1 Outlook Description

Front:

Right side:

Left side:
2 Power Button Usage

Turn On: Press the power button and hold for 2 seconds.
Turn Off: Press the power button and hold for 2 seconds, → tap OK.
Sleep Mode: On/Off: Press & release the power button quickly to turn sleep mode on and off.
Force Off: If device does not respond, press and hold the power button for 5 seconds.
Note: If it is necessary, we don’t suggest use Force Off. You should follow the steps to perform the shutdown.
Reset Button: Press the reset button to reset the device. Reset will erase all data on the device, please caution this feature. (Note: Current the reset function can not be restart, so after reset you need to press the power button to re-boot.)

3 Touch-Screen Navigation

The touch-screen allows for quick, easy and convenient navigation for all applications.
☆ The smaller the point that comes in contact with the screen, the more precise object selection can be. If you do not have long enough fingers nails to be used for precise tapping, we recommend using the stylus or non-sharp pointed instrument to increase the precision of navigation.

Throughout the User Guide, you are instructed to use the following tap or touch navigation methods:
Tap: Quick tap & release on an item on the screen.
Finger slide: Touch & slide your finger across the screen and then release.
Touch & hold: Touch and hold in place approx. 2 seconds, and then release to display an options window.
☆ To avoid scratching or crushing, do not place objects on the touch screen surface.

4 Using microSD Card

☆ The device supports a maximum 32GB microSD card.
Insert your card into the microSD slot until it clicks into place. It’s OK.
Remove microSD Card
Use one of the following methods for moving the microSD card.
Close all applications or documents which have been opened on the card. Tap → Settings → SD card & device storage → Unmount SD card. Press the card lightly; it is partially ejected allowing you to pull the card out.

5 Getting Started

Charge the device
☆ You cannot charge the battery using the USB cable.
☆ You can use the device while the battery is charging, although the charging time is longer when operating and charging at the same time.
Plug the power adapter into an electrical wall outlet, and then connect to the device to fully charge the battery before use (approx. 4hours).
While charging, the battery indicator light is red. When fully charged, the battery indicator light is green.

Turn the device on
Press the power button and hold for 2 seconds.

Wi-Fi Network Setup
Since many features require a Wi-Fi connection, we recommend you set up your Wi-Fi network now.
1. Tap → Settings → Wireless & network.
2. Select Wi-Fi to turn on.
3. The device automatically scans and lists all local Wi-Fi Network found. A indicates secure networks that require login name/password to connect.
4. Tap → to connect to desired wireless network.
5. Tap to return to the Desktop screen.
☆ If your Wi-Fi network is set as hidden, it won’t be found by the auto scan. Tap Add Wi-Fi network and follow the prompts to add your network.

6 DESKTOP
7 Screen Lock

Can be set to automatically lock screen or quickly press the power button to manually lock screen. Lock screen displays the following:

8 Pre-loaded Applications

- **Weather**: Display the weather.
- **Clock**: Use as alarm clock with scheduled alarms.
- **App Market**: Downloaded applications quickly & easily.
- **Browser**: Access the Internet and "surf the web" whenever desired.
- **Calendar**: Calendar with ability to set events.
- **Camera**: Take photos and save to internal memory or your memory device.
- **Calculator**: Do calculation.
- **Email**: Send/Receive email using your existing email addresses.
File Browser  File manager application for viewing and managing files and apps. Use to install Android apps, and to backup files to your SD card.

My Music  Play and manage audio files.

My Video  Play and manage video files.

My Photo  View and manage photo files.

Contacts  Create a list of personal contacts, which can also be linked with your email.

Picture  Capture image of the screen.

Capture  PK Manager  Application manager for managing processes.

YouTube  Quick launch to YouTube.com videos.

Tudou  Quick launch to Tudou.com videos.

Settings  Multiple settings for personalizing and enhancing your Device.

Wi-Fi Settings  Set Wi-Fi network.

3G Settings  Set 3G network.

Phone  Phone

Messaging  Messaging

9 Desktop Function Menu

On the Desktop screen, you can tap [ ] to display the Function Menu.

Add  The viewable portion of the Desktop screen allows only 16 icons. In order to add more items, finger slide the screen horizontally to expose available space, and then tap the Add icon again. If the screen is full, the Add icon won't respond.

Shortcuts  Add quick launch shortcuts on the Desktop to applications, bookmarks or settings.

Widgets  Add a round analog clock.

Calendar: Add a calendar widget to display current date & events.

Music Player: Add a music widget to quickly begin playing music without launching the music application.

