1. Before using your device, read the entire manual and all safety instructions to ensure safe and proper use.
2. The descriptions in this manual are based on the default settings of your device.
3. The images and screenshots used in this manual may differ from the actual product.
4. The contents of this manual may differ from the product, or from software provided by service providers or carriers, and are subject to change without prior notice.
5. Available features and additional services may vary by device, software, or service provider.
6. Formatting and delivery of this manual is based on Android operating systems and may vary depending on the user's operating system.
7. Apps on this device may perform differently from comparable computer apps and may not include all functions available in the computer version.
8. Applications and their functions may vary by region or hardware specifications. We are not liable for performance issues caused by third-party applications.
9. You may incur additional charges for data services, such as messaging, uploading and downloading, auto-syncing, or using location services. To avoid additional charges, select an appropriate data tariff plan. For details, contact your service provider.
Please keep this manual for future reference.

1. MAIN TABLETOP
Our car android is developed on Android 4.0.4 system, it is more powerful than old android version system, supported gps navigation system, aux, dvd,bluetooth,radio,multimedia,dvd player, tv, wireless wifi/3G, and supported thousands of APP.
Front button introduction:
HOME: Return to the Home screen; Open the list of recent apps (press and hold);
MENU: save as shortcut for wallpaper, app management, system setting
APPS: Open APPS
BACK: Return to the previous screen.
**Access applications**
Launch applications and take full advantage of features on your device. You can reorganise the application list to match your preferences, or download applications from the Internet to enhance your device’s functionality.

On the Home screen, select Apps to access the application list.

Widgets are small applications that provide convenient functions and information on your Home screen.

1. In the application list, select Widgets to open the widget panel.
2. Scroll left or right on the widget panel to find a widget.
3. Tap and hold a widget to add it to the Home screen blank place.
2. Wallpaper setting
