5W Solar Motion Light
Instruction Manual

Possible places to install: • Garage • Entrance of your house • Patio (pool and back) • Mail box • Driveway

Features:
● Rain-proof, reliable for outdoor installation.
● Highly integrated includes all components without extra wiring outside the unit.
● Combine latest solar power and LED lighting technology.
● High capacity, long-life Lithium Battery, with excellent high temperature characteristics to ensure the whole product life span.
● The main structure is made of material with anti-corrosion treatment.

Installation:

Install on wall
Install on pole

Two simple ways of installation, either on wall or pole is available. You can use iron prop, wood, bamboo, or plastic material etc. on the spot as the lamp pole. Make the solar panel face to the sun after installation.

### Caution

- When the ambient temperature rises close to the human body temperature, the detection distance will be shortened.
- Clean solar panel surface with a soft cloth periodically.
- Prevent the solar panel being covered by buildings.
- The total lighting time is based on full sun and ideal placement of light. In winter or on cloudy days the ideal lighting time may be affected.