Folders  New Folder: Add a folder into which you can add applications as desired. To move applications on the
Desktop screen into the folder, touch, hold & drag the icons directly on top of the folder icon.
To add applications from the All Application screen, first tap on the folder to open it, open the All Application screen, and then touch & hold on an application icon. It is copied into the folder.

### 10 Application Management

#### Install Android Applications

There are many interesting and free Android applications that can be found on the web. Just launch your web browser and do a search for "Android applications". Purchased or free Android applications that you have downloaded to your computer can be installed quickly & easily on your Tablet using the File Browser application.

1. Copy the .apk files that you want to install onto a SD card or USB device, insert or connect to your Device.
2. Tap the File Browser application icon.
3. Tap or and locate the folder in which the .apk application files were saved.
4. Tap on a .apk file to Install. The application is installed and the application icon is added to the Applications screen.

#### Download Android Applications direct from a Website

You can download Android applications directly from websites, and then quickly and easily install them on your device.

1. Tap the Web application icon to launch the internet browser.
2. Enter the desired website URL, and tap the download link for the application you want to install on your device.
3. After the download is complete, touch & hold on the download file (in the Download history screen), tap Open to Install.

#### Uninstalling Android Applications

You can also quickly and easily uninstall the Android applications that you have installed.

1. Tap \[ Settings \] → Applications → Manage applications.
2. Tap the application you want to uninstall, → Uninstall.
3. Tap OK to confirm the Uninstall.

#### 11 WmtWeather

Tap the WmtWeather application icon.

General setting
You can set Temperature Unit (°C), Update frequency and Auto Wallpaper.

My cities
You can add city and set it to be my city.
You can make the weather displayed on the Desktop through adding widget. The way is: tap

\[ Add \] → Widgets → WmtWeather.

#### 12 CLOCK

Tap the Clock application icon. You can see the time and date.

**Alarm**
You can use your device as an alarm clock by setting multiple alarms.
**Add Alarm**

1. Tap the Clock application icon.
2. Tap → Add alarm.
3. Set up your alarm as desired.
4. Tap Turn alarm on.
5. Tap Done.

**Shut Off Alarm Alert**

When a scheduled alarm is activated, a pop-up window with the alarm title appears. Tap Snooze if you want to be reminded again in 10 minutes. Tap Dismiss to cancel the alert.

**Turn Alarm on**

On alarms that you have set to repeat, you may want to temporarily turn on alarms rather than delete them.

1. In the Alarm screen, tap on the alarm(s) you want to turn on.

**Edit Alarm**

1. Tap the Clock application icon.
2. Tap on the alarm you want to edit, → make desired edits.

**Delete Alarm**

1. Tap the Clock application icon.
2. Tap on the alarm you want to delete.
3. Tap → Delete alarm.

Tap to return to the Desktop screen.

---

**13 APP MARKET**

The App Market has many applications that you can quickly and easily download to your Tablet.

---

**Download Applications**

1. Tap the App Market application icon.
2. You can select applications from the default Featured group, by Categories, Top (latest, hottest, random), or search by name.
3. Tap on an application, → Download.
   - The first time, you are prompted for your App Market login information. If you have not yet registered an account, tap Register an Account.
   - Otherwise, enter your login information and tap Yes.

4. After the app is downloaded, tap Install.
5. Tap Open to launch now, or Done to return to the App Market screen.

**History**

After downloading apps, tap on History to manage the installed applications. You can add and/or view comments from other users, launch apps, and uninstall them.

**App Market Function Menu**

Tap → to display the App Market Function Menu.

**Profile**

Tap to access your profile information. You can change your Password or Email address.

**Login/Logout**

Tap Login to quickly launch the login dialog box to login to your account. While logged in, tap Logout to exit your account.

**Settings**

By default, applications that you download are saved in the internal memory. You can set the applications to save to your SD card if desired.

**About**

Displays App store version and support information.

---

**14 BROWSER**

Users can connect to the Internet through a browser.

Click the browser icon on the Desktop, and then you can open the Web browser.
15 CALENDAR

Tap the Calendar application icon.

For the first time using the Calendar, you need to add an Exchange account. Enter account email address and password. Click Next and follow the prompts to complete the account configuration. Then you can use the Calendar.

Add Event
1. On the Calendar screen, tap on the date to which you want to add an event.
2. Tap on the event time, → tap in each entry field to enter the desired event information.
3. Tap Done.
4. Tap   to select desired Calendar screen.
   * Dates with green bars indicate scheduled events.

16 CAMERA

Tap the Camera application icon.

Take Pictures
1. In Camera → tap   to take the picture.
2. The picture will be saved.

