How to use the glasses
Main Features
IR Signal Receiver
Earpieces
LCD Lenses
LED light
Nosepiece
Power

Operation Guide
1. Press the button to start. If you can’t watch 3D image, press the button again.
2. If the Glasses is out of the signal beyonds 5 minutes, it would automatically stay in ready mode.
3. Long press the button until the LED light fresh, the glasses is turned off.
When you use a new pair of glasses, please charge it first. The LED indicator light will appear red when charging, it will extinguish when the glasses has been charged completely.

II. Warning

1. The glasses contain rechargeable lithium battery. Please do not damage or destroy the battery, and do not place the glasses in a location exposed to direct sunlight, heat, fire or water, which may cause fire or injury.

2. Do not disassemble the glasses. If doing that, 3D glasses might be damaged which will result in electric shock or injury.

3. Do not let your child remove the components of 3D glasses and swallow it, if this happen, consult a doctor immediately.

4. Do not drop down, heavily press or tread glasses. If doing this, it might break lenses or cause injury.

5. Please store the glasses in a cool and dry place, otherwise, it may cause fire.
Caution

1. If you have experience in photosensitization symptom, heart problem or other outstanding symptom, please don't use this glasses. Because it may aggravate the illness when use glasses.

2. If feel tired, uncomfortable when use glasses, please stop using it at once. Because it may result in visual fatigue or other maladjustment after long time wearing. We suggest you take a rest after using glasses more than 2 hours.

3. Children should use glasses with adults beside. Because we can't judge the feeling of children easily, we are not able to prohibit them feeling sick.

4. For better 3D effect, we suggest you turn off the light of room when watching 3D content. Because fluorescent light and something like that may interfere with infrared communication between 3D glasses and the infrared emitter, which will result in lens flicking.

5. If you have myopia, hyperopia, astigmatism or different eyesight problems on both eyes, please use 3D glasses after correcting vision.

6. If electric shock or any other glasses problem happen, please stop using glasses immediately.

7. The glasses is only used for viewing 3D video, please do not use it for other usages.

FAQ
