### Open the rear cover

### Open the back cover as per the arrows direction.

(Hint: be careful not to injure your fingers!)

### Installing the SIM/SD Card and Battery

Switch off your phone before installing or replacing the battery, SIM, or memory card.

1. Remove the back cover.
2. Hold the SIM card with the cut corner oriented as shown and slip it into the card holder.
3. Insert the memory card into the card slot with the metal contacts facing down until it inserts to the right position.
4. Insert the battery by aligning the gold contacts on the battery with the gold contacts in the battery compartment. Gently push down on the battery until it clicks into place.
5. Press the cover gently back into place until you hear a click.

Inserting Sim card & SD card:

Inserting the Battery:

Rotatable camera

Rear touch

No all models have this function, please check if the model you got is supporting this function! (Tap **System settings** > **Rear touch** to open this function.)

Setting Up Your Phone for the First Time

When you first power on your phone after you purchase it or reset it to factory settings (see chapter *Sorting out Your Phone Settings – Privacy: Reset to Factory Settings*), you need to do some settings before using it.

Tap **Menu Key** in the standby mode, then select **System settings** > **Language & input** > **Language** to change the language you want to use, if needed.

Getting Around Your Phone

Touch Control

You can use finger gestures to control your phone. The controls on your touch-screen change dynamically depending on the tasks you're performing.

1. Tap the buttons, icons, or applications to select items or to open applications.
2. Flick the screen to scroll up, down, left or right.
3. Point, drag and drop to move particular items across the screen.
4. Double-tap the screen to zoom in/out an image.

**NOTE:** You can view the phone screen in portrait or landscape orientation simply by holding it upright or turning it on its side. Not all screens are viewable in landscape.

Home Screen

In the Home screen, besides the shortcut icon is displayed, you can also set your own wallpaper, add the widgets or application shortcuts you need, or remove them as you like.

Status and Notification Icons

Your phone will tell you exactly what's going on by showing you simple icons. Here's what they mean.

	USB connected		Missed call
	Airplane mode		Signal strength
	Battery charge		New message
	Meeting mode		Wi-Fi network

	Alarm set		Earphone insert
	Silent mode		Signal searching
	Bluetooth icon		USB debugging connected
	Data Conn off		New Wi-Fi network detected

Open an Application

Tap , then select an application icon to open.

Open Recently-Used Applications

Hold Home Key from any screen. The phone will display the applications you used recently, tap the application you want to open.

Phone Calls

Making Calls

There are many ways to make a call with your phone. And they're all easy to do.

Calling from the Phone

1. Press **Home key** > tap > **Phone** or tap on the Home Screen.
2. Enter the phone number using the on-screen keypad.  
Tap to delete wrong digits.
3. Tap the dial icon.

**TIPS:** To make international calls, hold to enter the "+".

Calling from Your Contacts

1. Press Home key > tap > **People**.
2. Slide your finger to scroll the contacts list and tap the contact name you want to call, when the contact details appear, click on the number, choose the SIM card to dial.

You can search for a contact by tapping on the screen.

### Calling from Your Call Log

1. If you have opened the dialer, touch the call log tab to open the call records, respectively touch all, dialed, received, missed call button to display a list of the corresponding call records.
2. Tap dial icon on the right side of the current record.

### Calling from a Text Message

If a text message contains a phone number that you want to call, you can make the call while viewing the text message.

1. Press **Home key** > tap  > **Messaging**.
2. Tap the conversation and then find the message that contains the phone number you need.
3. Tap the message, the phone will list the options.

### Receiving Calls

#### Answering a Call

Tap the  icon, drag to right to answer the call.

#### Rejecting a Call

Tap the  icon, drag to left to reject the call.

#### Ending a Call

Tap  to finish a call.

### Contacts

You can add contacts on your phone and synchronize them with the contacts in your Google account or other accounts that support contact syncing.

To see your contacts, Press **Home key** > tap  > **People**.

#### Creating a Contact

1. Tap  from the Contacts Screen.
2. Choose the storage location to save the contact.
3. Enter the contact name, phone numbers, and other information, and then save it.

#### Searching for a Contact

1. Tap  on the Contacts Screen.
  2. Input the contact name you want to search for.
- The contacts matched will be listed.

### Messaging

Your SMS (text message) and MMS (multimedia messaging service) are combined into one menu in **Home Key** >  > **Messaging**.

#### Getting Connected to the Internet

Your phone's impressive networking capabilities allow you to access the Internet or your corporate network with ease.

You can use default connection settings to connect to the Internet via your mobile network, or Wi-Fi.

The network connection can be enabled /disabled manually. Just press

**Home key** > tap  > **Settings** > **SIM management** > **Data connection**.

#### Adding a New Network Connection

To get connected via your mobile network you need a data plan with your service provider. Also if the networks settings are not pre-configured on your phone, please contact your provider to get the necessary information.

