	In/Out Disc Button	disk in and out
SD	SD Media Card slot	Insert the appropriate memory card ,multimedia file slotsystem can read the card
USB	USB Socket	①.Connect other devices by USB socket. ②.Connecting an external WIFI/3G dongle
RESET	Reset Button	Click reset button to reset system and re-start.
MIC	Microphone	Receive voice from bluetooth telephone call.

Remark: All long press means press time at least lasting 3 seconds; Button and socket is different according to different car types, please take real type as standard.

1.3 Tips for Using Touch Screen

When using the touch screen, you can use several ways to perform corresponding operations on the device.

1.3.1 Clicking Function

You could select an application icon or option on the screen to realize clicking function. For example, click Bluetooth to enter into bluetooth application.

1.3.2 Pressing Function

You could press the current user interface, icon, inputting column by pressing function. For example, press on the blank area of the main interface, then comes a pop-up menu, you could perform some function

1.3.3 Dragging Function

Drag the touch screen or press the scroll bar for up and down operation. For example, browse the contact list of the bluetooth phones by dragging function.

1.3.4 Zooming Function

When browsing the web, click the screen twice, then you could zoom in or out the page content. Or you could press the screen with two fingers by control the sliding distance between the fingers to zoom in or out the page content.

1.4 Main Screen

You can use the touch screen operation to use the various functions of the device. This equipment has a total of five main screen, left or right sliding can be switched with each other. Any interface press the HOME physical buttons on the panel to return to the main screen interface, and display the application

icon in the main screen interface, click any application icon to open the program.

Note: You can add the freedom of the space of the main screen or Remove Programs icon to see equipment Basic Settings section. Click the application icon; you can view all of the programs of the equipment.

1.5 Status bar indicator

Icons on the left top of the screen are notifications for messages and events; icons on the right top of the screen are device status indicator.

If there is new message, it will be displayed on the status bar, slide your finger gently from the status bar, all prompts would be displayed. Then you could click the message and view the content.

Indicators the left	Description	Indicators on the right	Description
	Network signal strength		Network signal
	New Message		USB connection instructions
	WIFI signal indicator		Current Time indication

Tip: You can tap and hold the status indication bar to view the current day.

Note: The device software is under upgrading, the status indicator may be different with your device; please refer to the actual device software.

1.6 Text Entering

When edit text, you could use existing method of entering and Android keyboard to edit English, numbers, and symbols etc., such as editing message, searching key words etc.

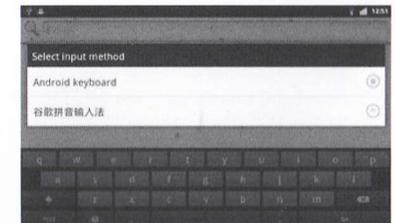

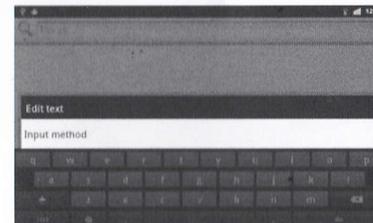

Tip: The display format would be different according to different status and keyboard of the entering, please refer the actual one

1.6.1 Switch on the Entering Method

Open the text editing interface

Click in the editing area, then the editing menu would appear.

According to the input method, input method you want to use the midpoint of the input method menu, you can choose the Android keyboard or install third-party input method.

1.6.2 Android Keyboard Input

Switch the input method into Android keyboard (see switch input method)

Remark:

1. You can click the number sign key  to switch to numbers and symbols input mode.
2. Click  to switch letter case.

2. Function Operations

2.1 General

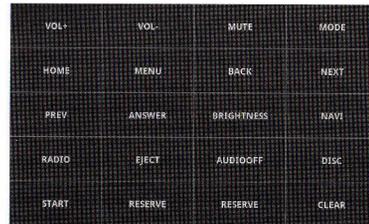

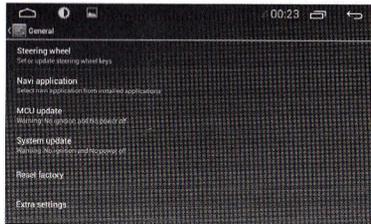

2.1.1 Steering Wheel

Users could set the steering wheel according to hint.

