After use, Open the cosmetic cotton cover, remove the cosmetic cotton and clean the massage tip

## Ultrasonic and Ionic work together

Massage the entire face with ultrasonic and Ionic together. Ionic can induct-in nutrition and 3 million times/second ultrasonic can stimulate and adjust the cell membrane, improve the permeability of epidermis, accelerate metabolism and promote skin to absorb essences.

1. Extend gel onto the massage tip and desired part --  
--(because ultrasonic can't pass in the air, therefore, gel is necessary between the massage tip and skin to conduct ultrasonic into skin)

- Use more essence if the massage tip is not lubricant enough

- The massage tip shall tightly attach onto skin

2. Start the instrument, select Sonic and Ion-(two indicators light on)

3. Select High/low Level:

Please select LOW when use for the first time, and then select Middle or High after skin has adapted to it
