Your phone

the important keys & connectors

Note: Your phone might look a little different.

Let's go
let's get you up and running
Assemble & charge
1  MicroSD in (may already be inserted)
2  Battery in
3  Cover on
4  Charge up
Caution: Please read the battery use and safety text in the important legal and safety information packaged with your phone.
Tip: To save battery life, see “Battery tips” on page XX.
Set up & go
The first time you turn on your phone, a setup wizard guides you through signing in to your Gmail™ account. If you don’t have one, don’t worry, the wizard will help you create one. After you log into Gmail, you can set up social networking, or you can do it later.
This phone supports data-intensive apps and services. It is strongly recommended that you purchase a data plan that meets your needs.

Contact your service provider for details.

1. Press and hold Power on the top of your phone to turn it on.
2. Select a language.
3. Follow the setup wizard to create or log in to your Gmail account.

Note: If you have an existing Gmail account, your contacts from that account are synced to your phone. Whenever you choose to select all contacts for the one you want, your phone shows every contact, in every group.

If you want to use a Wi-Fi computer network for even faster Internet access, touch Menu > Settings > Wireless & networks > Wi-Fi settings.

Cool content & more

Browse and download thousands of the coolest apps on the planet from Android Market™. Your phone comes with a microSD memory card installed—you can load it up with photos, videos, and music from your computer using “Memory card” on page 19.

Touchscreen & keys

a few essentials

Touch tips

Here are some tips on how to navigate around your phone.

Touch

To choose an icon or option, touch it.

Touch & hold

To open special options, touch and hold an icon or other item. Try it: in the home screen, touch Contacts, then touch and hold a contact to open options.

Drag

To scroll through a list or move slowly, drag across the touchscreen.

Try it:

In the home screen, touch Contacts, then drag your Contacts list up or down.

Tip: When you drag or flick a list, a scroll bar appears on the right. Drag the scroll bar to move the list to a letter A - Z.

Flick

To scroll through a list or move quickly, flick across the touchscreen (drag quickly and release).

Tip: When you flick a long list, touch the screen to stop it from scrolling.

Zoom

Get a closer look at maps or web pages. To zoom in, double-touch the screen. To zoom out, double touch the screen again.

You can also zoom in or out by pinching your fingers together or moving them apart on the screen.

Key tips

Menu, home, & back

Touch Home to close any menu or app and return to the home screen. In the home screen, touch and hold Home to show the last few apps you used, then touch an app to open it.

Touch Search for text search, or touch and hold for voice search. Touch Menu to open menu options, or touch Back to go back.
Sleep & wake up
To save your battery, prevent accidental touches, or when you want to wipe smudges off your touchscreen, put the touchscreen to sleep by pressing Power \( \text{Power} \). To wake up the touchscreen, just press Power again, or open the phone.

To change how long your phone waits before the screen goes to sleep automatically, touch Menu > Settings > Display > Screen timeout. Tip: To make the screen lock when it goes to sleep, use “Screen lock” on page XX. To unlock the screen, press Power \( \text{Power} \) or open the phone. Then, drag \( \text{Power} \) to the right.

Power key menu
Press and hold Power to open the power key menu, where you can turn off the phone (Power off \( \text{Power off} \)), or turn Airplane Mode or Silent mode on or off.

Adjust volume
Press the volume keys to change the ring volume (in the home screen), or the earpiece volume (during a call).

Rotate the screen
When you rotate the phone 90 degrees counterclockwise, the touchscreen can rotate to stay right-side up:

Find it: Menu \( \text{Menu} \) > Settings > Display > Auto-rotate screen

Quick tips
If you're not sure what to do next, try one of these:

To:
Get the details—Open a text message, see details for a contact, or open items in other lists. Touch the message, contact, or item.
See screen menu—Open a menu for the current screen. Touch Menu \( \text{Menu} \)

To:
See item options—Open an options menu (if available) for an item on the screen. Touch & hold the item.
Start again—Go back to the home screen. Touch Home \( \text{Home} \).
Wake up your phone—Turn on a sleeping touchscreen. Press Power or open the phone.

Home screen
quick access to the things you need most
Quick start: Home screen
The home screen gives you all your latest information in one place. It’s what you see when you turn on the phone or touch Home \( \text{Home} \) from a menu \( \text{Menu} \). It’s basically like this:

Note: Your home screen might look a little different. The home screen extends beyond what you see on the screen to give you more room for adding shortcuts, widgets, and more. Flick the home screen left and right to see more panels or to add widgets or shortcuts.

Widgets
A widget is a small app on the home screen that typically displays information such as weather, news, and social networking updates. You can add a widget, such as a clock, music player, or a calendar that shows upcoming appointments. To open a widget, touch it.
To add a widget, touch an empty spot on the home screen. (You can also touch Menu \( \text{Menu} \) > Add > Widgets.) If your home screen is full, you won’t see the add option. You’ll need to move or delete widgets or shortcuts to
make room. You can change a widget's size. Just touch and hold the widget. When the widget's outline turns white, drag one of the corners to make it the size you want.

Note: If you install apps from Android Market that have widgets, touch and hold the home screen, then select a widget to add to the home screen.

Shortcuts
To add shortcuts to the home screen, open the app menu, then touch and hold the shortcut you want. It will be added to the home screen. Or, touch Menu > Add > Shortcuts.

App tray
Quick start: App tray
The App tray shows you all of your applications. To open it from the home screen, touch Launcher icon.

Flick up and down to see all of your apps. Any new apps that you download (see page “Android Market™” on page XX) are added to the app tray.
To close the app tray, touch at the bottom of the tray, or touch Home or Back.

Recent apps
Touch and hold Home to see the last few apps you used, then touch the app you want. Touch Home to return to the home screen.

Search
To search, touch Search on the front of the phone, or touch Search on the phone’s slide-out keyboard.

Search by entering text from the touch keypad.

To search by voice, touch , then speak your keyword(s) when prompted.
To type your search, touch the search window, then enter your keyword(s) and touch .

Phone status & notifications
The status bar at the top of the screen contains icons that tell you about messages and phone status. To view your notifications, touch the status bar and drag it down. Icons on the right tell you about phone status:

Tip: To see today's date, touch and hold the status bar at the top of the screen.
During a call:
- To use a Bluetooth® device, touch Bluetooth. (The device must be turned on and previously paired—see “Connect new devices” on page XX.)
- To mute a call, touch Mute.
- To use the speakerphone, touch Speaker.

Note: Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.
Tip: You can touch Home or Back to leave the active call display. To reopen it, touch Home > Phone > Return to call in progress.

Make & answer calls.
To make a call, touch Phone, enter a number, then touch.
Tip: If the screen is locked, drag ▶️ to the right. To answer a call while the display is active, touch. When the display is not active, answer by dragging ▶️ to the right.
To end a call, touch ✖️.
To ignore a call, touch Ignore.

End calls
Touch .

Note: Your phone includes a proximity sensor. When you hold the phone to your ear, the display goes dark to prevent accidental touches. When you move your phone away from your ear, the display lights up again.

Recent calls
Find it: Phone > Recent
- To call a number, touch it.
- To send a text message, create a contact, view a contact, or other options, touch and hold an entry.
- To clear the list, touch Menu > Clear list.

Frequent calls
Find it: Phone > Favorites
- To call a number, touch it.
- To send a text message, view a contact, or other options, touch and hold
Conference calls
To start a conference call, call the first number. After the call connects, touch Add Call. Dial the next number, or select it from contacts or favorites. When the next number answers, touch Merge calls.

Your phone number
Find it: Menu > Settings > About phone > Status > My phone number

Emergency calls
Note: Your service provider programs one or more emergency phone numbers (such as 911 or 112) that you can call under any circumstances, even when your phone is locked. Emergency numbers vary by country. Your pre-programmed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues.

1. Touch Phone (if your phone is locked, touch Emergency Call).
2. Enter the emergency number.
3. Touch to call the emergency number.

Note: Your mobile device can use GPS and AGPS signals to help emergency services find you. See “GPS & AGPS” in your legal and safety information.

Contacts
contacts like you’ve never had before
Quick start: Contacts
Find it: Contacts

Tip: To search the list, touch and hold Menu to open a touchscreen keyboard, then type a name. When you flick or drag the list, drag the scroll bar that appears to move the list faster.