Note: Steering wheel interface is special for cars with buttons, but some cars' steering button are not able for study but by "can", such as Ford MONDEO

Application>Setting

- > General Settings
- > Steering wheel Settings

Steering Wheel Interface

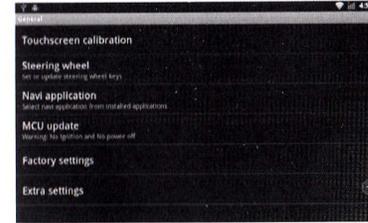

- a. First to click "Start"
- b. Click the buttons as you want.
- c. Click the corresponding button on the wheel, if the study displays successful, there will be a change on the corresponding color on the main screen.
- d. Repeat step 1 and 2 till you complete all the buttons' setting on the steering wheel.
- e. Click "END" to ensure that the steering wheel setting is completed. If you want the steering wheel button to re-learn, press the [CLEAR] Repeat a, b, c, three steps

2.1.2 Screen Calibration (For resistive screen only)

Applications> Settings

- > General Settings
- > Touch screen calibration

Enter the calibration screen to calibrate the screen interface, please click as close as possible to the cross until a successful calibration, then exit the calibration screen.

Select appropriate map application, then it can be associated with the navigation button on the physical and navigation icon on the main screen.

Applications> Settings

- > General Settings
- > Navigation options
- > For example: GO

2.1.4 factory settings

When the system is unable to work or there is problems after user used the system, it can be restored to the factory settings. Once it's restored to factory settings, all the third-party software would be deleted, and the current system settings would be lost. For navigation software, just need to install corresponding APK. Please operate carefully.

Applications> Settings

- > General Settings
- > factory settings

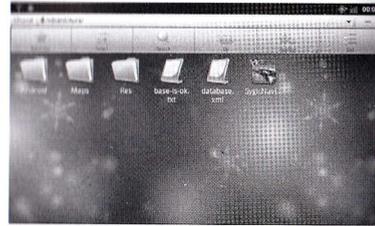

2.2 Navigation

2.2.1 Navigation Software Installation

1. Copy the application program with suffix name "APK" to SD card or U disk. There are two installation methods:

- ①. Click into the document management interface to find SD card or U disk directory and select "APK" and click install directly.

Applications> File Management Interface
> Expansion card or U disk

File Management Interface

②. Extra Interface->Application Program->Install
Application Program
Select the application program with suffix named "APK"
and install.

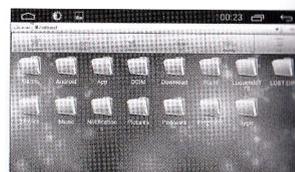

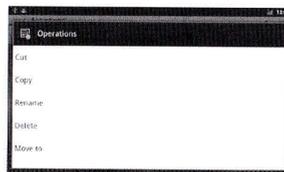

Application Program Interface

Application > Settings
> Applications
> Application Program Installation

Note: Please copy the navigation map software to the system storage memory first, and then install the navigation

APK. Steps are as follows:

- ①. Insert navigation data packets to the SD card or a U disc
- ②. Start the ES file browser (or other document management software)
- ③. Enter the " /sdcard/Favorites/mnt/usb/mmcblk1p1"(SD) or" Favorites / mnt/usb/mmcblk1p1" (U-disk) directory, find the navigation packet directory (forexample: APK (3rd party application)), long press the directory and select "Copy" in pop-up menu
- ④. Go back to the "/sdcard/" directory, choose the paste command
- ⑤. Waiting for the copy is complete (30 minutes approximately /3.5G)

2. After successful installation required to choose you need to use the navigation application program, association panel on navigation physical keys NAVI and interface of the main navigation application icon (see 2.2.4.navigation options).

2.3 Radio

2.3.1 RADIO

Press the RADIO button on panel or click the icon on the main menu to enter the radio interface, the specific functions and operations are as follows:

Radio Interface

The functions of Icons in the radio interface are described below:

Icon	Button Name	Function Description
	Band Switching	Click BAND to switch between mode FM1/FM2/AM.

- Function keys on the panel are unavailable when in the call; the function keys return to normal after hang up.

Bluetooth phone Dial Records Interface

2.4.4.2 To achieve the called function via Bluetooth

When the mobile phone is connected with Bluetooth device and there is an incoming call, the interface is divided into two situations:

- In the Bluetooth Application Interface
- In other function interfaces

Note: Click  the call is pickup the phone, and click  means to hang up, the small window will automatically disappear.

2.4.5 Call Record

In the Bluetooth interface, click  to enter into bluetooth call history interface.

Click for doing dial operation.

Remark: When the names and numbers are long, they would be displayed rollingly.

