Caution

Please read and observe all warnings and instructions in this owner's manual and those marked on the unit. Retain this booklet for future reference.

There are two kinds of caution symbols as follows:

⚠️ WARNING

This symbol is intended to alert the user on the presence of dangerous voltage within the product's enclosure that may cause electric shock to you.

⚠️ CAUTION

The exclamation point within an equilateral triangle is intended to direct attention to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

⚠️ WARNING

- Do not operate this unit unless vehicle is parked in safe and legal area.
- Do not try and service these products yourself. Seek only a qualified service center or factory service center.
- Be careful not to drop or apply pressure to the front panel of your video monitor. If the screen cracks due to misuse, your warranty will be void!
- Be careful not to overload your cigarette lighter plug by adding more than one device at a time.
- Do not mount the product where it will obstruct the deployment of the airbag or in an area where it would affect the vehicular control. Also be careful to avoid mounting the product where it can become hazardous during sudden stops or in the event of an accident.
- Do not cover the heater ducts or vents as this may cause a fire or electric shock.
- Use only a damp cloth to clean the screen and use only purified water on the cloth, wring out all excess water prior to wiping the screen. Do not use any cleaners or chemicals to clean the screen. In most cases a dry cloth will do!

⚠️ CAUTION

- Quality installations are best performed by qualified and certified installers.
- Don't touch the unit if there is lightning as this may cause an electric shock to you.
- Do not cover the heater ducts or vents as this may cause a fire or electric shock.
- Do not bring magnetic items such as credit cards and other cards with magnetic strips near the monitor as this may cause damage to the unit and/or magnetic item.

Check Point

1. The operating temperature of this product is limited to -10°C~+60°C. Your vehicle can reach temperatures up to 80°C in the summer time.

2. From time to time when your vehicle is extremely hot or cold you must allow time for your air conditioner or heater to cool or heat the vehicle and for operating temperatures to return to normal operating ranges. Your monitor will return to its normal functions when these operating temperature are achieved.

3. Your optimum picture quality is achieved when you are directly in front of the monitor (+/-30 degrees).

4. Do not open covers and repair yourself. Refer servicing to qualified personnel.

5. DVD Players use an invisible laser beam which can cause hazardous radiation exposure. Be sure to operate the unit correctly as instructed.

6. Do not turn ignition off while a disc is playing. It can cause damage to the DVD Player.
Troubleshooting

Specifications

Check point

When a disc is brought from a cold environment to a hot one, there may be steam on the face of the disc, or water will appear on the pickup lens. It will be affected disc play.

1. Remove the disc from the DVD player.
2. Turn on the power and leave it on for an hour to vaporize the condensation.
3. You can operate the DVD player without any problems.
