Thanks for your purchase of our product. Please read through this manual before making connections and operation. And, please retain this manual for future reference.

This unit that applies the latest state of art electronics is designed with easy installation, light weight and small size. It is very convenient to take it with you anywhere and use it in the hotel, office, home, etc.

Features
- High-definition TFT LED screen
- With headphone jack
- With USB/MMC/MS card slot
- Compatible with DVD, VCD, MPEG4, CD, Mp3, CD-R, DVD-RW, JPEG, Kodak Picture CD, DIVX, etc.
- Support playback control: play, pause, fast forward playback, fast rewind playback, etc.
- Two optional aspect ratios 16:9 and 4:3
- Working voltage: DC9-12V

1 Placement:
- To prevent fire or shock hazard, do not expose this appliance to rain or moisture.
- Do not expose this appliance to direct sunlight.
- Keep this appliance away from strong magnets, heat sources and excessive dust.
- Do not place this appliance on an unstable surface.
- If the unit is brought directly from a cold place to a warm one, moisture may condense inside the unit which will cause malfunction. Should this occur, leave the unit turned on for a few hours until the moisture evaporates.

2 Installation:
Ensure that the portable DVD player is installed according to the instructions and illustrations provided in this manual.

3 Caution:
- Do not drop any objects into the unit through the openings.
- Do not spill or spray liquid of any kind on or in the unit (this may result in a fire or electric shock).
- Do not place anything heavy on the unit.
- To ensure proper ventilation and proper operation, never cover or block the slots and opening with a cloth or other materials.
- Keep the unit away from an open flame such as fire, candle, etc.
- It is hazardous to replace the battery incorrectly.
- Install the batteries correctly.
- Please dispose the batteries according to the local rule and law.
- The maximum working temperature is 95 degrees Fahrenheit or 35 degrees Celsius.

4 No Disassembling:
Never attempt to disassemble the unit. There probably would be a risk of electric shock and/or harm by exposure to laser radiation.
Consult qualified service professionals for maintenance.
CAUTION AND WARNING

5 Cleaning unit:
1.) When cleaning, please make sure the unit is unplugged from the power source.
2.) No chemicals or detergent is recommended for cleaning.
3.) Use a soft cloth lightly dampened with water to clean the exterior of the unit only.

6 Disc handling
- Do not leave the discs near heat sources, in direct sunlight, or in high humidity.
- Store discs in their cases when they are not being used.
- Stacking discs or storing them at an angle without putting them in the case can cause the disc to warp.
- Do not touch the disc surface when handling a disc; hold it by the edges.
- Fingerprints, dust, dirt or scratches on the disc can distort the picture or reduce sound quality. Always handle carefully and make sure discs are clean before use.
- Do not stick paper or tape onto the disc.
- Do not write on the disc with a marker, etc. Clean discs using a soft cloth, lightly wiping from the center outwards.
- Do not use solvents such as benzine, commercially available cleaners not intended for CDs or anti-static spray intended for vinyl LPs as these may damage your disc.

Common keys function on the panel are following

Menu
Press to return to the root menu for DVD

Stop
Press to suspend current broadcast

Press this button to operate TV and LED screen.

Press "REV" to search backward, "FWD" to search forward.
KEY FUNCTION

CHARGING THE UNIT

This player is powered by a Lithium-Polymer battery. It features high ratio of energy to weight. And it has no memory effect and thus it can be rechargeable anytime regardless that it is fully or partially discharged. It takes about 6 hours to fully charge the battery. And the fully charged battery can be used for up to two hours.

Connect the attached AC/DC adapter to the DC INPUT jack on the unit, then plug the adapter into a 240V AC outlet.

Note: Make sure to switch off the unit before charging. The charging-indicator LED changing from red to green indicates that the battery has been charged.

Usage and Maintenance of the REchargeable Battery

1. The working temperature of the rechargeable battery ranges from 0°C to 45°C.
2. Always unplug the unit when it is not being used unless it is being charged.
3. Heat is inevitably produced during the playback, which is normal. But do not use it for a long time.
4. Avoid colliding it with other objects and keep away from humidity and overheating.

CONNECTION TO TV

This unit can be connected to a TV so that you can enjoy the high quality music, movies etc. with a TV.

Use a AV cable to connect the AV OUT jack on the unit to the AV IN jack of a TV.

DVD PLAYER has a sound and video input jacks for connecting external audio and video input.

Menu Operation

1. Press [SETUP] on the remote control or on the unit to show the setup menu.
2. Press [LEFT] [RIGHT] to select an item. The submenu of the selected item will be shown below instantly.
3. Press [UP] [DOWN] to select an item in the submenu, then press [OK] [ENTER] [RIGHT] to enter. Use [UP] [DOWN] to select an option, then press [OK] [ENTER] to confirm it or press [LEFT] to cancel.
4. Then you can press [UP] [DOWN] to continue to set other items in the submenu.
5. Press [LEFT] to go back to the superior menu of the current one.
6. Press [SETUP] again and press [ENTER] [OK] to exit the setup menu.

1. GENERAL SETUP PAGE

There are six items in the GENERAL SETUP PAGE. They are TV DISPLAY, ANGLE MARK, OSD LANGUAGE, CAPTIONS, SCREEN SAVER, and LAST MEMORY.

1.1 TV DISPLAY

4.3 PANSCAN

If the unit is connected to a conventional TV set, the wide-screen image will be displayed on the screen in its native aspect ratio with some part on the left and right cut off.

