2 MID Introduction

2.1 MID Accessories Introduction
Package:
Below items are included in your MID package, please confirm:
- MID complete device.
- Power adapter
- USB cable
- Earphone
- Leather case
- User’s manual
- Warranty Card
- Qualification certificate of product

2.2 MID Usage and Preparation
Battery Charging
If this navigator is first used, please use AV adapter to fully charge it.
1. Apply the power adapter to charge for MID.
2. Red LED indicates it’s being charged. Please wait until it is fully charged and don’t pull out the adapter while charging. When it is fully-charged, the LED will turn to Green.

2.3 MID Status and Reminder
Reminder icons
When some remind message appears in your reminder window, please click column and slide the screen to open the reminder list. Choose the menu you need, and confirm the information. Then you can close the reminder window through clicking the column to slide up. Please refer to below status icons:

<table>

3.2 Startup and Shutdown

**Startup**
Long press **POWER key for two seconds**, you can enter into startup picture. The system enters into screen lock status, please unlock it.

**Shutdown**
1. Long press **POWER**, it will popup shutdown window.
2. Shutdown window contains mute mode, airplane mode and shutdown three options/
3. Click Shutdown is the last step.

3.3 Open and Close of the Screen

**Screen will be closed on its own when no operation happens.**
1. Screen will be closed on its own if no operation happens for some time to save battery power
2. When screen is open, press **POWER key**, the screen will be closed immediately.

**Open the screen when it is closed.**
If the screen is closed, short press **POWER** to open the screen. The screen will be locked open it, slip the middle icon as the middle arrow shows to unlock.

3.4 Usage of Touch Screen

**MID operating methods**
There are below methods to view the main screen, menu and application procedure in your MID.

**Click**
When you want to use the screen keyboard typing or choose application in the main interface, you only need to touch it by your finger.

**Press on**
If you want to open some item( textbox or the link in the webpage), or shortcut and main procedure move, you can press on this item.

**Quickly slide or slide**
Quickly slide or slide indicates make quick vertical or horizontal movement by finger.

**Pull**
Before you pull, you need to hold the it with strength until you pull it into the
position you want.

**Rotate**
For most pictures, you only need to rotate the MID sidewise to change the screen direction from horizontal to vertical. For instance, when you are typing words, and watching movies.

**3.5 Main Interface**
Main interface as below picture 3.2, long press the black and it will popup windows to set wallpaper, folder, widgets, and shortcut.

![Main Interface Diagram]

**3.6 Visit Application Procedures**
Click in Picture 3.2, enter into main interface as Picture 3.3, choose the application procedure you want to visit.

![Application Procedure Diagram]

**3.7 USB Connection**
**MID storage configuration**
Before transmitting documents, you have to conduct storage configuration for your MID:
1. Connect the MID and computer by USB cable, the reminder column will show the remind information.
2. Open the reminder board; please view the MID status and reminder to learn how to open the board.
3. In the reminder board, click the “USB Connected”, it will as below Picture 3.4, then click “open USB storage configuration”.
4. Now the USB is connected successfully.
Copy the document into memory card
1. Connect the MID to computer with USB cable.
2. As MID storage configuration, it is connected with computer successfully.
3. Open the “My computer” in your computer, check the items in “removable disc”.
4. Copy the documents you need into “removable disc”.
5. After copying finishes, click “shutdown the USB storage configuration” to uninstall.

Notice: When the MID is connected with USB cable, and you open the USB storage configuration, you can’t view the memory card through the MID. Only after you detach the USB cable, you can view the memory card in the MID.

3.8 Words Input
Use the screen keyboard
When you start the procedure or choose the words or numbers edition, it will show the screen keyboard. The keyboard contains below typing options:
1. Android keyboard
2. Google Pinyin

Choose the typing method you want
1. Click Setting procedure application.
2. Click Language and Keyboard.
3. In the text setting area will reveal all the installed words-typing methods in your MID.
4. Tick the typing method you want.

Use and Switch Input methods
1. In the interface of words input, click text edition area, popup the input method, then choose input method.

2. Choose the input method you need.

3.9 Application Technique
Add small tools in the desktop
In the main interface, hold the blank, the menu will be popup, click the windows widget, the list will show the appendant units of application procedure, such as music, photo album, clock and search.