	Missed calls
	Received calls
	Dialed calls
	Delete all call information

Call recording interface

2.4.6 Bluetooth Music

In the Bluetooth interface, click  into Bluetooth Music Interface.

When connected with bluetooth mobile phone, it can operate play/pause/down music function.

Note: Some kind of mobile phones need to start playing music player for bluetooth music when using bluetooth music function.

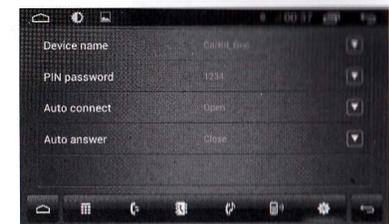

Bluetooth Music interface

2.4.7 The whole Bluetooth hardware settings

In Bluetooth interface, enter the Bluetooth settings screen.

	The head unit name when searching on phones
	Pair settings
	Automatic connection
	Automatic answer
	Click to back to main menu.
	Click to go back to last interface.
	Back to matching the main interface

2.5 3G Application

Applications> Settings
 > Wireless and Network
 > Mobile network
 > Access Points

2.5.1 Allow data roaming

Applications> Settings
 > Wireless and Network
 > Mobile network

- Click data roaming, select OK.
- If the recognition is successful, the access would automatically identify the type of 3G device to populate the appropriate access automatically, as shown below:

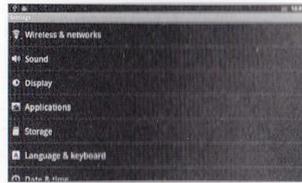

Note: please confirm data roaming open, otherwise you cannot use the 3G function

2.5.2 Set the access point information

Use 3G, please 3G module connected to the USB interface, and available to confirm insert a 3G card.

a. Enter the system main interface,

b. Select the "Settings" to enter the main interface.

c. Select "Wireless networks", access to the network selection screen.

d. Select Mobile networks ", enter the mobile network settings of themain interface,

e. First make sure the " Data roaming " is selected, if you have no choice, point the " Data roaming "pop-up prompt menu, select" OK

f. Results shown in Figure 7. Choose the successful:

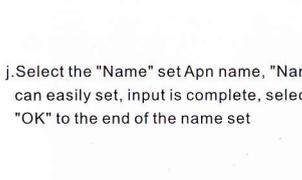

g. Set the Access Point Names ", enter the name of the network access point settings to the main interface.

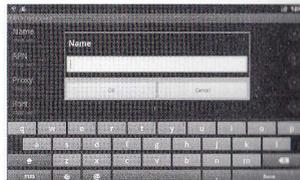

h. Press the "Menu" button on the machine panel, pop-up menu option.

i. Select "New APN" new "APN" into the "APN" to set the main interface.

j. Select the "Name" set Apn name, "Name" can easily set, input is complete, select "OK" to the end of the name set

k. Select "APN", enter "the Apn access name in the Chinese mainland of China Unicom's 3G the APN settings for:" 3gnet "in Hong Kong, Macao and Taiwan and foreign, should be consulted local 3G network supplier, enter the correspondingAPN value.

l. Press the "Menu" button on the machine panel, pop-up menu option.

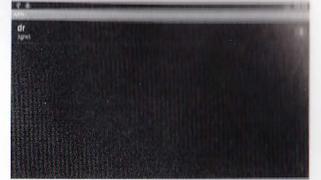

m. Select "Save" to save the settings content, and return to the main interface of Apn settings

n. When the following interface pops up, make sure that Step 1 is complete, press Home to return to the main interface, then repeat 1-15 steps

o. In the Apn the main interface, select New APN network behind the circle, so that it is selected can.

p. Back to the main interface, the 3G network has opened, the search to the 3G signal, can use 3G network.

2.6 Multimedia

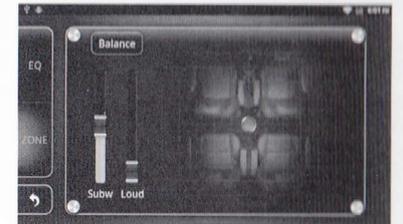

2.6.1 Equalizer

Applications > Equalizer

Click EQ equalizer application icon into the equalizer interface. Or click to enter into EQ Setup operation in all audio or video playing interface. Equalizer settings interface is divided into two functions: namely, equalizer and sound field settings function.

Equalizer settings interface

Balance Setup Interface

① In the equalizer settings interface provides 8 kinds of audio playback mode choose:
Note: In the Normal mode, users can customize effects model through the effect adjuster.

