◆Please dispose of batteries according to local regulations, please recycle when possible. Please do not dispose as household waste.

STATEMENT: Our Company reserves the right to revise this manual content without prior notice.

2 Getting Started

2.1 Turning the Phone On and Off

To turn on or off the phone please hold down the **Power key**. If you turn on the phone without having inserted the SIM card, phone will display "**No SIM card**". After inserting the SIM card, the phone will automatically check if the SIM is useable.

The following will be displayed in this order:

Input Phone Lock Code

—If you set the Phone Lock.

Input PIN

—If you set the SIM Lock.

Searching

—The phone will conduct a search to find the appropriate network connections.

2.2 Battery charging

■Plug the charger connector with the phone, and plug the charger into the electrical outlet.

■At this time the charge level icon will repeatedly flash at the top right corner of the mobile phone's screen; If the mobile phone charging while power off, a charging indication will appear on the screen. If the mobile phone was used even after there was insufficient power, it might take some time after having begun charging until indication of charging appears on the screen.

When the battery level icon does not flash anymore, this means that the battery is fully charged. If charging while power off, there will still be an indication on the screen when the charging is complete. This process usually takes more than 2.5 hours(The first three times you recharge, you'd better keep 12-14 hours, as this will help extend battery life).The mobile phone and charger will become warm during charging and this is normal.

■When charging is complete, unplug the charge connector from the electrical outlet and the mobile phone.

ATTENTION:

■Charging must be performed in a well-ventilated area with a temperature between -10C and +45C. The factory-supplied charger must be used. Using an unapproved charger could be dangerous in addition to being in breach of the provisions of the repair warranty.

■If the mobile phone automatically shuts down, or indicates that "Battery is low" you should immediately charge the battery. If the battery has not been entirely used up before charging, the mobile phone will automatically decrease the recharging period.

3 Function Menu

3.1 Contact

You can use the phonebook function to save contact information. You can view or management your contacts.

NOTICE: SIM card number of records storage capacity and its related