Switch input methods
Press the text edition box, the menu will popup, click the input method.

Shortcut setting
Open the reminder board, as the Picture 3.6, you will see many shortcut setting, click the icons to set.
4 Basic Setting

4.1 Wireless and Internet

a) Connect Wi-Fi
1. In the main menu or interface, choose setting application procedure.
2. Choose wireless and internet, enter into Picture 4.1
3. Click WLAN, open or close Wi-Fi.
4. Click WLAN Setting, MID will automatically scan the available Wi-Fi wireless internet.
5. Choose the Wi-Fi internet you want to connect, if it is encrypted, it will popup the password input window, enter the password, and click connect.

Picture 4.1

b) Build mobile internet connection
1. Click Setting application procedure.
2. Choose wireless and Internet, enter into Picture 4.2
3. Choose Mobile Internet, after entrance choose “Opened data” startup or shutdown mobile internet connection.

Picture 4.2

4.2 Display

Adjust the brightness of screen
1. Click Setting application procedure.
2. Click display, choose brightness.
3. When the brightness setting board popups, grab the portlito to adjust the brightness volume.
4. Click confirm.

Picture 4.3

Adjust the screen standby time
1. Click Setting application procedure.
2. Click Display.
3. Slip down the screen, then click Screen timeout.
4. Screen standby time setting popups, choose the time you want to set.
4.3 FM Transmission
1. Click Setting application procedure.
2. Click FM transmitter.
3. Operate as below picture.

4.4 Management of Application Procedure
1. Choose Setting procedure in the application procedure list.
2. Choose Application Procedure.
3. Choose management of application procedure, you can manage and uninstall the installed application procedures once you enter.

4.5 SD Card and MID Storage
Check the SD card and MID available space
1. Click Setting application procedure.
2. Click Storage.
3. Check the available space of SD card.
4. Check the MID internal storage space.

Safely remove SD card
Safely remove SD card can protect SD card and extend working life of SD card.
1. Click Setting application procedure.
2. Click Storage.
3. Click Remove SD card.
4. Now it is safe to remove SD card.
4.6 Date and Time
According to the preset, system will voluntarily apply the date, zone, and time provided by internet.

Note: If you apply the time provided by internet, you can't set the date, time, and zone by your hand.

Manual adjust date, time and zone
1. Click Setting application procedure.
2. Slide down screen, then click date and time.
3. Clear "auto".
4. Click Zone Selecting, then choose the zone lists. Slide down the list to view more zones.
5. Click Date setting, then click upper or down button to adjust date, month, and year, click setting when you finish selection.
6. Click Time setting, then click upper or down button to adjust hour and minute, click AM or PM to change morning or afternoon (there is no such selection when you set 24-hour format). Click Setting to finish.
7. Click 24-hour format, switch between 12-hour or 24-hour format, the time format you choose will be used on the alarm clock.
8. Click date format setting, then choose the time format you want to show on MID.

Picture 4.7

4.7 Language Setting
1. Click Setting application procedure.
2. Click Language and keyboard.
3. Click Language Selection, then choose the language you want, slide down to view more languages.

Picture 4.8

4.8 About Tablet
View the MID Status
1. Click Setting application procedure.
2. Click About Tablet, you can view the electric volume, status messages and so on.

System update
1. Click Setting application procedure.
2. Click About tablet.
3. Click System update, update as steps.

View system version
1. Click Setting application procedure.
2. Click About Tablet.
3. You can view model NO., Android version, firmware version and internal version.

