- (4) Your Note will be exported to MyScript® Notes application. MyScript® Notes will be opened with your Note in the "Conversion" area.

Quick Start Guide

For more info, please refer to the user manual

Using the Photo Sketcher

Photo Sketcher gives you the ability to sketch on top of any jpeg picture file. You can add annotations on top of any picture. Then, you can save it and share it.

Installing Photo Sketcher

Insert the Note Manager application CD into your PC, select "Photo Sketcher" and then install it following the wizard's instruction. A desktop icon will be added once installation complete.

Using Photo Sketcher

Run the Photo Sketcher by clicking the desktop icon.

1) Connect the Digital Pen

Before you can use the 'Photo Sketcher', your Digital Pen must be connected to your computer properly. A connection icon will be Green , indicating the Digital Pen is properly connected.

(2) Load a picture file by clicking the application 'File' icon . Browse to the file you would like to edit and select 'Open'.

(3) Sketch on a picture file

Once a picture is loaded, use your Digital Pen to sketch anywhere you like on the picture. Use the Pen, while hovering, to get to the point in which you'd like to sketch. Then, simply use the Pen as you usually use a Pen, and sketch.

(4) Save a file

To save a picture, press the  icon. Now select a path and a name for your file and select 'Save'.

Using your Digital Pen on iPhone/iPad/iPod

Your Digital Pen can write or make drawings on iPhone/iPad/iPod.

Installing the iPhone/iNote Software

(1) On your iPhone/iPod touch, connect to the phone's supplied AppStore and download the "iPenNote". On your iPad, connect to the phone's supplied AppStore and download the "iNote HD" application.

(2) Install the software following on-screen instructions.

Using the iPhone/iNote

Connect the Base unit

Before using the iPhone/iNote application, your Digital Pen must be connected with iPhone/iPad/iPod through the 30-pin to USB cable.

Run the iNote application

Once the iPhone/iNote is installed, an iNote icon will be added to the iPhone/iPad/iPod's desktop. Tap the iNote icon to run the application.

Upload Notes

You can upload mobile notes from the base unit to iPhone/iPad/iPod.

(1) Run the iNote application.

(2) Click "iNote" to import pictures from the Digital Pen. Your notes stored in the base unit will be uploaded to the Photo Library of the iPhone/iPad/iPod.

Create a new picture

(1) Click "Edit".

(2) Click "Create new picture" to open the palette.

(3) Tap the Pen icon , and then draw a picture on a paper with your Digital Pen while watching the screen. Also, you can slide your finger on the screen to make drawing.

ITEM# APEN301i

The following images illustrate the coverage area of your base unit. You'd better write within the area.

Note: a. The paper is a letter size paper in horizontal orientation; b. The striped line illustrates the covered area.

(4) After you have done, click to exit and save your drawing. Your drawing will be saved to the Photo Library.

Sketch on a Picture.

You can sketch or add annotations on top of any jpeg picture file. Then, you can save or share it.

- (1) Click "Edit".
- (2) Click "Open a picture" to open an existing picture from iPhone/iPad/iPod's Photo Library or a snapshot.
- (3) Tap the Pen icon , and then sketch on the picture or add annotations.
- (4) After you have done, click to exit and save your drawing.

Add/Delete Picture

You can work on multiple pictures at the same time.

- Click the Add icon to open a new page for another picture. You can add up to 5 pages.
- When multiple pages are opening, you can click the white dot to go to the corresponding page.
- To delete one page, click the Minus icon .

Change Pen Width / Color

Before you start drawing, you can change the pen width or pen color by tapping the pen icon , sliding the dot icon to adjust the width and selecting a color from the color matrix.

Erase Sketches

You can erase the sketches you have added.

- (1) Select the "Eraser" tool .
- (2) Use your finger to wipe the location you want to erase, or use your Digital Pen to hover to the location and then erase it.

Clear Sketches

You can clear all sketches from the palette by clicking the icon.

Color Sampling

You can use the Color Picker to choose one color from the picture you are working on and then apply the color to new sketches.

- (1) Make drawings with the Digital Pen or your finger.
- (2) Tap the Color Picker icon .
- (3) Click on the sketch that you have done to draw its color.
- (4) Create new sketches in the selected color with your Pen.

Change the Background

You can change the background of the palette.

- (1) Select the icon.
- (2) Click the Left and Right Arrow to change the background.

Hide/Display the Toolbar

You can hide or display the tools like Pen, Eraser, Color Picker etc. by clicking the icon.

Save the Picture

When you are satisfied with your picture, you can click the icon and then choose "save picture" to save the picture.

Send the Picture

You can send your finished picture to your friend by e-mail.

- (1) After you finished your picture, click the icon.
- (2) Select "Send by mail" or "Send by mail(PDF)"(send by email as PDF attachment).
- (3) Input the e-mail address you'd like to send to.
- (4) Click "Send".

Note: The Digital Pen works perfectly on iPhone4, iPhone3GS, iPad and iPod Touch 3G/4G. You are recommended to use it on these models.