17 CALCULATOR

1. Tap the Calculator application icon.
2. Tap the numbers and sign of operation to do the calculation.
3. Tap CLEAR to clear the result one by one, tap and hold CLEAR to clear all.

18 EMAIL

☆ POP3 and SMTP accounts are supported.

Add Email accounts
You can enter one or more personal email addresses that you would like to access through your Tablet.
1. Tap the Email application icon.
2. On the Your Accounts screen, tap Next.
3. Tap in the Email address entry field, → enter your email address.
4. Tap in the Password entry field, → enter your email password.
5. Tap Done.

6. Manual Setup (optional): The server settings are automatically populated based on your email account provider (i.e., gmail.com, etc.). However, if you need to change the server settings tap Manual Setup and make necessary changes.
7. Tap Next.
8. Optional: Enter a name for the account.
9. Enter name for outgoing message, → tap Done.

☆ After setup, if you are unable to connect to a free email account, check with your email provider to make sure their servers support free accounts on Post Office Protocol (POP) or Simple Mail Transfer Protocol (SMTP).

Email Inbox

1. Tap the Email application icon.
2. If you set up only one email account, it opens immediately. If you set up multiple accounts, they are listed in the Accounts screen.
3. Tap on the desired email account, → tap Inbox.

Open Email Message

1. On the Inbox screen, tap on an email to open it.
2. For attachments, tap Open to launch appropriate application, or tap Save to save attachment to a SD card.
3. To reply, tap Reply or Reply all.
   a. Tap in the Compose Mail entry field to enter your reply message.
   b. Tap Send to send immediately. Save as draft to save without send or Discard to discard without saving or sending.
4. To delete the email immediately, tap Delete.

Compose New Email Message

1. On the Inbox screen, tap → Compose.
2. Tap in the To entry field and then enter the recipient’s email address.
3. Optionally, if you want to add Cc or Bcc recipients, tap → Add Cc/Bcc, and then enter the recipient’s email address.
4. Tap in the Subject entry field to enter your desired subject title.
5. Tap in the Compose Mail area to enter your personal message.
6. If desired, tap → Add Attachment to attach a file.
7. When ready to send the email, tap → Send.

Edit Email Account

1. Tap the Email application icon.

3. Set your desired preferences to customize your email account.
4. Tap to return to the Inbox screen.

Delete Email Accounts

☆ If you have multiple accounts, and you delete the account designated as the default account, the next email listed is automatically set as the default.

Set Default Email Account

You must always have one account designated as the default account, so if you have multiple email accounts, you can select any one as the default.

1. Tap the Email application icon.
2. On the Inbox screen, tap → Accounts.
3. Touch & hold on the account you want to delete.
4. In the pop-up Account options window, tap Remove account.
5. Tap OK to confirm the deletion.

19 FILE BROWSER

Tap the File Browser application icon to view the files on all storage devices (Internal memory, SD card, USB devices), and to quickly & easily install applications on your Tablet.

Use the icons across the top of the screen as follows:

Local disk (Internal memory)

Your SD card
Copy Media between Computer and Tablet
You can use the File Browser to copy files between an external storage devices and your computer. You must first copy the desired files onto a SD card or USB device.

- The internal device storage is titled "LocalDisk", a memory card "SDcard", and a USB storage device is titled "Udisk".
- The instructions below are for copying from a SD card or USB storage device into the device. You can use the same method to copy from the device to a SD card or USB storage device, and then connect the storage device to your computer to transfer the files into the desired folder on your computer.

1. Tap the or to display the contents of your storage device.
2. Tap and hold in the folder/file you want to copy, → tap Copy.
3. Tap on the Internal Memory, → tap on the folder into which you want to copy the file, → tap Paste.

Delete files
Tap and hold on the folder/file you want to delete, → tap Delete → OK to confirm the deletion.

20 MY MUSIC

★ Audio file formats supported: MP2, MP3, WAV, AAC, WMA.

Play Music
1. Tap the My Music application icon.
2. Select an audio file from All/Albums/Artists/Directories/My Favorites/User

21 MY VIDEO

★ Video file formats supported: Mpeg1/2/4, MJPG, H263, H264. In addition to H264 which is supported by (720x480) resolution, the other video formats are supported (1280x720) resolution.
Play Video

1. Tap the \[My Video application icon.\]
2. Select a video file from All/ Directories/My Favourites/User Defined Playlists to play it.
3. Tap on the screen to display video controls (adjust volume, pause/play, previous/next, adjust brightness).
4. Tap Back button or \[to return to the My Video screen.\]

The Operation with Video and Playlist

Add playlist

1. Tap \[on the left corner.\]
2. Input the playlist name.
3. Tap Add.

Rename or Delete playlist

Tap and hold in the playlist, \(\rightarrow\) tap Rename or Delete.