4.9 Fixed-time Startup and Shutdown
1. Click Setting application procedure
2. Click fixed-time startup and shutdown.
3. Operate as below Picture 4.9
5 Multi-Media

5.1 Music

Enter into music player: click in the main interface or desktop to play, and click the music you like to play. As Picture 5.1:

- Drag the play progress bar to adjust the play progress of audio
- Operation of music player button as Picture 5.2:

5.2 Video

- Enter video player: click Photo Gallery application procedure in the main interface or desktop, choose the video you want to play, as Picture 5.3
- Operation of video player button as Picture 5.4

5.3 Photo Gallery

- Photo gallery application can auto search photos and video files in SD card, and photo gallery will classify these photos and videos in folder. You can apply photo gallery to view and edit photos, set the photos as wallpaper and watch the video.
- Click Photo gallery in the main interface or desktop, as Picture 5.3
- Click any photo, operate it as Picture 5.5
- Click “set as” can set the photo as wallpaper or contacts grid, as Picture 5.6
5.4 Camera
In the main interface or desktop, click camera application procedure, enter into camera

- Operation of camera button as Picture 5.7
- Switch camera: choose Menu key, click switch camera, as Picture 5.8

5.5 FM Radio
Click △ in the main interface or desktop to enter into FM radio interface:

- Open outer sound
- Current frequency
- Previous channel
- Next channel
1. Click Mobile TV in the main menu

2. Select region

3. Search channels

5.6 Mobile TV

1. Click Mobile TV in the main menu

2. Select region

3. Search channels

- Operation of radio buttons as Picture 5.9

- Search channel: Click "Menu" in the main interface, click button, it will start to auto search channels, the searched channels will be saved in the channels list.

1. Click "Menu" key in the main interface, click button, enter into RDS setting, as Picture 5.10, choose the item you want to add

2. Save channels: Click button in the main interface to save the channel, and the channel will be saved in channels list.
4. Select channel, enter into play interface

5. Click Menu key for more functions

6 Communication Function

6.1 Phone
1. Click Phone application procedure
2. Operate as Picture 6.1

6.2 Text Message
1. Enter into main menu, choose Text Message application procedure
6.3 Contact List

Click Contact list in the main interface, enter into the contact list as Picture 6.4

- Click Grouping: click button, choose the contact grouping
- Search contact: Click button, enter into search function.
- Add contact: click button, enter into add contact interface.
- Check the contact information: Click any contact in the list, and it will show the contact information interface, as Picture 6.5
7 Internet

7.1 Browser

In case of Wi-Fi or mobile internet is connected well (Please refer to Chapter 4.1 for wireless and internet setting), click IE browser in the main menu or desktop to enter the IE interface.

Picture 7.1
Click address bar to input the website, click start, enter into related webpage, then you can browse the website information:

Picture 7.2
Email application procedure contains email setting guide, you can add the external POP3 OR IMAP email account of normal web email service provider (For instance, Yahoo, Gmail, Hotmail and 163)

7.2 Email
8 Other Application Procedures

8.1 Clock
Click Clock procedure, enter into below interface as Picture 8-1 shown. There are clock, picture, music and homepage buttons.

8.2 Calculator
1. Click calculator.
2. Enter into the basic board of calculator.
3. After pressing menu key, click senior board.
4. Soft touch the numbers or operator in calculator to calculate.
Remind: You can slide right and left to switch the basic board and senior board.

a. Email Setting
1. After you click the sending email icon, you can see the email setting guide, which can help you to set.
2. Input your email address and password.
3. Click “Next step” button, choose your email type is POP3 or IMAP.
4. Click “Next Step” button to check whether the email box servicer can receive or send emails.
5. Input the email account and display the email subject, and click finish.
6. If the email box is available, you will enter into your mail box automatically.

b. Delete the email account
You can delete setted POP3 or IMAP email account from your MID.
1. Click Email.
2. Enter into your mailbox.
3. Press Menu key.
4. Click Account.
5. Press the account you want to delete.
6. Popup Menu list, click delete account.
7. Click Confirm to delete.

c. Send E-mail
1. Click Email to display your mail box.
2. Click the inbox, it will refresh the new emails automatically; click it to read new email.
3. Press Menu key. Menus will popup.
4. Click Edit to enter into new email editing interface.
5. Input the receiver’s email address.
6. Input the subject and email content.
7. If you want to add attachment, click menu key, the menu popup.
8. Click “Add attachment”.
9. Choose the attachment (pictures, video) you want to send.
10. Click “send” to send the email out.

Play the record: choose the video player to play the recorded sound, choose the recorded sound in the source manager, and click it to play.
9 Installation of Procedures

9.1 Installation
Install the third party application procedure
You can gain the third party application procedure which match the Android system from internet, and install it by yourself in MID. Copy the application procedure into SD card, and insert in the MID.

