Home Screen > SETTINGS > Other > More Setting > Bluetooth > ON

Click "Not visible to other Bluetooth devices", the menu turns to "Visible to all nearby Bluetooth devices", 2 minutes countdown begin.

Select the target device within 2 minutes, connection will be done automatically, some devices need to enter pairing code, usually is 0000 or 1234.

2.2 Advanced Operations

2.2.1 WLAN Hotspot

Operations on device:
Home Screen > SETTINGS > Other > More Setting > More...
Portable hotspot > Select "Portable Wi-Fi hotspot"
Select "Set up Wi-Fi hotspot" to set up 'Network SSID', 'Security', 'Password' parameters.

Ensure connected to the wired network, Device can be used as wireless AP to support more wireless devices access in the family.

2.2.2 Miracast

Operations on device:
Home Screen > My recommend > Miracast > Open Miracast

Operations on other devices (for example MIUI 2):
Home Screen > Settings > WLAN > Press menu > WLAN Display > Find the devices searched, click invite.
2.2.3 DLNA

Ensure that other devices like iPhone, Android smartphone, etc. have opened MediaShare, and they are in the same local wireless LAN with this device.

*DLNA software including but not limited to MediaShare

2.2.4 AirPlayer

Ensure that all devices (iPhone, iPad, etc.) are in the same local wireless LAN with this device.

Operations on device:
Home Screen → My recommend → Media Center → AirPlayer → Start AirPlayer → ON

Operations on iPhone devices:
Home Screen → My recommend → Media Center → AirPlayer → Start AirPlayer → ON

Through WiFi, multimedia content (images, music and videos) in iPhone devices can be transferred to TV for playing.

*RemoteME.apk only can run well on Android platform.