Note: the subwoofer adjustment is only effective when it is linked to external 5.1 amp.

2.6.2 DVD Play

Insert the DVD disk the system will automatically enter the DVD interface and read the disk information automatically when a disk is detected and then start to play normally.

DVD Play Interface

Function details as below:

Icon	Button Name	Function Description
	Play/Pause	When playing, click it to pause. When pause, click it to continue playing.
	Next Track	Click to play the next track or next chapter.
	Last Track	Click to play the last track or next chapter
	Fast forward	Click to fast forward increasingly as by 2X / 4X / 8X / 20X DVS: Click to fast forward increasingly as by 2X / 4X / 8X / 16X / 32X
	Fast Backward	Click to fast rewind increasingly as by 2X / 4X / 8X / 20X DVS: Click to fast rewind increasingly as by 2X / 4X / 8X / 16X / 32X
	Extended function	Used to eject the expansion function
	Title	Click to show title (need disk support)
	Cycle Play Mode	Click to set up playback mode. DVD: Chapter cycle / heading cycle / full catalog circulation / cycle cancellation; VCD : single cycle / all cycle / cycle cancellation.
	Random play mode	Options for ON and OFF, ON, switch on the next song, random play
	Channel Switch	Click to switch in different languages and audiotracks (need disk support).
	Subtitle	Click to switch subtitle display(need disk support)
	EQ Setup	Click to enter into EQ setup interface.
	Main Interface	Click to back to main interface
	Back	Click to back to the last interface.

2.6.3 CD Player

Insert a CD disc, the system will automatically enter the CD interface, when a disc is detected, it will automatically read the disc information and start normal play.

CD Play Interface

Function details as below:

Icon	Button Name	Function Description
	Play/Pause	Click to play or pause.
	Next Track	At one time to play the next song, press down roll list for tracks
	Cycle Play Mode	Click to set up playback mode
	Random play mode	Click to set the random playback mode
	Last Track	Click to play the last track or next chapter.
	EQ Setup	Click to enter into EQ setup interface.
	Main Menu	Click to go back to main menu.
	Back	Click to go back to the last interface.

2.6.4 iPod Play

Application> iPod

Click the iPod application icon to enter into the iPod play interface, just as shown below.

iPod Play Interface

Icon	Button Name	Function Description
	Play/Pause	Click to play or pause.
	Next Track	Click to play the next track.
	Last Track	Click one time to replay the current track; Click twice to play the last track.
	Fast Forward	Press to fast forward.
	Fast Rewind	Press to fast rewind.
	Cycle Play Mode	Click to set up play modes: sequential play, single cycle, the whole catalog circulation.
	Random play mode	Click to start random play mode or cancel random play
	Artist	Click to play the iPod's song in the form of an artist
	Album	Click to display the iPod's song in the form of album.
	Song	Click to display all the songs in the iPod.
	Play List	Click to display the listed songs in the iPod.

2.6.5 Audio Play

Audio player supports the following formats:
mp3/aac/flac/wav/amr/m4a/ogg
Application>Music

Click music application icon to enter into the music player interface, as shown below:

Artist Interface

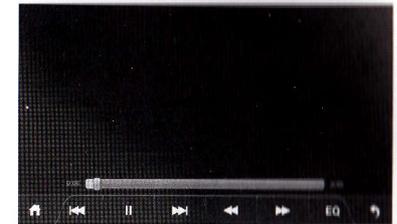

Icon	Button Name	Function Description
	Play/Pause	Click to play or pause.
	Next Track	Play the next track.
	Last Track	Play the last track.
	Cycle Play Mode	Click to set up play mode: sequential play, single cycle, the whole catalog circulation.
	Random play	Click to start or cancel random play.
	Artist	Click to play all the song as if to be performed by an artist.
	Album	Click to display all the songs in the form of album.
	Songs	Click to display all the songs.
	Play List	Click to display the most recently added songs.

2.6.6 Video Playing

Supporting form of the video player: mp4/avi/wmv/3gp/flv/saf/mov/mkv/mpg

Application >Video

Press Video application icon to enter into video playin interface, take a photo for example.

The detail of the button function of video playing interface

Icon	Button Name	Function Description
	Play/Pause	Press Pause when play / Press Play when pause
	Forwards Fast	Click to forwards fast
	Backwards Fast	Click to backwards fast

2.6.7 Digital TV

Application > Digital TV

Click analog TV application icon into the digital TV interface

The details of digital TV function interface are as below.

