Overviews

More and more children begin using a tablet / phone, obsess with a variety of games and entertainment, and have fun and learn knowledge. However, because children lack the ability of identification and self-control, obsessive with tablet will bring many negative effects on the children`s body and mind.

iWawaHome is determined to strengthen security, content and management and behavioral restrictions, focus on establishing secure environment for children to and remove hazards, which makes children comfortable and makes parents reassuring.
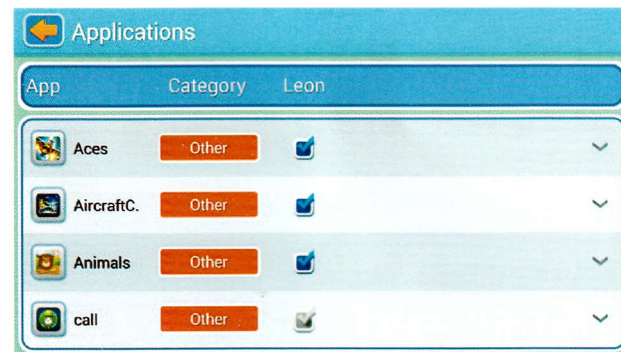

Security Control

Isolate of content which is not suitable for children and protect the health of children. Parents can filter the content which need to be isolated.
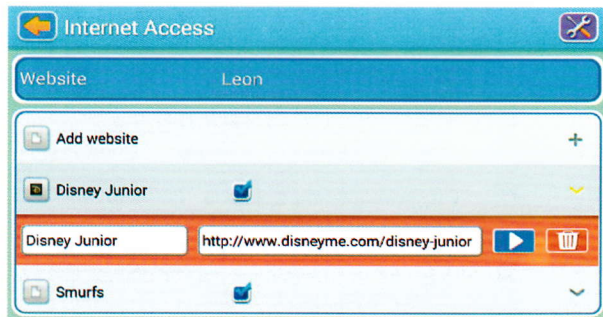

1、 Applications Filter

You can select the appropriate applications for the child, and isolate inappropriate content like bloody and violentcontent. Only the selected applications will show up in children`s desktop.

2、 Network Filtering

When children use the Internet browser, it will automatically block the sites without parental permission.

Content and Management

Provide children with rich applications resources, and provide tools to manage applications, video, music and other content.
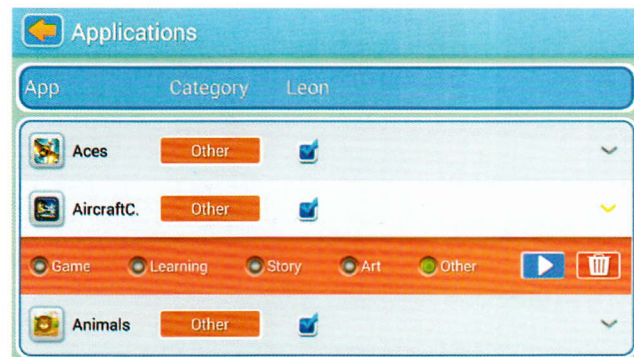

1、 Applications Recommendation

Recommend families foreducational games and other applications which are suitable for children. Recommended content is regularly updated and can be downloaded for free.

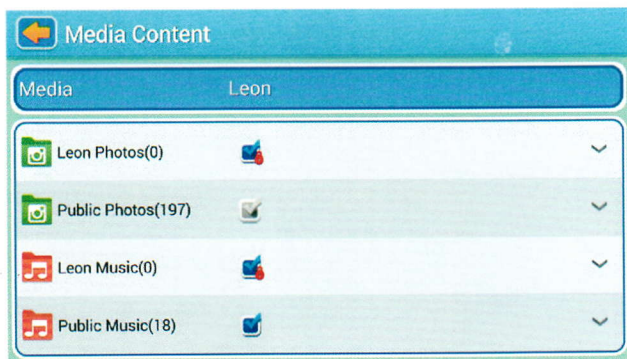

2、 Applications Classification

It can classify the applications into five major categories including games, learning, stories, art and others, whichis easy to manage.

3、 Multimedia Management

Children can open "Video" application in the children desktop and see all good movies selected by parents; similarly, children can open the "Gallery" and "Music" application and seepictures and listen to songs which are prepared.

Behavioral Restrictions

Limit children`s behavior so as not to disturb the parents`desktop, have unexpected consumption and get addicted to the games and other problems.
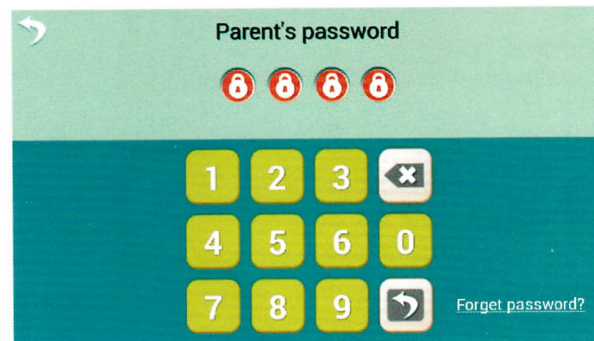

1、 Child Lock

Without permission of parents, children will not be able to exit the child desktop. Not only ensure that children remain in a safe environment, but also ensure that children do not have access to parents` desktop applications.

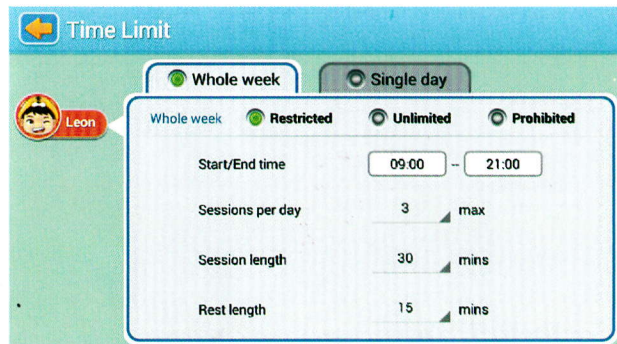

2、 Consumption Restraint

All purchases need parents` confirmation by entering the password. Protect children from clicking wrong buttons which cause consumption problems.

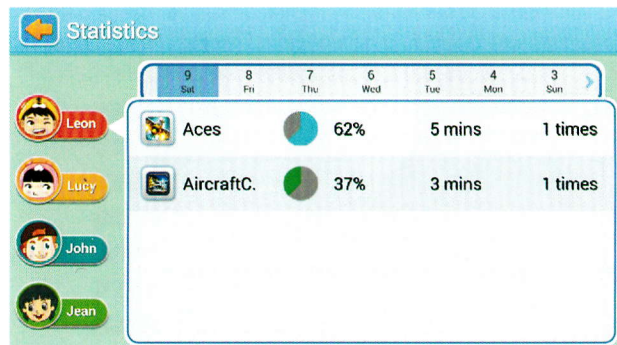

3、 Time Limit

Parents can set a timetable of using the tablet time and break time.It will automatically be transferred to break time when exceeding the time, and

temporarily unusable. It is flexible to protect the health of children.

4、 Behavior Accounting

The system automatically generates a detailed reports of applications usage which will recorded children`s various length and frequency of using applications. In this way, parents can easily understand the children`s habits and preferences.

Special Functions

Provide more practical and convenient features for children and parents.

1、 Personal Style

Multiple sets of different styles of beautiful themescan let the kids create their own beautiful space them.

2、 Multiple Accounts

A tablet can be shared by more than one child.Each child can have their own separate desktop.

3、 Quick Time Delay

Parents can enter a password to delay 30 minutes for children, and deal with some unexpected conditions easily.