Call or email contacts
Find it: Contacts
For View contact, Call contact, Send text message, Send email, or other options, touch and hold the contact.

View & use contacts
When you set up a social networking account (see “Social networking” on page 34), you’ll know what everybody’s up to and when. Every time you pick up a call, check a message, or look up a friend’s contact info, sure, you’ll see their name and number, but you can see their social network status and smiling face, too.

Find it: Contacts
- To find a contact, type the contact name. Touch a contact to open its details. While viewing details, you can start a call or message by touching a phone number or other info. Flick the screen left or right to see Social Networking updates or History.

Tip: To change which account provides the pictures for your Contacts, from the home screen touch Launcher icon > My Accounts > Menu > Picture source.
- To change which group of contacts is shown (All, Facebook, and so on) touch the filter name at the top.
- To change how you view the list of contacts, flick left or right at the bottom of the screen to select History (recently used), A-Z (list without status), or Status (list with status).

Edit or delete contacts
Find it: Contacts
Touch the contact, then touch Menu > Edit or Delete.

Link contacts
You might have two Contacts for the same person, such as a friend with two email addresses. To combine these two contacts:
Find it: Contacts
Touch a contact to open it, then touch Menu > Link contact and touch the second entry. Your social networking account remembers this connection.
Create contacts
Find it: Contacts > Menu > Add contact
Slide out the keyboard, or touch any entry area to open the touchscreen keyboard. When you’re finished, touch Save.

Where are contacts saved? Your phone saves new contacts in its memory and in the Google Server or the subscription-only Backup Assistant, if you have a subscription. It also updates your social networking account.

Synchronize contacts
When you change one of your Contacts, your phone automatically updates your other social networking accounts. Also, your phone updates your Contacts and social networking account whenever you change a friend in your social networking accounts.

Groups
Find it: Contacts > Menu > Display group You can put your Contacts into groups that you create (like “friends”, “family”, or “work”). Then, you can find contacts faster by showing one group at a time.

Text entry
keys when you need them

Keyboards
You can slide your phone open to use its keyboard, or you can open a keyboard on your screen by touching a text field, or touching and holding Menu. To close the keyboard, touch Back.

Different keyboards open for different text entry screens. For example, this keyboard opens when you create an email message:

Input methods
To select an input method, touch and hold a text entry area on the screen to open the Edit text menu. Touch Input method, then touch the method you want:

Tips & tricks
a few handy hints
General tips
- If you can’t see the screen while wearing sunglasses, take them off. Screen brightness changes as your phone senses the current lighting conditions.
- To return to home screen, touch Home.
- To see recently dialed numbers, touch Phone > Recent.
- To sleep/wake your phone, press Power/Lock.
- To set screen timeout, touch Menu > Settings > Display > Screen timeout.
- To search, touch Search.
- To show last few apps, touch and hold Home.
- To turn sound on/off, press and hold Power/Lock > Silent mode.
- To turn airplane mode on/off, press and hold Power/Lock > Airplane mode.

Battery tips
Want to extend your battery life? Try these:
- To select a battery profile that suits your phone use, touch Menu > Settings > Battery Manager.
To turn off automatic applications sync, touch Menu > Settings > Data manager > Data Delivery.
To turn off Bluetooth power, touch Menu > Settings > Wireless & networks > Bluetooth.
To turn off Wi-Fi™, touch Menu > Settings > Wireless & networks > Wi-Fi.

Digital living
can and enjoy
Note: Copyright—do you have the right? Always follow the rules. See "Content Copyright" in your legal and safety information.

Blockbuster On Demand is a service that allows you to purchase or rent and download video assets from your mobile phone. After purchase or rental, you can play back the content on your mobile phone or on PCs or TVs that are connected to a TiVo® DVR, a Blu-ray player, or 2Wire™ media platform. Just click on the free Blockbuster app:
Find it: Launcher icon > Blockbuster
After the app completes an upgrade procedure, you will be prompted to activate your device by signing up (if you have no Blockbuster account) or signing in (if you already have a Blockbuster account). You will be prompted to add credit card information for your payment option. After that, you can browse a vast array of Blockbuster video assets for purchase or rent. There is no monthly fee for this service.

Media Share
Media Share gives you an easy way to share your media content—photos, videos, and tunes—with friends and family.
Share your media via DLNA devices: The Media Share wizard guides you through the easy setup steps.
Swap photos & videos: Share any photos or videos on your phone, even the ones you created.
More tunes: Enjoy favorites from your phone playlist on your sound system at home. Or get music from your portable music player and add it to your phone's music library.

Connect
You must be connected to a Wi-Fi network or another device:
• Connect to your computer with a USB cable (see
• Connect to a Wi-Fi network or use your own Wi-Fi hotspot (see "Wi-Fi© on page 45). Media Share will lead you the rest of the way.

Your Media Share world
Note: If you're using a Wi-Fi connection, you must allow access to other devices to download media from your phone and to share your files. If you want to access media files on other devices, they must allow access.
To use Media Share, touch Launcher icon > Media Share. Then select the Media Share feature you want to use.
• Share media—Allow other devices to access media files on your phone. Without downloading any media from your phone, other people can view your pictures or videos, or play your songs, on their own devices.
• Sync media—Sync the media files on your phone with other devices.
• Copy media—Copy a picture from one phone to another.
• Play media—Select media for playback on another device in a Wi-Fi network.

Share using DLNA
DLNA lets you expand the ways you can enjoy your photos and videos on a DLNA Certified computer, TV, or monitor, using your own Wi-Fi network. Make sure your phone is connected to an active Wi-Fi network and has access to a DLNA Certified device.
1 Touch Launcher icon > DLNA.
2 Touch Play media, Copy media to server, Copy media to phone, or Share media. Then follow the instructions you see on your phone.
Photos & videos
see it, capture it, share it!
Photos
Take & share photos
Take that family photo, and post it online for everyone to see.
Note: To get the clearest photos, wipe the lens clean with a soft, dry cloth before you take a photo.
Find it: Press the Camera Key (on the side of the phone—see "Your phone" on page 2).
Tip: You can also touch Launcher icon > Camera.
Note: Photos are stored on your microSD memory card. Picture Resolution is Widescreen or 5MP, unless you change it.
To take the photo, press the Camera Key halfway to lock the focus, then press all the way to take the photo.
To set the photo as a wallpaper, contact photo, or social network photo, touch Menu > More > Set as.
To send the photo in a message or post it online, touch Menu > Share. For more info on sharing your photos, see "Share photos & videos" on page 25.
To delete the photo, touch Menu > Delete.

Photo options
You can make adjustments to optimize your shot. Touch a button on the right side of the screen to make changes (touch the screen to turn on the buttons if necessary):
- Scenes—Adjust for better image capture in different environments: Auto, Portrait, Landscape, Sport, and more. Touch the screen when finished to return to the viewfinder.
- Effects—Change photo look: Normal, Negative, Black and White, and more.
- Flash—Set Flash On, Flash Off, or Auto Flash.
- Switch to—Toggle between photo and camcorder modes.

Camera settings
In the viewfinder, touch Menu > Settings to open the camera menu and adjust these settings:
- Picture Resolution—Adjust for optimal resolution for widescreen TV, 8" by 10" prints, 5" x 7" prints, "4 x 6" prints, or wallet photos.
- Quick Upload Album—Automatically upload photos to accounts you select, such as Facebook, MySpace, Photobucket, and more.
- Review Time—How long your phone displays a new photo before returning to the viewfinder.
- Face Detection—Detects a face in the viewfinder and adjusts image quality accordingly.

Videos
Record & share videos
Find it: Launcher icon > Camcorder
Note: To get the clearest videos, wipe the lens clean with a soft, dry cloth before you record a video.
To record the video, press the Camera Key. To stop the video recording, press the Camera Key again.
To send the video in a message or post it online, touch Menu > Share. For more info on sharing your videos, see "Share photos & videos" on page 25.
To play the video, touch .
To delete the video, touch Menu > Delete.