1. Click "file manager" application procedure; choose the application procedure you need to install.
2. Hold the application procedure you need to install.
3. It popup install, click install apk.
4. Finish the installation as guide, it will operate.

Note: The third party procedure searched from internet to use on the system are all suffixed with .apk.

9.2 Uninstall
Uninstall application procedure
1. Click setting icon in the main interface.
2. Click application procedure.
3. Click manage application procedure, list all the application procedures installed in the system.
4. Click uninstall.
5. Click confirm to finish uninstallation.

Skill: The procedure manager installed by system has many convinent methods to uninstall, after opening procedure manager, click uninstall, it will list all the application procedures installed by system.

9.3 Update Path
Update the application procedures of Android system
- Download the latest application procedure from appointed website.
- Download form the Android system related software forum in the internet.
10 System Upgrade

10.1 Preparation for System upgrade
Download the upgrade procedure
   You can download the software upgrade pack from website, then use the upgrade pack to upgrade the system version of MID.
Preapration for system upgrade:
   1. Download the system upgrade pack to your computer from related website.
   2. Prepare the toolf for system upgrade; one TF card, file system FAT or FAT 23 format both ok.
   3.

10.2 Restore Factory Setting
   When your MID occures some serious mistake or unlocked passwords are forgotten, you can apply restore factory setting to return to factory status. Restore the factory setting will delete all the data such as existig application procedures and user’s setting, do remember to backup your data.
   1. When the device is in shutdown state, hold the Volume up key by one hand, and press Power key into upgrade picture by another hand.
   2. Enter into upgrade picture, the picture is a triangle with a exclamation mark.(As Picture 11-1)
   3. Click Home key when you see the triangle.
   4. The system enter into another picture, recovery status, there are six items for option.(As Picture 11-2)
   5. The first option: Restart the system. The second option: System upgrade. The third option: Ripe data/ Factory reset. The forth option: Ripe caching data. The fifth option: Backup user’s data. The sixth option: Recover user’s data.
   6. Now you press Volume down key, the option bar will slide down, press Menu key to execute.
   7. Choose wipe data/factory reset to execute.
   8. Enter into confirmation interface, click Yes to restore factory setting, click No to exit the confirmation interface.

10.3 System Upgrade
   Note: Before upgrading, please confirm the electric volume of your MID is more than 30% to ensure the upgrade can be finished. Besides, you need to backup your important data, such as application procedures, emails, etc.
   Upgrade steps: (First insert the TF card with update zip upgrade package into MG701, the file named update zip)
   1. First click Volume up key, then press Power key to enter into recovery mode, as Picture 11.1:
2. Click home key to enter into main menu interface, as Picture 11.2:

![Android system recovery interface](image)

**Picture 11.2**

3. Move the cursor by **volume down** and **volume up**, choose **apply update from SD card**, as Picture 11.3

![Android system recovery interface](image)

**Picture 11.3**
4. Click menu key to enter below menu, click update.zip, as Picture 11.4

![Picture 11.4](image)

5. Click Menu key to start to upgrade, as Picture 11.5

![Picture 11.5](image)

6. When the upgrade is finished, it will return to the main menu interface automatically, as Picture 11.6

![Picture 11.6](image)

11 Troubles Shooting

1. The first startup of MID is slow
   After the MID system upgraded, the first startup need to install the pre-installed application softwares, the lead time is around 2-3 minutes, the startup afterwards will be much quicker.

2. MID can't connect Wi-Fi
   - Make sure the wireless router of internet service can work in normal.
   - Ensure the MID and wireless router in certain distance, and no wall or other barrier between them.
   - Ensure the user name and password both correct.

3. MID feels fever
   When many application procedures are used in meanwhile, or the brightness of screen open to the lightest or under charging, MID may feel fever. It is normal.

4. The system is abnormal and can't work
   When you install some third party application procedure, it may cause abnormal work, you can press Reset key(next to power port) to reset the system.

5. Email can't be set or Registration of application procedure.
   - Ensure your internet is well connected.
   - Make sure your email setting way is correct.
   - Keep your system time and local time consistent.