Note :

Icon	Button Name	Function Description
	Menu	Click to back into menu
	Back	Click to back into last content
	EQ	Click to enter into EQ interface

For more details of description of the digital TV, please refer to the digital TV instruction.

2.6.8 Analog TV

Application > Analog TV

Click Analog TV Icon to enter into Analog TV playing interface, details as below.

Icon	Button Name	Function Description
	Main Menu	Click to back into menu
	Auto search	Automatic search and save
	Last channel	Switch to last channel
	Next channel	Switch to last channel
	Search previous channel	Click on the search on previous channels
	Search on the next channels	Click on the search on the next channels
	The list	Search list
	Back	Click to back into last content

2.7 AUX IN Function

To ensure after video source under the normal state when it works.

Application > AUX IN

Press screen to come out a hide menu, click to enter into EQ setting interface, it can adjust EQ effects, click to back into last content, click to back into system menu.

2.8 Rear View

Auto start reverse gear, such as with a mirror, the system switches to the rear-view mirror screen output automatically, audio output sound still; if not equipped with rear-view mirror, the system remains the same player

3 Firmware Upgrading

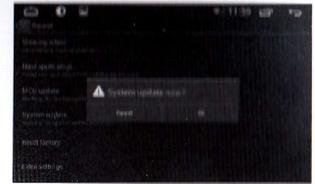

3.1 preparing for upgrade

1. Firstly, format your SD card for what you use to firmware upgrade

3.2. Update MCU

3.2.1 copy "318a2e70-44bf-11e1-b1cf-000c29ba27c0" to the root directory of SD card and Inserted into the machine SD card slot.

3.2.2 Start to update MCU(Settings->General->MCU update) , click OK

3.2.3 Wait for the upgrade is completed. The system will automatically restart after the upgrade is completed, please don't Ignition or shut down during the upgrade process.

3.3 Update system

3.3.1. copy "u-boot-skip.bin、 ulmage、 uramdisk.img、 system. img" to the root directory of SD card , and Inserted into the machine SD card slot.

3.3.2. Shutdown

3.3.3. Press and hold any panel buttons , and boot , the system will enter the upgrade interface automatically.

3.3.4 The system will automatically restart after update. (The system will enter the touch screen calibration interface after the restart, please complete it.) 3.3.5. If one or more errors occur , please ignore and repeat step 2 to step 4.

3.4. Update DVD

3.4.1 Burn "dvdrom.bin" to CD-ROM, and inserted into the machine dish mouth

3.4.2 Wait for the update is complete.

3.4.3 Eject the disc

4. Trouble handle

When your equipment met troubles, please check the problems as below.

Item	Problem	Solution
1	Unable connect to the network	① .See 3G Card is installed correctly ② .to make sure the correct and proper 3G terminal operator's SIM card ③ .weather launched 3G card data ④ .Mobile data roaming setting is connected or not. ⑤ .APN weather selected ⑥ .Whether 3G card arrears
2	It can't to save and mention "MCC" must 3 letter.	Check the 3G card install right or not.
3	Can't install applications.	① .Verify that the install application suffix is named "APK" ② .Enter into Setting to select unknown sources
4	When the Bluetooth paired success, sometimes will be mentioned connect failed	① .Some cellphones with Android system may occur this problem at the first connection. Please just find the pairedn device in matching list and then connect them once more. ② .The unsuccessful connection is compatibility issues between cell phone and Bluetooth. If this occurs, please check the options in pair list of your cell phone. And you will find that the setting of Bluetooth Media and Mobile Media has been turned off. Turn on them and the connection will be successful.
5	How to install applications	First, please copy the application files with suffix ".APK" to your SD or U disk. And the following are installation methods: 1. Click into the document management interface to find the SD card or U disk directory, and then select the ".APK" suffixed application file and click to install. 2. Find the Setting interface—>Applications—>install application, 3. select the ".APK" suffixed application file and click to install.
6	How to uninstall users APK application	Interface Setting—>Applications—>Installation Applications—>Uninstalltion Applications. To click the unistallation APK Applications
7	Radio can't research channels	to check the radio antenna whether connected and have signal before use it.
8	No voice	System is muted or not

9	Media can't be recognized from SD card.	prohibit hot-swappable SD card
10	3G, WIFI can't be recognized	prohibit hot-swappable 3G/WIFI
11	MUSIC, RADIO and third-party application mixes, can not turn off the MUSIC, RADIO	Long press panel Back to exit the system MUSIC RADIO mode, again into third-party applications can
