

# DOOGEE Y200

Young And Luxurious

## Getting to know your mobile

\* Please use the earphone included  
in the package.

## Ultra-slim Luxury

All powerful functions are wrapped into the body of 6.9mm. Its lightness can be felt once you have held it in your hand.

## Outstanding outer frame

The body is encircled by two shiny lines, one at the front and the other at the back.

The outer frame has been through stripping twice, so that it gets a metal-like feeling and avoids the influences that metal frame brings with. The middle of it is concave, appropriately reflects the brightness of the lines. The bottom of the body is designed to be a trapezoid, to maintain elegance as well as conform to ergonomics.

## Smart Fingerprint Sensor at the Front

Y200 is built in with a fingerprint sensor at the front, supporting 360-degree identification. It allows you to securely lock you APPs and unlock them with a simple press. Several sets of fingerprints are allowed for multiple users. Faster, simpler and safer!

Touch Unlock

## SONY IMX 219 Camera

Y200 applies Sony IMX 219 with 8MP as its rear camera, which records more details when taking photos. The 5P lens group helps improve the image quality a lot. The large F/1.8 aperture can effectively capture more lights under low light conditions. What's more, the 80-degree wide-angle design can capture broader vision.

flammable materials as there is a real risk of fire.

7. Contact with liquid : Do not expose the phone to liquid or touch it with wet hands : any damage caused by water may be irreparable.
8. Use only DOOGEE-approved accessories. The use of unauthorised accessories may damage your phone or cause a safety risk.
9. Do not destroy the batteries and chargers. Never use a battery or charger that has been damaged. keep batteries away from magnetic objects as the latter might cause a short-circuit between the positive and negative terminals of your batteries and permanently destroy the battery or phone. As a general rule, you should not expose the batteries to very high or low temperatures (below 0°C or above 45°C). Differences in temperature may reduce battery autonomy and service life.
10. Shocks and impact : Handle and use your phone with the utmost care. Protect your phone : shocks and impact may damage it. some parts of your phone are made from glass and might break if the phone is dropped or is subject to severe impact. Avoid dropping your phone. Do not touch the screen with sharp objects.
11. Electric shock : Do not try to dismantle your phone as there is a very real risk of electric shock.
12. Maintenance : If you want to clean your handset, use a dry cloth (do not use a solvent, such as benzene, or alcohol).
13. Recharge your phone in a well ventilated area. Do not recharge your device when it is resting on a soft surface.
14. Damage to magnetic strips : keep your phone away from credit cards as they may damage the data on the magnetic strips.

## [EN] Safety Information

Please read this safety information carefully so that you can use your phone in complete safety

1. Children : Be very careful with children and your phone. A mobile phone contains a number of detachable parts. Exercise great care when children are in close proximity to the phone. The phone contains small parts that could be swallowed or cause choking. If your phone is equipped with a camera or lighting device, do not use it too near children or animals.
2. Hearing : Prolonged listening at full power using a lightweight headset or headphones can damage your hearing. Reduce the volume to the lowest possible level when listening to music or conversations. Avoid high volumes over extended periods.
3. Driving : Exercise care when driving. Driving requires maximum attention at all times in order to minimise the risk of accidents. Using a mobile phone can distract the user and result in an accident. You must fully comply with the local regulations and laws in force regarding the use of cell phones whilst driving. You are not allowed to use the phone whilst driving. A hands-free kit should not be regarded as an alternative solution. Flying : Turn your phone off when flying. Remember to turn your phone off when you are in a plane (GSM + Bluetooth) as it may cause interference.
4. Hospitals : Turn your phone off near any medical devices. It is extremely dangerous to leave a phone switched on near medical devices as it may cause interference. You must observe any instructions or warnings in hospitals and treatment centres. Remember to turn your phone off in service stations. Do not use your device in a petrol station near fuel. It is dangerous to use your phone inside a professional garage.
5. Electronic implants and pacemakers : Users who wear a pacemaker or who are fitted with an electronic implant must hold the phone on the opposite side to their implant as a precaution when making a call. If you notice that your phone is causing interference with a pacemaker, switch it off immediately and contact the manufacturer of the pacemaker for advice on what action to take.
6. Fire hazard : Do not leave your device near heat sources such as radiators or cookers. Do not leave your phone charging near

## [ES] Seguridad

Para utilizar este teléfono en plenas condiciones de seguridad, lee atentamente las siguientes consignas de seguridad :

1. Niños : Presta especial atención a los niños. Los teléfonos móviles contienen numerosas piezas sueltas, por lo que deberás prestar especial atención cuando un niño esté en contacto con un teléfono móvil. Este producto contiene pequeñas piezas que pueden ser ingeridas o provocar la asfixia en caso de ingestión accidental. si tu teléfono cuenta con cámara fotográfica o un dispositivo de iluminación, no los utilices demasiado cerca de los ojos de niños o de animales.
2. Audición : La escucha prolongada a fuerte potencia a través de cascos o auriculares puede provocar daños en la audición. Trata de regular el volumen al mínimo necesario cuando estés escuchando de música o durante una llamada. Evita la escucha prolongada a volumen elevado.
3. Al volante : se cauto mientras conduces. La conducción exige una atención extrema e ininterrumpida, reduciéndose así el riesgo de accidentes. Utilizar un teléfono móvil puede distraer la atención del usuario y conducirle a un accidente. Es esencial respetar scrupulosamente la legislación y las normativas locales en vigor en materia de utilización de teléfonos inalámbricos al volante. Por consiguiente está prohibido hacer uso de teléfono conduciendo, y la utilización de un kit manos libres no puede considerarse una solución. En avión : Apaga tu teléfono en el avión. No olvides apagar tu teléfono cuando te encuentres en un avión (GSM + Bluetooth), ya que podrían producirse interferencias.
4. En hospitales : Apaga tu teléfono cuando haya próximo cualquier dispositivo médico. Es muy peligroso poner en marcha un teléfono habiendo próximo un dispositivo médico. Esto puede provocar interferencias con dichos dispositivos. Por consiguiente, han de respetarse todas las consignas y avisos en hospitales o centros de salud. No olvides apagar tu teléfono en las estaciones de servicio. No utilices tu móvil en una gasolinera, en la proximidad de combustibles. Es peligroso utilizar tu teléfono en el interior de un taller de reparación.
5. Implantes electrónicos y marcapasos : Las personas que tengan un implante electrónico o un marcapasos deben adoptar la precaución de colocar el teléfono en el costado opuesto al implante durante una llamada. si percibes que tu teléfono provoca interferencias con un marcapasos, apaga inmediatamente el teléfono y ponte en contacto con el fabricante del marcapasos o con tu médico con el fin de informarte sobre qué conducta adoptar.