Video options
You can make adjustments to optimize your video. Touch one of the buttons on the right side of the viewfinder to make changes (you may need to touch the screen to make the buttons appear):
- Scenes—Adjust for better video capture in different environments: Auto and Night.
- Effects—Change video look: Normal, Negative, Black and White, and more.
- Light—Turn a light on or off to adjust for the lighting where you are recording.
- Switch to—Toggle between camcorder and camera.

Camcorder settings
In the viewfinder, touch Menu > Settings to open the camcorder menu and adjust these settings: Video Resolution, Review Time, Shutter Animation, and more.

View photos & videos
Find it: Launcher icon > Gallery
Touch a folder to display all of its photos or videos. Option for the photos or videos you want to access.
- Camera roll—All of the captured photos and videos on your phone.
- My Tags—Photos and videos grouped by tag.
- Folders—Photos and videos grouped by the folders where they're saved.
- All photos—All photos, no groupings.
- All videos—All videos, no groupings.

Note: To see the controls while the video is playing, touch the display.

View photos & videos
Tip: Turn the phone sideways for a widescreen view.
The Gallery first displays photos and videos as thumbnails. Scroll through the thumbnails by flicking them up or down. Touch a thumbnail to select it for viewing or playback.
When you select a thumbnail, it is enlarged to normal viewing size. Videos are paused at the beginning. Touch the play and pause buttons on the screen to control video playback.

Note: To see the buttons while the video is playing, touch the display.

Share photos & videos
Find it: Launcher icon > Gallery
To send your photo in a message or post it online:
1 Select an image.
2 Touch and hold a photo or video, then touch Share.
3 Choose how you want to share—like Bluetooth, Email, Text

Messaging, and more.

Manage photos & videos
Find it: Launcher icon > Gallery
1 Select an image.
2 Touch and hold a photo or video, then select Quick upload, Share, Edit, Delete, or More (Set as, Print).

Tip: To copy photos to/from a computer, go to “USB connection” on page 47.

Music
when music is what you need...
Quick start: Music
Touch and play—instant music. Just open your music library, then select what you want to play.
Find it: Launcher icon > Music
Tip: When a song is playing, you can add it to a playlist by touching Menu > Add to playlist.

Set up music
What music transfer tools do I need?
To put music on your computer and then load it on your phone, you need:
* Microsoft™ Windows™ PC or Apple™ Macintosh™.
* USB data cable (included with your phone).
* SD memory card (16GB—including with your phone).

Your music is stored on your memory card. Your phone supports removable microSD memory cards up to 32GB capacity. To make sure your memory card is installed, go to “Assemble & charge” on page 3.

Tip: To see the available memory on your memory card, touch Menu > Settings > SD card & Phone storage.

What audio file formats can I play?
Your phone can play many types of files: AAC, AMR, MP3, WAV, WMA, AAC+, and MIDI.

Note: Your phone does not support DRM-protected files.

What headphones can I use?
Your phone has a 3.5mm headset jack for wired stereo listening. You can go wireless with Bluetooth® stereo headphones or speakers (see “Bluetooth® wireless” on page 44).

Get music:
You can transfer music from your computer to your phone by using a USB connection.

For more information on transferring music, see “USB connection” on page 47.

Play music
Music library
Open your music library, then select what you want to play.
Find it: Launcher icon > Music
Your music is stored by artists, albums, songs, and playlists. Touch a category, then touch the song or playlist you want to play. Touch Menu > Party shuffle to randomly play all your songs, or touch Search to look for a song.

Music player
Just touch a song or playlist to get going.

Music player controls
* Play/pause—Touch / .
* Previous/next—Touch / .
Create messages
Find it: Launcher icon > Messaging >
Choose a message type, such as Text Messaging or Facebook. Then, enter the recipient and message. In text messages and emails, touch Menu for options like Insert or Attach Files.
Send & receive attachments:
To send a file in a message, open a new message and touch Menu > Insert. When you receive a message with an attachment, open the message and touch the file name to download it. Then, touch the name again to open it.
Some file formats can be converted to HTML for faster viewing, and your phone will show Get HTML version.
While viewing the attachment, touch it to save it, share it, and more.
Tip: To send and receive large attachments faster, use a Wi-Fi connection, in “Wi-Fi” on page 45.
Set up messaging:
To add email accounts, touch Launcher icon > My Accounts > Add account.
• Corporate Sync is for Exchange server work email accounts. Enter details from your IT administrator.
Tip: You might need to enter your domain name with your user name (like domain/username)
• Email is for most personal email accounts. For account details, contact the account provider.
Note: While you are using a Wi-Fi network, you cannot access Yahoo Mail accounts. You can still use your browser to see these accounts at mail.yahoo.com.
To change your settings, touch Launcher icon > Messaging > Menu, then touch:
• Manage accounts to add or remove an account.
• Edit Universal Inbox to choose which accounts show messages in the Universal Inbox.
• Messaging Settings to set the notification for each account type (along with other preferences, for email).
Tip: For social network accounts, see “Add accounts” on page 34.
= e-mail
The first time you turned on your phone (see page 4), you logged in to your

Touch Hofre to Tg.n.

To edit, delete and rename playlists, touch and hold the playlist in the music library.

To add a song from the music library to a playlist, touch and hold the song then touch Add to playlist. Choose an existing playlist, or touch New to create a new playlist.

To add a song to the playlist you're playing, touch Menu > Add to playlist in the music player.

To edit, delete and rename playlists, touch and hold the playlist in the music library.

Read & reply to messages
Find it: Launcher icon > Messaging > Universal Inbox
Note: Universal Inbox shows all of your messages together—text, email, and social networking messages. To show only one type of message, touch a message account type instead of Universal Inbox.
• To open a text message or social networking message and all of its replies, touch it.
• To respond to a message, just open it and enter your response in the text box at the bottom.
To forward a text message, touch and hold a message in the conversation, then touch Forward message.
For email, touch to choose a reply or forward option.
• To open options, touch and hold a message.
Tip: Try the Messages widget in “Widgets” on page 8.
Gmail™ account. You can add any other email account that you set up.
To add other email accounts to your Messaging widget and Universal Inbox: Touch Launcher icon > Messaging > Menu, then touch Manage accounts > Add account. On the Setup accounts screen, touch Email and enter your email account information.

Instant messages
To send and receive instant messages, you can use an instant messaging app or your browser. Your device comes preloaded with Google Talk™. You can also download an instant messaging app from the Android Market:
- Touch Launcher icon > Market > Apps > Communication, then choose an app for your provider. Once you download the app, you'll see it in "App tray" on page 9.
- If you don't see an app for your IM provider, you can use your Web browser. Touch Home > Browser > Menu > Go, then enter your provider's Web site. Once you're there, follow the link to sign in.

Note: Your IM options will depend on your IM provider. To browse instant messaging apps from your computer, go to www.android.com/market.

Voicemail
When you have a new voicemail, shows at the top of your screen. To hear the voicemail, touch Phone, then touch.
If you need to change your voicemail number, in the home screen touch Menu > Settings > Call settings > Voicemail Settings.

Social networking
my life, your life
Your social networking account
You can set up a social network account that integrates and syncs all your contacts, emails, and social networking sites, and serves them up just the way you want them. No opening and closing apps and menus. You can interact by using the Social Networking and Social Status widgets on your home screen. These widgets are your windows into the social networking sites and other accounts you entered into your social status.
Add accounts
You can add your more accounts to your social networking account. If you don't have accounts on these sites, visit their Web sites to set them up.
For email accounts, see "Set up messaging" on page 32.

Find it: Launcher icon > My Accounts > Add account
Add an account by touching it. Then enter your user name and password for that account.

When you sign into social networking accounts, you'll see your friends and contacts in your Contacts list, and your status and updates can appear in your Social Networking and Social Status widgets on your home screen. Twitter and MySpace messages will always appear as "read" on your phone, but your phone notifies you when you receive a new message. MySpace marks your messages as "read" online.

Tip: To download updates faster, use "Wi-Fi®" on page 45. Edit & delete accounts
Find it: Launcher icon > My Accounts
Touch and hold an account, then touch Open account to edit it, or touch Delete account to remove it (along with its contacts and messages).

Note: You can't delete the Google™ account you used or created when you set up your phone. That account is locked when you set it up.

Web
You don't need a PC, surf the web with your phone
Quick start: Browser
Find it: Browser
Note: If you can't connect, contact your service provider.