4.3 LETTERBOX

If the unit is connected to a conventional TV set, the wide-screen image will be displayed in its native aspect ratio with black borders on the top and the bottom side. 16:9 WIDE: Select this option if the unit is connected to a wide-screen TV set. The wide-screen image will be displayed in full screen in its native aspect ratio while the 4:3 image will be stretched horizontally to fit in the screen.

1.2 ANGLE MARK

Set this item to ON. When a disc encoded with multiple camera angles is playing, the angle mark will display on the screen. Then you can view the video of different camera angles by pressing [ANGLE] on the remote control.

Set this item to OFF to disable this function.

NOTE: This function only works with those discs encoded with multiple camera angles.

1.3 OSD (On-Screen Display) LANGUAGE

Set the on-screen display language in this item.

1.4 CAPTIONS

Set this item to ON. When a disc encoded with closed captions, the closed captions will be shown on the screen. Set this item to OFF to hide it.

You can also press [SUBTITLE] on the remote control to show or hide the closed captions.

NOTE: This function only works with those discs encoded with closed captions.

1.5 SCREEN SAVER

ON: If the image remains motionless on the screen, for example the disc is paused, stopped etc, for several minutes, a screen saver will appear on the screen. You can press any key or button to wake it up.

OFF: Disable the screen saver function.
1.6 LAST MEMORY
ON: Each time you turn off the unit or stop the disc, it will memorize the last play time.
Next time you turn on the unit and play the same disc, the unit will play from that
memorized point.
OFF: Disable the last memory function.

2 AUDIO SETUP PAGE
2.1 SPEAKER SETUP
2.1.1 DOWNMIX
LFT/RT: The 5.1-channel audio is mixed into left channel and right channel and is output
via the FL and FR speaker respectively.
STEREO: The 5.1 channel audio is mixed into stereo signal and is output via the FL
and FR speaker.
NOTE: This function only applies to the Dolby AC-3 encoded 5.1-channel discs.

2.3 DOLBY DIGITAL SETUP
2.3.1 DUAL MONO
STEREO: The player outputs the left-channel audio and right-channel audio via the FL
and FR speaker respectively.
L-MONO: The player outputs the left-channel audio only via both the FL and FR
speaker.
R-MONO: The player outputs the right-channel audio only via both the FL and FR
speaker.
MIX-MONO: The player outputs the average signal of the left-channel and right-
channel audio via the FL speaker and the FR speaker.
NOTE: This function only applies to the Dolby AC-3 encoded 2-channel discs.

2.3.2 DYNAMIC
When you watch films with large dynamic scope in low volume, for example at night,
you can adjust the dynamic value up to avoid losing sound details resulted from the low
volume.

3 VIDEO SETUP PAGE
This menu is used to setup the picture quality of LED of the unit.
3.1 QUALITY
Adjust these items by your preference.
3.1.1 SHARPNESS
There are three options (HIGH, MEDIUM and LOW) for you to choose in this item.
3.1.2 BRIGHTNESS, CONTRAST, GAMMA, HUE and SATURATION,
LUMA DELAY
Enter these items respectively, use direction key [LEFT]/[RIGHT] to adjust the value,
then press [ENTER] to confirm it.

SYSTEM SETUP

4 PREFERENCE SETUP
If there's no disc in the disc tray, the disc tray is open or the disc in the disc tray is
stopped, this item is available.
4.1 TV TYPE
This product supports both NTSC (National Television System Committee) and PAL
(Phase Alternating Line) television broadcasting standards.
PAL: If the connected TV is PAL system which is used in China, Hongkong and Europe,
etc, select this mode. It will change the video signal of a NTSC disc and output in PAL
format.
NTSC: If the connected TV is NTSC system which is used in Taiwan, America and
Canada, etc, select this mode. It will change the video signal of a PAL disc and output
in NTSC format.
NOTE: If a wrong selection is made, the viewing image will be very poor. In such case,
you are supposed to change the option in this item to fix the error.
4.2 PBC (Play Back Control)
ON: Activate the PBC function. When playing disc encoded with PBC function such as
VCD 2 10, SVCD etc, press [MENU] to return to the PBC menu.
OFF: Disable the PBC function.
NOTE: This function only works with those discs encoded with PBC function such as
VCD 2 0, SVCD, etc.
Dvd, VCD 1, CD-DA and MP3 disc have no PBC menu.
4.3 AUDIO, SUBTITLE and DISC MENU
Select a preferred audio language, subtitle language and disc menu language in these
items.
You can also change the audio language by pressing [AUDIO] and the subtitle
language by pressing [SUBTITLE] on the remote control.
NOTE: If the selected languages in these items are not available for the currently
playing disc, the disc's default settings work.
4.4 PARENTAL
This item allows the user to set a maximum rating of the movies that can be viewed.
Movies rated higher than the level set for the parental lock can not be viewed without
putting the correct password. What's more, to key in the correct password is needed to
reset the level. The default password is 136900.
NOTE: This function only works with those discs with parental function.
4.5 DEFAULT
Restore the default settings except the settings in the PASSWORD setup page and the
PARENTAL item.
5 PASSWORD SETUP PAGE
5.1 PASSWORD MODE
You can switch on/off the password function in this item.
Note: You must key in the correct password and press [ENTER] before you change the
option in this item. The default password is 136900.
5.2 PASSWORD
You can reset the password in this item.
NOTE: The default password (136900) is always active even if the password has been
reset.
**PLAYBACK**

After all the connections was made correctly. Switch on the unit. Now, it is ready to service!

**Loading and Playing a Disc**

A. After connecting power to the unit, set the power switch to the ON position.
