1. Overview
This product adopts the newest CSR chip with high compatibility, that suitable for most Bluetooth multi-media products (cellphones, Pad and so on).

2. Appearance

3. Charging
A rechargeable battery is embedded in the product. We recommend charging the battery fully for 3 hours before you use it for the first time.

The battery has low-voltage protection. In case of low power, the red light flashes once every 3 seconds. Continued use of the product may reduce the batterylife and standby time.

The red light is constantly on during charging, and will turn off when the charging is finished.

4. Power On/Off
Power On: Push the control tower to power on the product. This Bluetooth speaker will automatically connect with the last Bluetooth device it connects to. If there is no Bluetooth device connection found, the product will enter pairing status.

Power Off: Press the control tower (or the "MFB" button) and hold for 3 second to power off the product.

5. Pairing & Connection
Prior to using the Bluetooth speaker for the first time, it should be paired and connected manually with the Bluetooth device.

Power On: When the red and blue lights alternately flash, the speaker is ready for pairing.

Then use your Bluetooth device search and connect this product "BT Speaker". If password is required, please enter 0000.

Note: If the pairing process fails to be completed, Please try again by repeating the above steps.

6. Play the stereo music
(1) The play/pause in standby mode, press the control tower (or the "MFB" button) for 1 second, then music play; in music playback mode, press the center for the "MFB" button for 1 second, then music suspend.