Connect
Your phone uses the mobile phone network (over the air) or a Wi-Fi connection to automatically access the Web.

Note: Your service provider may charge to surf the Web or download data. To use a wireless network, touch Menu > Settings > Wireless & networks. Touch Wi-Fi to turn it on and touch Wi-Fi settings to search for nearby wireless networks. Touch a network to connect.

Select links
When you touch a link, your phone outlines it and goes to that page. If you touch and hold the link, your phone shows options, like Open in new window or Bookmark link.

See options
Touch Menu to see browser options:
Find it: Menu > Settings > Sound > Phone ringtone or Notification ringtone
To set your vibrate options:
Find it: Menu > Settings > Sound > Phone vibration
Wallpaper
To apply a new wallpaper:
1 Touch and hold an empty spot on your home screen.
2 Touch Wallpapers.
3 Touch Live Wallpapers, Media gallery, or Wallpapers, and choose a wallpaper.
Sounds
* To set volume for media and videos, touch Menu > Settings > Sound > Volume.
* To play tones when using dial pad, touch Menu > Settings > Sound > Audible touch tones.
* To play sound on a screen selection, touch Menu > Settings > Sound > Audible selection, then adjust Media volume.
Display settings
* To set display brightness, touch Menu > Settings > Display > Brightness.
* To set orientation, touch Menu > Settings > Display > Orientation.
* To set animation, touch Menu > Settings > Display > Auto-rotate screen.
Note: Some apps are designed so that your phone can "animate" them by rotating, fading, moving, and stretching one or more images.
Quick launch shortcuts
You can add shortcuts directly to the home screen by touching and holding an empty spot on the home screen, touching Shortcuts, and selecting a shortcut.
Date & time
Set date, time, time zone, and formats:
Find it: Menu > Settings > Date & time
Language & region
Set your menu language and region:
Find it: Menu > Settings > Language & keyboard > Select language
Maps
where you are, where you're going
Quick start: Maps
Where am I? What's around here? Don't worry—let Maps help you explore your surroundings and find what you're looking for.
Find it: Launcher icon > Maps
Note: The map image you see may be a little different.
Set your location sources
Set your phone to determine your location using GPS satellite signals (highly accurate, but uses battery power) or using the mobile network (less accurate, but conserves battery power).
To set your location, touch Menu > Settings > Location & security > Use GPS satellites and/or Use wireless networks.
Find your location
Note: Don't forget to set your location sources. From the main Map screen, touch Menu > My Location. Your location is shown on the map as. The bigger the circle, the less accurate the location.
Find any location
1 Touch Menu > Search.
2 Enter text in the search box, like an address, business, or city, then touch .
Tip: If it's an address you have visited before, select from the list shown.
3 Touch the search box to view all the results, then touch the one you want.
Get directions
Find your way with turn-by-turn directions. You can even have them spoken so you can keep your eye on the road.
1 Touch Menu > Directions.
2 Enter a starting point address or touch and select My current location, Contacts, or Points on map.
3 Enter an end point address or touch and select Contacts or Points on map.
4 Select your mode of transport (car, public transport or walk), then touch Go. Your directions are shown as a list. To view your directions on a map, touch Show on map.
5 When you have finished, touch Menu > More > Clear map.
Select map mode
Touch Menu > Layers to select from Traffic, Satellite, Latitude or recent searches, viewed positions or directions.
Touch Menu > Layers > More layers to select from My Maps, Wikipedia, or Transit Lines.
Touch Clear Map to clear your selections.
Map view
Shows a map, complete with names of streets, rivers, lakes, mountains, and borders. This is the default view.
Satellite view
Shows map on top of aerial photo.
Traffic view
If available in your area, real-time traffic conditions are shown on the roads as color-coded lines.
Latitude
where are your friends & family?
Join Latitude
Keep track of where your friends and family are on Maps. Plan to meet up, check that your parents got home safely, or just stay in touch. Don't worry, your location is not shared unless you agree to it. You need to join Latitude, and then invite your friends to view your location or accept their invitations. When using Maps (in any mode except in Street View), touch Menu > Join Latitude. Read the privacy policy and if you agree with it, touch Agree & Share.
Add & remove friends
Find it: Launcher icon > Maps > Menu > Latitude
To add friends:
1 Touch Menu > Add friends.
2 Touch Select from Contacts, then touch a contact. Or, touch Add via email address, then enter an email address.
3 Touch Add friends.
If your friends already use Latitude, they'll receive an email request and a notification. If they have not yet joined Latitude, they'll receive an email request that invites them to sign in to Latitude with their Google account.
To remove friends:
1 Touch Menu > Latitude to show your friend's list, then touch a friend in your list.
2 Touch Remove this friend.

28
Share location
When you receive a request to share location details you can choose to:
- Accept and share back—See your friend’s location, and your friend can
  see yours.
- Accept, but hide my location—See your friend's location, but they can't
  see yours.
- Don't accept—Location information is not shared between you and your
  friend.

Hide your location
To hide your location from a friend, touch Menu > Latitude to show your
friend's list. Touch your contact name, then touch Menu > Edit privacy
settings > Hide your location.

Turn off Latitude
Touch Menu > Latitude to show a friend’s list.
Touch Menu > Edit privacy settings > Turn off Latitude.

Apps for all
get the app you want
Android Market™
Note: You must set up a Gmail account (see “Set up & go” on page 4) in
order to buy and download apps from the Android Market.
Find it: Launcher icon > Market
Get all the fun games and cool apps you want! Android Market provides
access to applications developed by developers worldwide, so you can
find the app you want. If you need help or have questions about Android
Market, touch Menu > Help.

Browse & install apps
Scroll to and touch the app you want to install. Then, touch Install (if app is
free) or Buy.

Warning: If an app you are downloading requires access to your data or
control of functions on your phone, you’ll be asked to give your permission.
After selecting Install, the app will download. After selecting Buy, you may
be asked to sign in to an additional Google™ account. Sign in and select
Purchase now to proceed. Follow the on-screen instructions. To see the
download progress, open the notifications window.

After you download an app, the icon for that app
appears on the App tray (see “App tray” on page 9).

Manage & restore apps
Find it: Menu > Settings > Applications > Manage applications
Touch an app in the list, then touch Uninstall (for apps you downloaded),
Clear cache, or other options. To reinstall any downloaded items, touch
Launcher icon > Market.

Important customer information
Please be advised that many services and applications offered through
this unique device are provided by Google and various application
developers. If you use, link to or download a Google service, or an
application such as a non-Verizon Wireless location based GPS-type
service, chat room, marketplace or social network from this device, you
should carefully review the terms of such service or application. If you use
any of these non-Verizon Wireless services or applications, personal
information you submit may be read, collected, or used by the service or
application provider and/or other users of those forums. XXXX, Inc. and
Verizon Wireless are not responsible for your use of those applications or
information you choose to submit or share with others.

Specific terms and conditions, terms of use, and privacy policies apply to
those applications and services. Please review carefully any and all terms
and conditions applicable to those applications and services including
those related to any location-based services for any particular privacy
policies, risks or waivers.

Your Verizon Wireless customer agreement terms and conditions and
certain other specifically identified terms govern your use of any Verizon
Wireless products and services.

Bluetooth® wireless
lose the wires and go wireless
Quick start: Bluetooth wireless
Find it: Menu > Settings > Wireless & networks > Bluetooth settings
**Bluetooth**

**Turn Bluetooth power on or off**
Find it: Menu > Settings > Wireless & networks > Bluetooth
Note: To extend battery life, turn Bluetooth power off when not in use.

**Connect new devices**
Note: This feature requires an optional accessory. To connect with a new device, you need to pair with it. You only need to do this once for each device—to connect again, just turn on the device.
1. Make sure the device you are pairing with is in discoverable mode.
Note: Refer to the guide that came with the device for details.
3. Touch Bluetooth to turn on and scan. If Bluetooth power is already on, touch Scan for devices.
4. Touch a device to connect.
5. If necessary, touch OK, or enter the device passkey (like 0000) to connect to the device. When the device is connected, the Bluetooth indicator appears in the status bar.
Note: Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.
Note: The Bluetooth Enhanced Audio setting is not recommended for older Bluetooth headsets as it may not deliver acceptable sound quality.

