7L 7LS

1. Video output 2. Camera power 3. Monitor power
Installation of the Float, and Fishhook

Float

Firstly use a fishing line to fasten the float across the hole on top of it, the length of the fishing line is according to your own choice. And then select an appropriate place on the wire of the camera to fasten the float. See picture as below

Fishhook

1. Connection in series: Normally fix 2pcs or at most 3pcs fishhook on the fishing line in a line, and each at 5cm distance, which can make sure all are clear when show on screen. The distance of the Lead can be a litter longer than the last fish hook on the line. See picture as below

2. Connection in parallel: normally fix 2pcs fishhook just under the camera, the length of the fishing line is according to the clarity of the water. Make sure to fix one fishhook on the loop to avoid the mixing with another one. See picture as below
