Important information about batteries
Never use different types of batteries together, or a combination of old and new batteries. Always remove the batteries if the product is not to be used for a long time or if the batteries have run down. Never use damaged batteries. Only use batteries of the type recommended, or a corresponding type. Insert the batteries so that the poles are correctly positioned. Rechargeable batteries must be recharged using the correct battery charger under the supervision of an adult. You cannot recharge batteries while they are still in the product, and you must never try to do so. Never attempt to recharge non-rechargeable batteries. Never short-circuit the battery holder.

Important information about rechargeable battery packs
Do not dispose of your battery pack by incineration. Lithium battery packs must be disposed of in accordance with the current legislation in your country. Only use rechargeable battery packs of the same type as that included with this product. Always remove the battery pack from the product when it is not in use. Always remove the battery pack from the charger when it is fully recharged. Always completely recharge the battery pack prior to use. Use only the included battery charger to recharge your battery pack. Never short—circuit the plug on the battery pack. If the battery pack is hot after use, it must be allowed to cool down before recharging. Never use a damaged battery pack. The seal on the battery pack must never be damaged or removed. When connecting the battery pack to the charger or toy, carefully insert the plug until you hear a “click”. To unplug the battery from the charger or toy, gently press the release and pull the plug from the contact (do not pull the wire). Do not apply force—the plug will only fit in one way.