Add video

1. Tap and hold in the video you want to add, \(\rightarrow\) tap Add.
2. Click the following items to add video in it (if you don’t want to add, tap Cancel).

Delete video

Tap and hold in the video you want to delete, \(\rightarrow\) tap Delete.

22 MY PHOTO

\* Photo file formats support: JPG, JPEG, BMP, and PNG.

1. Tap the \[My Photo application icon, \(\rightarrow\) tap on a group of photos.
2. To view individual photo, tap on the desired photo.
3. Tap Back button to return to the photo gallery screen.
4. Tap \[ to make slideshow. There is Normal play, Reminiscently, Activity, Romantic, Tranquil and Fresh.
5. Tap \[ to make the picture sort by color.
6. Tap \[ to make the picture sort by time.
7. Tap \[ to make the picture sort by name.

23 CONTACTS

You can create an address book of your personal contacts, including personal notes as desired.

Add New Contacts

1. Tap the \[Contacts application icon.\]
2. Tap \[ \(\rightarrow\) New Contact.
3. Tap in the name fields to enter the contact's first & last name.
4. Tap \[ at the right of options to reveal additional choices.
5. Tap on the option name to reveal choices.
6. Tap in the option entry fields to enter the contact's information.
7. Tap Done.

Add Contact to Favorites

1. In the Contacts screen, tap on the desired contact name.
2. Tap \[ in the upper right corner.
3. Tap \[ \(\rightarrow\) to return to the Contacts screen.
4. Tap \[Favorites to view list of favorite contacts.

Edit Contacts

1. In the Contacts screen, tap on the desired contact name you want to edit.
2. Tap \[ \(\rightarrow\) Edit Contact.
3. Make desired changes, → tap Done.

Delete Contacts
1. In the Contacts screen, touch & hold on the contact, → tap Delete contact.
OR
In the Contacts screen, tap on the contact you want to delete, tap → Delete Contact.
2. Tap OK to confirm the deletion.

24 PICTURE CAPTURE

You can capture a screen image by tapping at any time.

Tap the Picture Capture application icon to set options for a screen capture.
● Select a delay timer to automatically capture the screen in desired number of seconds.
● Select the default storage device for saving your images.

After the images are saved, they can be viewed through My Photo application.

25 PK MANAGER

Use PK Manager to manager applications and widgets.

Stopping Applications
Android does not automatically stop applications after they are loaded, so you can manually stop the applications as desired.

1. Tap the PK Manager application icon. The list of applications that are running is displayed.
2. Tap on an application you want to stop, → tap Force stop.

Uninstall Applications
1. Tap the PK Manager application icon. The list of applications that are running is displayed.
2. Tap , → tap Third Party or All to list more applications.
3. Tap on an application you want to uninstall, → tap Uninstall.

4. Tap OK to confirm uninstall.

26 YouTube

1. Tap the YouTube application icon to view YouTube.com videos.
2. Tap on a video to launch it.
3. Tap on the screen to display video controls (adjust volume, pause/play, previous/next, adjust brightness).
4. Tap Back button to return to the YouTube screen.

27 TUDOU

1. Tap the Tudou application icon to view Tudou.com videos.
2. Tap on a video to launch it.
3. Tap on the screen to display video controls (adjust volume, pause/play, previous/next, adjust brightness).
4. Tap Back button to return to the Tudou screen.

28 Wi-Fi Settings

Tap Wi-Fi Settings application icon.
1. Select the box behind to open Wi-Fi;
2. All the AP in the vicinity will be listed, click to select the name you want to connect to AP;
3. If the AP is connected successful before, the AP information will be saved in the pop-up window, select "Connect" starts to connect, choose "Forget" to remove AP information;
4. If the AP is not encrypted, in the pop-up window, select "Connect" Start Connection;
5. If the AP is encrypted, enter the password in the pop-up window, and click "Connect" Start Connection;
6. When internet connections are successful, the wireless connection icon in the status bar appears.
29 3G Settings

First of all you need to buy 3G wireless network card according to China Telecom, China Mobile or China Unicom. The currently supported on the 3G card type please refer to Appendix.

We strongly recommend on buy the 3G Network Cards, in order to ensure normal 3G Internet access. Please come to the prepaid card into the purchase of 3G Network Cards, and then insert the adapter cards 3G on the box. At this time it will be bright lights on the 3G network card, which indicated that it could begin to connect the 3G network.

