Welcome To Use ZADA Phone

1. How to save power
Firstly, to reduce screen brightness, you can find in setting-display to adjust the brightness of screen.
Close the GPS global positioning, to choose the “Position information access” in the “Settings”, then it can be done just by removing the check of “Enable GPS Satellite Set” below. The standby time can be saved 30%-40% just by close the WLAN search once you use wifi, Bluetooth headset, and so on in normal time. And to close the incoming call and SMS vibrate alert in normal time.

2. How to lock the screen to prevent others using
In setting-“Screen lock” to set your Unlock pattern to prevent strangers from using or to protect the privacy of confidential documents.

3. How to make screenshots
Press Power key+Home key at same time to make Screenshots.

4. How to deal with the water is accidentally penetrated into mobile phone
Please remove the battery immediately when the water is accidentally penetrated into mobile phone, and put it in a cool ventilated and dried place to air-dry. If the phone can not be switched, please contact the ZADA after-sales service to repair.