**Reconnect devices**
To automatically reconnect your phone with a paired device, simply turn on the device.
To manually reconnect your phone with a paired device, touch the device name in the Bluetooth devices list.

**Wi-Fi**

**Turn Wi-Fi power on or off**
Find it: Menu > Settings > Wireless & networks > Wi-Fi settings
Note: Your phone's Wi-Fi features and power levels are not allowed for outdoor operation in France. To avoid unlawful interference with radio signals, do not use the Wi-Fi features in France unless you are indoors.
Use a wireless network for fast Internet access and to download data.

**To find networks in your range:**
1. Touch Menu > Settings > Wireless & networks > Wi-Fi settings.
2. Touch Wi-Fi to turn on and scan. If Wi-Fi is already on, touch Menu > Scan. Your phone lists the networks it finds within range.
Tip: To see your phone's MAC address or other Wi-Fi details, touch Menu > Advanced.
3. Touch a network to connect.
4. If necessary, enter Network SSID, Security, and Wireless password,

**Disconnect devices**
To automatically disconnect your phone from a paired device, simply turn off the device.
To manually disconnect your phone from a paired device, touch the device name in the devices list, then touch Menu > Disconnect.

**Edit properties**
Touch Menu > Settings > Wireless & networks > Bluetooth settings > Device name. Enter a name and touch OK.

**Home, office, or hotspot**
Quick start: Wi-Fi
Find it: Menu > Settings > Wireless & networks > Wi-Fi settings
and touch Connect. When your phone is connected to the network, the wireless indicator appears in the status bar.

Tip: When you are in range and Wi-Fi is on, you will automatically reconnect to available networks you've connected to before.

Wi-Fi hotspot
Note: You need to subscribe to Wi-Fi hotspot service to use this feature. Contact your service provider. You can set up your phone as a Wi-Fi hotspot to provide portable, convenient internet access to other Wi-Fi enabled devices.

Setup
Note: Risks can be associated with connecting to the public internet. Your phone allows you to create a 3G Mobile Hotspot, which may be accessible by unauthorized users. It is highly recommended that you use a password other possible steps to protect your computer from unauthorized access.

To add security to your Wi-Fi hotspot:
Find it: Launcher icon > 3G Mobile Hotspot
> > Advanced > WiFi AP mode Settings Touch a setting to modify it:
- SSID—Enter a unique name for your hotspot and touch Next.
- Security—Select the type of security you want, and touch Save: WEP, WPA, or WPA2. Enter a unique password. Other users can access your Wi-Fi hotspot only if they enter the correct password.
Note: WEP is the weakest option because it is highly vulnerable to hacking. WPA2 is recommended by IEEE.
- Channel—Select a channel that minimizes potential interference. You may need to try different channels after your hotspot is active for a time.
Touch Save when the settings are complete.

Activate hotspot
Find it: Launcher icon > 3G Mobile Hotspot > Tap to start Mobile Hotspot service
When your Wi-Fi hotspot is active, other Wi-Fi enabled devices can connect by entering your hotspot's SSID, selecting a Security type, and entering the correct Wireless password.

Memory card & file management
- copy photos, music, and more to your phone
Memory card
Note: You need the memory card installed for some features on your phone, like Camera.

Delete or share files on your phone
Find it: Launcher icon > Files > Phone files
Touch a file or folder to open, then touch and hold a file to Delete or Share.

Remove or format your memory card
Note: Do not remove your memory card while your phone is using it or writing files on it.
Before you remove or format your memory card you need to unmount it.
Touch Menu > Settings > SD card & storage > Unmount SD card. To format your memory card, touch Format SD card.
Warning: All data on your memory card will be deleted.

USB connection
You can connect your phone to a computer with a USB cable.
Note: The first time you use a USB connection, your computer may indicate that drivers are being installed.
Follow any prompts you see to complete the installation. This may take a few minutes.

1. With a memory card inserted, and your phone showing the home screen, connect a XXXX micro USB data cable from your phone's micro USB port to a USB port on your computer. Your phone should show in the status bar.

Note: Make sure to connect the phone to a high power USB port. Typically, these are located directly on your computer.

2. On your phone, flick down the status bar to see the USB connection options.

3. Touch an option:
   - Windows Media Sync—
   - USB mass storage—Drag and drop files between your computer and memory card folders. When you're done, use “Safely Remove Hardware” before disconnecting the USB cable.

Note: You can't use the files on your memory card with your phone while it is connected to the computer.

- Charge Only—Use the connection only to charge a device.
Launcher icon > Alarm & Timer
To turn on an alarm, touch the check box. When an alarm sounds, slide to Dismiss to turn it off or Snooze to delay for five minutes.
To add an alarm, touch Menu > Add alarm, then enter alarm details.
To enable or disable an alarm, touch the check box.

Calendar
Launcher icon > Calendar
Your calendar events can be viewed in different ways:
Touch Menu > Agenda, Day, or Week. When you highlight an event, more details appear.

Add calendar events
From any view, touch Menu > More > New event. Enter the event start time and other details. You can even set a reminder so you don’t forget about the event. (When you set the reminder time to 0 minutes, it plays at the event start time.)
Tip: Reminders will play only if you’ve selected a notification ringtone (see “Ringtones” on page 37). When you finish entering event details, touch Save.

Manage calendar events
To edit an event, touch and hold it, then touch Edit event. When you’re done, touch Save. To delete an event, touch and hold it, then touch Delete event.
To go to today, touch Menu > Today.

Calculator
Your calculator has basic and advanced views. To change views, touch Menu > Advanced panel/Basics panel. To clear history, touch Menu > Clear history.

Management
Launcher icon

Wireless manager
Menu > Settings > Wireless & networks
Manage all your wireless connections: Wi-Fi®, Bluetooth®, airplane mode, & mobile networks (“Network” on page 50).

Airplane mode
Use airplane mode to turn all your wireless connections off—useful when flying. Press Power/Lock > Airplane mode.

Update my phone
Stay up to date with the latest software updates for your phone. You can check, download and install updates using your phone, or using your computer:
• Using your phone:
You may get an automatic notification of an available update on your phone. Simply follow the instructions to download and install.
To manually check for updates, touch Menu > Settings > About phone > System updates. Your phone downloads any updates over your mobile network. Remember, these updates can be quite large (25MB or more) and may not be available in all countries. If you don’t have an unlimited data plan, or mobile network updates are not available in your country, you can update using a computer.
• Using your computer:
On your computer, go to www.XXXX.com/myAndroid and check the “Software” links. If an update is available, simply follow the installation instructions.

Network
You should not need to change any network settings. Contact your service provider for help.
Touch Menu > Settings > Wireless & networks > Mobile networks to show...
options for roaming networks, network selection, operator selection, and access point names.

Security

help keep your phone safe

Quick start: Security

Find it: Menu > Settings > Location & security

You can set a pattern, PIN, or password to prevent unauthorized access to your device.

Screen lock

Note: You can make emergency calls on a locked phone (see "Emergency calls" on page 13). A locked phone still rings, but you need to unlock it to answer.

Lock the screen in the following ways:

* Press Power/Lock.
* Let the screen time out (don’t press anything).
* Switch the power off.

To unlock the screen, press Power/Lock. Then, drag to the right.

Lock pattern

To set the lock pattern, touch Menu > Settings > Location & security.

Follow the instructions to draw your lock pattern. When prompted, draw the pattern to unlock the phone.

Passcode lock

To set the passcode, touch Menu > Settings > Location & security.

Enter password, then confirm it.

When prompted, enter the password to unlock the phone.

Forgot your pattern or passcode?

If you forget your pattern or passcode, see your service provider.

Troubleshooting

we’re here to help

Crash recovery

In the unlikely event that your phone stops responding to touches and key presses, try a quick reset. Remove the back cover and battery ("Assemble & charge" on page 3), then replace and switch your phone on as usual.

Reset

To reset your phone to factory settings and erase all the data on your phone, touch Menu > Settings > Privacy > Factory data reset > Reset phone.

Warning: All data on your phone will be deleted. (Nothing on your memory card is deleted.)

