(6) safety Information in multi-language:

Please read this safety information carefully so that you can use your phone correctly.

1. Childern: Be very careful with your children and your phone. A mobile phone can be dangerous if not used correctly. After the phone is turned off, place the phone in a place that is not close proximity to the phone. The phone contains small parts that could be dangerous if swallowed. If your phone is equipped with a camera or lighting device, do not use it near children or animals.

2. Hearing: Prolonged listening at full power with a lightweight headset or headphones may damage hearing. If the hearing damage is unnoticeable, it may have an irreversible effect on the hearing. Avoid high volume levels and use caution.

3. Driving: Exercise care when driving. Driving requires maximum attention at all times. Do not enter text or make or receive phone calls when driving or operating any vehicle.

4. To protect the battery, do not place the phone in an environment where the battery will be exposed to direct sunlight for a long period of time. Do not use the phone in a hot environment such as in a car.

5. Electronic implant: At the risk of interference with medical equipment, do not use your phone near medical equipment such as pacemakers, hearing aids, insulin pumps, and other medical devices.

6. Flick hazard: Do not leave your device near heat sources such as radiators or stoves. Do not leave your phone charging near flammable materials, there is a real risk of fire.

7. Virtual design: Do not expose the phone to liquid or touch with wet hands; manifestation damage by water may be irreparable.

8. Use only LG-approved ensured accessories. The use of unauthorized accessories may damage the phone or cause interference.

9. Do not enter the batteries and chargers. Never use a battery charger that has been damaged, batteries may escape from batteries, and then enter the battery with the presence of water or dirt. If the battery is wet, the water may become a short-circuit between the positive and negative terminals of your battery and permanently destroy the battery and void the warranty. If you accidently spill water, and the battery does not work. If your battery is damaged, please contact your retailer or manufacturer.

10. Do not enter the batteries and chargers. Never use a battery charger that has been damaged, batteries may escape from batteries, and then enter the battery with the presence of water or dirt. If the battery is wet, the water may become a short-circuit between the positive and negative terminals of your battery and permanently destroy the battery and void the warranty. If you accidently spill water, and the battery does not work. If your battery is damaged, please contact your retailer or manufacturer.

11. Do not touch the battery. Handle and use your phone with the utmost care. Prevent your phone - shock and impact may damage it. Some parts of your phone can get hot when charging, and might hurt if the phone is dropped into water or subjected to severe impact. Avoid dropping your phone. Do not touch the battery and charger with wet hands.

12. Electric shock: Do not try to dismantle your phone as there is a very real risk of damaging it.

13. Maintenance: If you want to clean your handset, use a dry cloth (do not use a solvent, such as benzene, or alcohol).

14. Note: The function of your phone may vary in different regions. Do not recharge your device when it is resting on a soft surface.

15. Damage to magnetic strips: Keep your phone away from credit cards as they may damage the data on the magnetic strips.
**[ES] Seguridad**

Puede que utilice el teléfono en plenas condiciones de seguridad, le aconsejamos las siguientes consignas de seguridad:

1. No use el teléfono ni el cargador en cercanías de espacios con alta densidad de personas. Un teléfono móvil contiene varias piezas pequeñas, por lo que debe estar siempre atento a la gente alrededor. Asegúrese de que estas piezas no puedan desprenderse y causar lesiones.
2. Al utilizar el teléfono, asegúrese de no distraer su atención con otros elementos. Esto puede causar situaciones peligrosas en el tráfico y circulación.
3. No utilice el teléfono en ambientes con alto riesgo de incendio. Los teléfonos móviles pueden generar una pequeña cantidad de calor que puede ser perjudicial en entornos con materiales inflamables.
4. Evite usar el teléfono en atmósferas con altas temperaturas. Estas condiciones pueden afectar la capacidad de funcionamiento del teléfono.
5. No utilice el teléfono al volante de un vehículo. Es importante prestar toda su atención en la conducción.
6. No utilice el teléfono mientras esté en vuelo o en el interior de un avión (GAM + Bluetooth), ya que puede producir interferencias con los sistemas de navegación.
7. No utilice el teléfono cerca del cuerpo en ambientes con alto riesgo de radiación. Los teléfonos móviles emiten una radiación de baja frecuencia que puede ser perjudicial para la salud.
8. No utilice el teléfono en presencia de niños. La exposición a la radiación puede afectar el desarrollo en los niños.
9. No utilice el teléfono en el interior de un hospital. El dispositivo puede interferir con el equipo médico utilizado en el hospital.
10. No utilice el teléfono cerca de la arena o el agua. Los teléfonos móviles no están diseñados para funcionar en estos entornos.
11. No utilice el teléfono cerca de la comida o los bebidas. El teléfono puede contaminar la comida o las bebidas si no está limpio.
12. No utilice el teléfono en presencia de explosivos. El teléfono puede generar chispas que pueden causar explosiones.

**[PT] Instruções de segurança**

Para utilizar este telefone com segurança, leia atentamente as instruções de segurança:

1. Não use o telefone ao redor das crianças. Um telefone móvel pode conter vários peças pequenas, por isso, convém conviver cuidadosamente quando uma criança está em contacto com o aparelho.
2. Não use o aparelho em situações de conflito ou violência. Em situações de conflito ou violência, é recomendável que desligue o aparelho para evitar provocar ou suavizar situações de conflito.
3. Não use o aparelho para invadir a privacidade de outra pessoa. Invadir a privacidade de outra pessoa pode infringir a lei.
4. Não use o aparelho em situações de risco. Situações de risco são situações que podem causar lesões ou morte.

**[FR] Consignes de sécurité**

Afin d’utiliser cet téléphone en toute sécurité, veuillez lire attentivement les consignes de sécurité :

1. Ne pas utiliser le téléphone près de bébés. Un téléphone portable contient de nombreuses pièces détachées, d’où l’hypothèse que les bébés pourraient ingérer et/ou échapper à la surveillance en cas de danger. Dans bien des cas, le bébé n’aurait pas la possibilité de retirer ces pièces.
2. Ne pas utiliser le téléphone pendant une promenade ou une excursion. Le téléphone peut provoquer des accidents ou des blessures.
3. Ne pas utiliser le téléphone en cas de conflit ou de violence. La violence peut être provoquée par le téléphone.
4. Ne pas utiliser le téléphone en cas de crise. La crise peut être provoquée par le téléphone.

**[IT] Precauzioni di sicurezza**

Leggere attentamente le informazioni sulla sicurezza prima di utilizzare il dispositivo:

1. Non utilizzare il telefono in presenza di bambini. Un dispositivo portatile può contenere numerosi pezzi piccoli, che potrebbero essere ingoiati o cadere in luoghi pericolosi.
2. Non utilizzare il telefono in presenza di situazioni di conflitto o violenza. La violenza può essere provocata dal telefono.
3. Non utilizzare il telefono in presenza di situazioni di emergenza. La situazione di emergenza può essere provocata dal telefono.
4. Non utilizzare il telefono in presenza di situazioni di crisi. La crisi può essere provocata dal telefono.