Tap [3G Settings] application icon.
Tap "Add 3G network":
Name: In the popup dialog box, name field enter the name you want free you can.
Device: If you use this manual in the format described in China Unicom's 3G network cards and device column to the default settings, you do not need to select other items; When you use the manual as described in the 3G standard of China Telecom on the card, the device should be chosen CDMA2000(VeriSign380/AWIT-U3); When you use the manual as described in the 3G standard of China Mobile on the card, the device should be chosen TD-CDMA(TD368) Modem.
Device number and APN: Please fill in the information provided by carriers. (As in China: If you use China Unicom and China Mobile's 3G network card, device number field need to fill in "$596", APN need to fill in the "cmnet"; if China Telecom formats 3G on the card, phone number need to fill in the column "TH391", APN do not need to fill in the name of column.)
User and Password: If you use the standard of China Unicom and China Mobile's 3G network card, user and password fields are free to fill or not fill; if you use the standard of China Telecom's 3G network card, user and password fields, please request to China Telecom.

Fill then click the link, and you will see the screen above the status bar 3G symbol appears, indicating the completion of 3G is connected, and then you can get online.

### Frequently Asked Questions

**Android**

Q: What Android OS version is on my Device?
A: 2.2

**Basic Device Functionary**

Q: Do I have to charge the battery before use?
A: You should charge the battery for at least 4 hours, but you can use the device while it’s charging. Use the included power adapter to charge; this device does not charge via the USB cable.

**Email**

Q: Can I use any of my personal email addresses to send/receive email?
A: The device supports POP3 and SMTP accounts. Some free email accounts are not supported on mobile devices. Check with your email provider to see if you account is supported.

**Media Cards**

Q: Which media cards are compatible with my device?
A: Micro SD cards.

**Music**

Q: What type of music files can I play on my device?
A: MP2, MP3, WAV, AAC, WMA

Q: How can I add music files to my device?
A: Copy the music files from your computer onto a SD card or USB storage device, and then use the File Browser application to copy the files into the device.

**Photos**

Q: What type of photo files can I view on my device?
A: JPG, JPEG, BMP and PNG.

Q: How can I add photo files to my device?
A: Copy the photo files from your computer onto a SD card or USB storage device, and then use the File Browser application to copy the files into the device.

**Video**

Q: What type of video files can I play on my device?
A: MPEG1/2/4, MJPG, H263, H264. In addition to H264 which is supported by (720 x 480) resolution, the other video formats are supported (1280 x 720) resolution.

Q: Can I play YouTube video files on my device?
A: Yes. You can tap the YouTube application icon to quick access videos.

Q: How can I add video files to my device?
A: Copy the video files from your computer onto a SD card or USB storage device, and then use the File Browser application to copy the files into the device.

**Wi-Fi**

Q: Do I need a Wi-Fi adapter to connect to the Internet?
A: No. The Wi-Fi adapter is built-in to the device.

### Battery Management

The battery is not fully charged out of the box, so it is recommended that you charge the battery for at least 4 hours before you start to use the device.

The rechargeable battery is designed and manufactured to be used and recharged frequently. As with all batteries, the capacity of the battery reduces each time it is charged/depleted. However, you can still try to prolong the battery’s lifetime by following the suggestions below:

- Use your Tablet at least once a week.
- Charge the battery regularly and fully.

</table>
- Never leave the battery fully discharged for a long period of time.
- Always keep the device and the battery away from heat.

**Charge battery**

Plug the power adapter into an electrical wall outlet, and then connect to the device to fully charge the battery before use (approx. 4 hours).

* You cannot charge the battery using the USB cable.

When fully charged, the battery icon displays as: 🍃

A fully discharged battery takes approximately 5 hours to fully charge, but you can use the device while plugged in when desired.

---

**Important Safety Precautions**

Always follow these basic safety precautions when using your Tablet. This reduces the risk of fire, electric shock, and injury.

- Do not expose this product to rain or moisture.
- Keep the device out of direct sunlight and heat sources.
- Protect the power cord. Route power cords so that they are not likely to be walked on or pinched by items placed on or against them. Pay particular attention to the point where the cord attaches to the device.
- Only use the AC adapter included with the device. Using any other power adapter voids your warranty.
- Do not remove the cover. There are no user-serviceable parts inside.

**Clean your Device**

Treat the screen gently. To clean fingerprints or dust from the screen, we recommend using a soft, non-abrasive cloth such as a camera lens cloth.