Service & repairs

If you have questions or need assistance, go to http://www.XXXX.com/support, where you can select from a number of customer care options. You can also contact the XXXX Customer Support Center at XX-xxxx-xxxx (), X-xxxx-xxxx (TTY/TDD), or X-xxxx-xxx.
Safety, Regulatory & Legal

Battery Use & Safety

Important: Handle and store batteries properly to avoid injury or damage. Most battery issues arise from improper handling of batteries, and particularly from the continued use of damaged batteries.

**DON'Ts**
- Don't disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery.
- Don't let the mobile device or battery come in contact with water. Water can get into the mobile device's circuits, leading to corrosion. If the mobile device and/or battery get wet, have them checked by your service provider or contact XXX, even if they appear to be working properly.
- Don't allow the battery to touch metal objects. If metal objects, such as jewelry, stay in prolonged contact with the battery contact points, the battery could become very hot.
- Don't place your mobile device or battery near a heat source. Excessive heat can damage the mobile device or the battery. High temperatures can cause the battery to swell, leak, or malfunction. Therefore:
  - Don't dry a wet or damp battery with an appliance or heat source, such as a hair dryer or microwave oven.

**DOs**
- Do avoid leaving your mobile device in your car in high temperatures.
- Do avoid dropping the battery or mobile device.
  - Dropping these items, especially on a hard surface, can potentially cause damage.
- Do contact your service provider or XXX if your mobile device or battery has been damaged from dropping or high temperatures.

*Note: Always make sure that the battery compartment is closed and secure to avoid direct exposure of the battery to any of these conditions.*

Important: Use XXX Original products for quality assurance and safeguards. To aid consumers in identifying authentic XXX batteries from non-original or counterfeit batteries (that may not have adequate safety protection),

XXX provides holograms on its batteries. Consumers should confirm that any battery they purchase has a “XXX Original” hologram.

XXX recommends you always use XXX-branded batteries and chargers. XXX mobile devices are designed to work with XXX batteries.

If you see a message on your display such as Invalid Battery or Unable to Charge, take the following steps:
  - Remove the battery and inspect it to confirm that it has a “XXX Original” hologram;
  - If there is no hologram, the battery is not a XXX battery;
  - If there is a hologram, replace the battery and try charging it again;
  - If the message remains, contact a XXX authorized service center.

Important: XXX’s warranty does not cover damage to the mobile device caused by non-XXX batteries and/or chargers.

Warning: Use of a non-XXX battery or charger may present a risk of fire, explosion, leakage, or other hazard.

Proper and safe battery disposal and recycling: Proper battery disposal is not only important for safety, it benefits the environment. Consumers may recycle their used batteries in many retail or service provider locations. Additional information on proper disposal and recycling may be found on the Web:
- [www.XXX.com/recycling](http://www.XXX.com/recycling)
- [www.rbrc.org/call2recycle/](http://www.rbrc.org/call2recycle/) (in English only)

Disposal: Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center or national recycling organizations for more information on how to dispose of batteries.

Warning: Never dispose of batteries in a fire because they may explode.

Battery Charging

Notes for charging your product’s battery:
- When charging your battery, keep it near room temperature. Never expose batteries to temperatures below 0°C (32°F) or above 45°C (113°F) when
charging.
- New batteries are not fully charged.
- New batteries or batteries stored for a long time may take more time to charge.
- XXX batteries and charging systems have circuitry that protects the battery from damage from overcharging.

Driving Precautions
Responsible and safe driving is your primary responsibility when behind the wheel of a vehicle. Using a mobile device or accessory for a call or other application while driving may cause distraction. Using a mobile device or accessory may be prohibited or restricted in certain areas, always obey the laws and regulations on the use of these products.

While driving, NEVER:
- Type or read texts.
- Enter or review written data.
- Surf the web.
- Input navigation information.
- Perform any other functions that divert your attention from driving.

While driving, ALWAYS:
- Keep your eyes on the road.
- Use a handsfree device if available or required by law in your area.
- Enter destination information into a navigation device before driving.
- Use voice activated features (such as voice dial) and speaking features (such as audible directions), if available.
- Obey all local laws and regulations for the use of mobile devices and accessories in the vehicle.
- End your call or other task if you cannot concentrate on driving.

Remember to follow the “Smart Practices While Driving” in this guide and at www.XXX.com/callsmart (in English only).

Seizures/Blackouts
Some people may be susceptible to epileptic seizures or blackouts when exposed to flashing lights, such as when playing videos or games. These may occur even if a person has never had a previous seizure or blackout.

If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult with your physician before playing videos or games or enabling a flashing-lights feature (if available) on your mobile device.

Discontinue use and consult a physician if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. It is always a good idea to hold the screen away from your eyes, leave the lights on in the room, take a 15-minute break every hour, and stop use if you are tired.

Caution About High Volume Usage
Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the volume sound level, the less time is required before your hearing could be affected. To protect your hearing:
- Limit the amount of time you use headsets or headphones at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you can't hear people speaking near you.

If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears, or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked.

For more information about hearing, see our Web site at direct.XXX.com/helloXXX/nss/AcousticSafety.asp (in English only).

Repetitive Motion
When you repetitively perform actions such as pressing keys or entering finger-written characters, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. If you continue to have discomfort during or after such use, stop use and see a physician. [Nov0109]

Small Children
Keep your mobile device and its accessories away from small children.
These products are not toys and may be hazardous to small children. For example:
- A choking hazard may exist for small, detachable parts.
- Improper use could result in loud sounds, possibly causing hearing injury.
- Improperly handled batteries could overheat and cause a burn.

Glass Parts
Some parts of your mobile device may be made of glass. This glass could break if the product is dropped on a hard surface or receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by a qualified service center.

Operational Warnings
Obey all posted signs when using mobile devices in public areas.

Potentially Explosive Atmospheres
Areas with potentially explosive atmospheres are often, but not always, posted and can include fueling areas, such as below decks on boats, fuel or chemical transfer or storage facilities, or areas where the air contains chemicals or particles, such as grain dust, or metal powders.
When you are in such an area, turn off your mobile device, and do not remove, install, or charge batteries. In such areas, sparks can occur and cause an explosion or fire.

Symbol Key
Your battery, charger, or mobile device may contain symbols, defined as follows:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Important safety information follows.</td>
</tr>
<tr>
<td></td>
<td>Do not dispose of your battery or mobile device in a fire.</td>
</tr>
<tr>
<td></td>
<td>Your battery or mobile device may require recycling in accordance with local laws. Contact your local regulatory authorities for more information.</td>
</tr>
<tr>
<td></td>
<td>For indoor use only.</td>
</tr>
<tr>
<td></td>
<td>Listening at full volume to music or voice through a headset may damage your hearing.</td>
</tr>
</tbody>
</table>

Radio Frequency (RF) Energy
Exposure to RF Energy
Your mobile device contains a transmitter and receiver. When it is ON, it receives and transmits RF energy. When you communicate with your mobile device, the system handling your call controls the power level at which your mobile device
transmits. Your mobile device is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

RF Energy Operational Precautions

For optimal mobile device performance, and to be sure that human exposure to RF energy does not exceed the guidelines set forth in the relevant standards, always follow these instructions and precautions:

- When placing or receiving a phone call, hold your mobile device just like you would a landline phone.
- If you wear the mobile device on your body, always place the mobile device in a XXX-supplied or approved clip, holder, holster, case, or body harness. If you do not use a body-worn accessory supplied or approved by XXX, keep the mobile device and its antenna at least 2.5 centimeters (1 inch) from your body when transmitting.

- Using accessories not supplied or approved by XXX may cause your mobile device to exceed RF energy exposure guidelines. For a list of XXX-supplied or approved accessories, visit our Web site at: www.XXX.com.

RF Energy Interference/Compatibility

Nearly every electronic device is subject to RF energy interference from external sources if inadequately shielded, designed, or otherwise configured for RF energy compatibility. In some circumstances, your mobile device may cause interference with other devices.

Follow Instructions to Avoid Interference Problems

Turn off your mobile device in any location where posted notices instruct you to do so.

In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Implantable Medical Devices

If you have an implantable medical device, such as a pacemaker or defibrillator, consult your physician before using this mobile device. Persons with implantable medical devices should observe the following precautions:

- ALWAYS keep the mobile device more than 20 centimeters (8 inches) from the implantable medical device when the mobile device is turned ON.
- DO NOT carry the mobile device in the breast pocket.
- Use the ear opposite the implantable medical device to minimize the potential for interference.
- Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking place.

Read and follow the directions from the manufacturer of your implantable medical device. If you have any questions about using your mobile device with your implantable medical device, consult your healthcare provider.
Specific Absorption Rate (IEEE)

Your model wireless phone meets the governmental requirements for exposure to radio waves.

Your mobile device is a radio transmitter and receiver. It is designed and manufactured to not exceed limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission (FCC) of the U.S. Government and by the Canadian regulatory authorities. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed for the safety of all persons, regardless of age or health, and to account for any variations in measurements.

The exposure standard for mobile devices employs a unit of measurement known as the Specific Absorption Rate (SAR). The IEEE SAR limit set by the FCC and by the Canadian regulatory authorities is 1.6 watts per kilogram (W/kg), averaged over one gram of tissue. Tests for SAR are conducted using procedures accepted by the FCC and by Industry Canada with the mobile device transmitting at its highest certified power level in all tested frequencies. Although the SAR is determined at the highest certified power level, the actual SAR level of the mobile device while operating can be well below the maximum value. This is because the mobile device is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station, the lower the power output. Before a mobile device is available for sale to the public in the U.S. and Canada, it must be tested and certified to the FCC and Industry Canada that it does not exceed the limit established by each government for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) submitted to the FCC and available for review by Industry Canada. The highest SAR value for this mobile device when tested for use at the ear is 1.43 W/kg, and when worn on the body, as described in this guide, is 1.41 W/kg. Body-worn measurements can differ, depending upon available accessories and regulatory requirements. The SAR information includes the XXX testing protocol, assessment procedure, and measurement uncertainty range for this product.

While there may be differences between the SAR levels of various mobile devices and at various positions, they meet the governmental requirements for safe exposure. Please note that improvements to this product model could cause differences in the SAR value for later products; in all cases, products are designed to be within the guidelines.

Additional information on SAR can be found on the Cellular Telecommunications 
& Internet Association (CTIA) Web site: http://www.phonefacts.net
or the Canadian Wireless Telecommunications Association (CWTA) Web site: http://www.cwta.ca

Information from the World Health Organization

"Present scientific information does not indicate the need for any special precautions for the use of mobile phones. If you are concerned, you may want to limit your own or your children's RF exposure by limiting the length of calls or by using handsfree devices to keep mobile phones away from your head and body." Source: WHO Fact Sheet 193

Further information: http://www.who.int/peh-emf

FCC Notice to Users

The following statement applies to all products that have received FCC approval. Applicable products bear the FCC logo, and/or an FCC ID in the format FCC ID:xxxxxx on the product label.

XXX has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user's authority to operate the equipment. See 47 CFR Sec. 15.21.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. See 47 CFR Sec. 15.19(3).

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These
provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Industry Canada Notice to Users
Operation is subject to the following two conditions: (1) This device may not cause interference and (2) This device must accept any interference, including interference that may cause undesired operation of the device. See RSS-GEN 7.1.5. This Class B digital apparatus complies with Canadian ICES-003.

GPS & AGPS
Your mobile device can use Global Positioning System (GPS) signals for location-based applications. GPS uses satellites controlled by the U.S. government that are subject to changes implemented in accordance with the Department of Defense policy and the Federal Radio Navigation Plan. These changes may affect the performance of location technology on your mobile device.

Your mobile device can also use Assisted Global Positioning System (AGPS), which obtains information from the cellular network to improve GPS performance. AGPS uses your wireless service provider's network and therefore airtime, data charges, and/or additional charges may apply in accordance with your service plan. Contact your wireless service provider for details.

Your Location
Location-based information includes information that can be used to determine
the approximate location of a mobile device. Mobile devices which are connected
to a wireless network transmit location-based information. Devices enabled with
GPS or AGPS technology also transmit location-based information. Additionally,
if you use applications that require location-based information (e.g. driving
directions), such applications transmit location-based information. This
location-based information may be shared with third parties, including your
wireless service provider, applications providers, XXX, and other third parties
providing services.
Emergency Calls
When you make an emergency call, the cellular network may activate the AGPS
technology in your mobile device to tell the emergency responders your
approximate location.
AGPS has limitations and might not work in your area. Therefore:
• Always tell the emergency responder your location to the best of your ability;
and
• Remain on the phone for as long as the emergency responder instructs you.
Performance Tips
• Go outside and away from underground locations, covered vehicles,
structures with metal or concrete roofs, tall buildings, and foliage. Indoor
performance might improve if you move closer to windows, but some
window sun shielding films can block satellite signals.
• Move away from radios, entertainment equipment, and other electronic
devices.
Navigation
When using navigation features, note that mapping information, directions
and other navigational data may contain inaccurate or incomplete data. In some
countries, complete information may not be available. Therefore, you should
visually confirm that the navigational instructions are consistent with what you see. All
drivers should pay attention to road conditions, closures, traffic, and all other
factors that may impact driving. Always obey posted road signs.

Smart Practices While Driving
Check the laws and regulations on the use of mobile devices and their ac-
cessories in the areas where you drive. Always obey them. The use of these
devices may be prohibited or restricted in certain areas—for example, handsfree
use only may be required. Go to www.xxxro-
la.com/callsmart (in English only) for more information.
Your mobile device lets you communicate by voice and data—almost anywhere,
anytime, wherever wireless service is available and safe conditions allow.
When driving a car, driving is your first responsibility. If you choose to use
your mobile
device while driving, remember the following tips:
• Get to know your XXX mobile device and its features such as speed
dial, redial and voice dial. If available, these features help you to place your
call without taking your attention off the road.
• When available, use a handsfree device. If possible, add an additional layer
of convenience to your mobile device with one of the many XXX Original
handsfree accessories available today.
• Position your mobile device within easy reach. Be able to access your
mobile device without removing your eyes from the road. If you receive an
incoming call at an inconvenient time, if possible, let your voicemail answer it
for
you.
• Let the person you are speaking with know you are driving; if necessary,
suspend the call in heavy traffic or hazardous weather conditions. Rain, sleet,
snow, ice, and even heavy traffic can be hazardous.
• Do not take notes or look up phone numbers while driving. Jotting down a
“to do” list or going through your address book takes attention away from your
primary responsibility—driving safely.
• Dial sensibly and assess the traffic; if possible, place calls when your
car is not moving or before pulling into traffic. If you must make a call while
moving, dial only a few numbers, check the road and your mirrors, then
continue.
• Do not engage in stressful or emotional conversations that may be
distracting. Make people you are talking with aware you are driving and
suspend conversations that can divert your attention away from the road.
• Use your mobile device to call for help. Dial 911 or other local emergency
number in the case of fire, traffic accident, or medical emergencies
(whenever wireless phone service is available).
• Use your mobile device to help others in emergencies. If you see an auto
accident, crime in progress, or other serious emergency where lives are in
danger, call 911 or other local emergency number (whenever wireless phone
service is available), as you would want others to do for you.
• Call roadside assistance or a special non-emergency wireless
assistance number when necessary. If you see a broken-down vehicle posing
no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen, call roadside assistance or other special non-emergency wireless number (wherever wireless phone service is available).

Privacy & Data Security

XXX understands that privacy and data security are important to everyone. Because some features of your mobile device may affect your privacy or data security, please follow these recommendations to enhance protection of your information:

- Monitor access—Keep your mobile device with you and do not leave it where others may have unmonitored access. Lock your device's keypad where this feature is available.
- Keep software up to date—If XXX or a software/application vendor releases a patch or software fix for your mobile device that updates the device's security, install it as soon as possible.
- Secure Personal Information—Your mobile device can store personal information in various locations including your SIM card, memory card, and phone memory. Be sure to remove or clear all personal information before you recycle, return, or give away your device. You can also backup your personal data to transfer to a new device.

Note: For information on how to backup or wipe data from your mobile device, go to www.XXX.com/support.

- Online accounts—Some mobile devices provide a XXX online account (such as XXXBLUR). Go to your account for information on how to manage the account, and how to use security features such as remote wipe and device location (where available).
- Applications—Install third party applications from trusted sources only. Applications can have access to private information such as call data, location details and network resources.
- Location-based information—Location-based information includes information that can be used to determine the approximate location of a mobile device. Mobile phones which are connected to a wireless network transmit location-based information. Devices enabled with GPS or AGPS technology also transmit location-based information. Additionally, if you use applications that require location-based information (e.g. driving directions), such applications transmit location-based information. This location-based information may be shared with third parties, including your wireless service provider, applications providers, XXX, and other third parties providing services.
- Other information your device may transmit—Your device may also transmit testing and other diagnostic (including location-based) information, and other non-personal information to XXX or other third-party servers. This information is used to help improve products and services offered by XXX.

If you have further questions regarding how the use of your mobile device may impact your privacy or data security, please contact XXX at privacy@XXX.com or contact your service provider.

Use & Care

To care for your XXX mobile device, please observe the following:

- Liquids
  Don't expose your mobile device to water, rain, extreme humidity, sweat, or other liquids. If it does get wet, don't try to accelerate drying with the use of an oven or dryer, as this may damage the mobile device.

- Extreme heat or cold
  Avoid temperatures below 0°C/32°F or above 45°C/113°F.

- Microwaves
  Don't try to dry your mobile device in a microwave oven.

- Dust and dirt
  Don't expose your mobile device to dust, dirt, sand, food, or other inappropriate materials.
cleaning solutions
To clean your mobile device, use only a dry soft cloth. Don’t use alcohol or other cleaning solutions.

shock and vibration
Don’t drop your mobile device.

protection
To help protect your mobile device, always make sure that the battery compartment and any connector covers are closed and secure.

Recycling
Mobile Devices & Accessories
Please do not dispose of mobile devices or electrical accessories (such as chargers, headsets, or batteries) with your household waste, or in a fire. These items should be disposed of in accordance with the national collection and recycling schemes operated by your local or regional authority. Alternatively, you may return unwanted mobile devices and electrical accessories to any XXX Approved Service Center in your region. Details of XXX approved national recycling schemes, and further information on XXX recycling activities can be found at:
www.XXX.com/recycling

Packaging & Product Guides
Product packaging and product guides should only be disposed of in accordance with national collection and recycling requirements. Please contact your regional authorities for more details.
California Perchlorate Label
Some mobile phones use an internal, permanent backup battery on the printed circuit board that may contain very small amounts of perchlorate. In such cases, California law requires the following label:
Perchlorate Material – special handling may apply when the battery is recycled or disposed of. See www.dtsc.ca.gov/hazardouswaste/perchlorate

There is no special handling required by consumers.
Hearing Aid Compatibility with Mobile Phones
Some XXX phones are measured for compatibility with hearing aids. If the box for your particular model has “Rated for Hearing Aids” printed on it, the following explanation applies.
When some mobile phones are used near some hearing devices (hearing aids and cochlear implants), users may detect a buzzing, humming, or whining noise. Some hearing devices are more immune than others to this interference noise, and phones also vary in the amount of interference they generate.
The wireless telephone industry has developed ratings for some of their mobile phones, to assist hearing device users in finding phones that may be compatible with their hearing devices. Not all phones have been rated. Phones that are rated have the rating on their box or a label on the box. To maintain the published Hearing Aid Compatibility (HAC) rating for this mobile phone, use only the original equipment battery model.
The ratings are not guarantees. Results will vary depending on the user’s hearing device and hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your personal needs.

M-Ratings: Phones rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. M4 is the better/higher of the two ratings.
T-Ratings: Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device’s telecoil (“T Switch” or “Telephone Switch”) than unrated phones. T4 is the better/higher of the two ratings. (Note that not all hearing devices have telecoils in them.)
Hearing devices may also be measured for immunity to this type of interference. Your hearing device manufacturer or hearing health professional may help you find results for your hearing device. The more immune your hearing aid is, the less likely you are to experience interference noise from mobile phones.
Software Copyright Notice
XXX products may include copyrighted XXX and third-party software stored in semiconductor memories or other media. Laws in the United States and other countries preserve for XXX and third-party software providers certain exclusive rights for copyrighted software, such as the exclusive rights to distribute or reproduce the copyrighted software. Accordingly, any copyrighted software contained in XXX products may not be modified, reverse-engineered, distributed, or reproduced in any manner to the extent allowed by law. Furthermore, the purchase of XXX products shall not be deemed to grant either directly or by implication, estoppel, or otherwise, any license under the copyrights, patents, or patent applications of XXX or any third-party software provider, except for the normal, non-exclusive, royalty-free license to use that arises by operation of law in the sale of a product.

Content Copyright
The unauthorized copying of copyrighted materials is contrary to the provisions of the Copyright Laws of the United States and other countries. This device is intended solely for copying non-copyrighted materials, materials in which you own the copyright, or materials which you are authorized or legally permitted to copy. If you are uncertain about your right to copy any material, please contact your legal advisor.

Open Source Software Information
For instructions on how to obtain a copy of any source code being made publicly available by XXX related to software used in this XXX mobile device, you may send your request in writing to the address below. Please make sure that the request includes the model number and the software version number.

XXX MOBILITY, INC. OSS
Management
600 North US Hwy 45
Libertyville, IL 60048
USA
The XXX website opensource.XXX.com also contains information regarding XXX's use of open source.

XXX has created the opensource.XXX.com website to serve as a portal for interaction with the software community-at-large.

To view additional information regarding licenses, acknowledgments and required copyright notices for open source packages used in this XXX mobile device, please press Menu Key > Settings > About Phone > Legal & Safety > Open source licenses. In addition, this XXX device may include self-contained applications that present supplemental notices for open
source packages used in those applications.

Export Law Assurances

This product is controlled under the export regulations of the United States of America and Canada. The Governments of the United States of America and Canada may restrict the exportation or re-exportation of this product to certain destinations. For further information contact the U.S. Department of Commerce or the Canadian Department of Foreign Affairs and International Trade.

Product Registration

Online Product Registration:
www.XXX.com/us/productregistration

Product registration is an important step toward enjoying your new XXX product. Registering permits us to contact you for product or software updates and allows you to subscribe to updates on new products or special promotions. Registration is not required for warranty coverage. Please retain your original dated sales receipt for your records. For warranty service of your XXX Personal Communications Product you will need to provide a copy of your dated sales receipt to confirm warranty status.

Thank you for choosing a XXX product.

Service & Repairs

If you have questions or need assistance, we're here to help.
Go to www.XXX.com/repair (United States) or www.XXX.com/support (Canada), where you can select from a number of customer care options. You can also contact the XXX Customer Support Center at 1-800-734-5870 (United States - Android products), 1-800-331-6456 (United States - all other products), 1-888-390-6456 (TTY/TDD United States for hearing impaired - all products), or 1-800-461-4575 (Canada - all products).

XXX Limited Warranty for the United States and Canada

What Does this Warranty Cover?

Subject to the exclusions contained below, XXX Mobility, Inc. warrants its mobile telephones ("Products"), XXX-branded or certified accessories sold for use with these Products ("Accessories"), and XXX software contained on CD-ROMs or other tangible media and sold for use with these Products ("Software") to be free from defects in materials and workmanship under normal consumer usage for the period(s) outlined below. This limited warranty is a consumer's exclusive remedy, and applies as follows to new XXX Products, Accessories, and Software purchased by consumers in the United States or Canada, which are accompanied by this written warranty:
Who is Covered?
This warranty extends only to the first consumer purchaser, and is not transferable.

What Will XXX Do?
XXX, at its option, will at no charge repair, replace or refund the purchase price of any Products, Accessories or Software that does not conform to this warranty. We may use functionally equivalent reconditioned/refurbished/pre-owned or new Products, Accessories or parts. No data, software or applications added to your Product, Accessory or Software, including but not limited to personal contacts, games and ringer tones, will be reinstalled. To avoid losing such data, software, and applications, please create a back up prior to requesting service.

How to Obtain Warranty Service or Other Information

<table>
<thead>
<tr>
<th>USA</th>
<th>Android Products: X-XXX-XXX-XXXX</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>All Other Products, Accessories, and Software: X-XXX-XXX-XXXX</td>
</tr>
<tr>
<td>Canada</td>