You can view settings by pressing **Home key** > tap  > **Settings** > **More** ( **WIRELESS & NETWORKS** ) > **Mobile networks** > **Access Point Names**.

#### Turning On Wi-Fi

Wi-Fi provides wireless Internet access over distances of up to about 300 feet.

1. Press **Home key** > tap  > **Settings**.
2. Click  next to the Wi-Fi menu to turn it on, click  you can turn off the Wi-Fi function.

#### Connecting to a Wi-Fi Network

1. Press **Home key** > tap  > **Settings** > **Wi-Fi**.

When the Wi-Fi is on, the Wi-Fi access points, or "hotspots", that your phone has detected are displayed with their names and security settings.

2. Tap an access point to connect to it.

**NOTE:** If security features are implemented, you'll need to enter a password.

#### Checking the Wi-Fi Network Status

You can check the Wi-Fi network by looking at the  icon in the status bar.

## Enabling the Wi-Fi Hotspot

You can use the phone as a portable WLAN router, to share your phone's internet connection with one or more PC or other devices.

### NOTE:

- When the portable Wi-Fi hotspot function is enabled, you can't use your phone's applications to access the internet via its Wi-Fi connection.

- You can configure the Wi-Fi hotspot as follows:

- Press **Home Key** > tap **Menu Key** > **System settings** > **More (WIRELESS & NETWORKS)**, click  next to the Wi-Fi hotspot to turn it on.
- Tap **Wi-Fi hotspot** to set up & manage portable Wi-Fi hotspot. Now you can find the hotspot on other devices and connect to it.

## Disabling the Wi-Fi Hotspot

Press **Home Key** > tap **Menu Key** > **System settings** > **More (WIRELESS & NETWORKS)** > **Tethering & portable hotspot** and click  next to the Wi-Fi hotspot to turn it off.

## Browsing the Internet

You can use your phone to get on the Internet via a network or Wi-Fi connection.

Press **Home Key** > tap  > **Browser**.

There are different ways to open web pages:

- Tap the address bar to enter the website you want to browse. Then tap  on the touch keyboard.
- Tap **Menu Key** > **Bookmarks/History** and select a bookmark or history to open.

## Taking Pictures with Your Camera

Your phone has camera function. Open it by pressing **Home Key** > tap  > **Camera**.

Tap  to take a picture. To view it, just tap the picture in the right corner of the screen.

## Playing Your Music

You can play digital audio files from your phone's memory card in **Music**. Before playing music, you need to copy music files to memory card location.

- Press **Home Key** > tap  > **Music** to open the Music Screen.
- Click the Music category label > music files to start playing.
- Adjust the volume with **Volume Keys**.

## Opening Your Gallery

Press **Home Key** > tap  > **Gallery**. You can use **Gallery** to view pictures and play videos. You can also do some basic editing of your pictures – such as setting them as wallpaper or contact photo, and sharing with friends.

## Playing Your Videos

Press **Home Key** > tap  > **Video Player**. You can use Video Player to play videos on the phone and memory card.

## Sorting out Your Phone Settings

### Setting Date and Time

- Press **Home key** > tap  > **Settings** > **Date & time**.
- Tap **Automatic Date & time** and select **Off** if you want to set the time and date by yourself.
- Set date, time and change the other options.

### Display Settings

Press **Home key** > tap  > **Settings** > **Display**, you can adjust the display settings as you like:

- **Brightness**: Adjust brightness of the screen.
- **Auto-rotate screen**: Rotate the screen display as you rotate the phone.
- **Screen timeout**: Set the delay for the screen to automatically turn off.
- **Wallpaper**: Set the wallpaper of the phone
- **Theme**: Set the theme of the phone.

### Audio Profiles Settings

By pressing **Home Key** > tap  > **Settings** > **Audio profiles**. When you choose the General mode, you can adjust the sound settings, such as ringtones, volume and vibrate.

### Language Settings

You can change the language of your phone system in two simple steps.

- Press **Home key** > tap  > **Settings** > **Language & input** > **Language**.
- Select a language from the list given.

## Security Settings

Here's how to protect your phone and SIM card from unauthorized use.

## Protecting Your Phone with a Pattern

**Creating Your Screen Unlock Pattern** Press **Home key** > tap  > **Settings** > **Security** > **Screen lock** > **Pattern**.

- Read the instructions on-screen and watch the example pattern, and select **Next**.
- Drag your finger to connect at least four dots, draw the pattern.
- Touch **Continue**.
- Redraw your pattern to confirm.

## Unlocking the Screen with Your Pattern

- Press **Power Key** to wake up the screen.
- Draw the pattern you set to unlock the screen.

If you make a mistake, your phone will ask you to try again.

## Applications

Press **Home Key** > tap  > **Settings** > **Apps**.

## Installing an Application

You can install a non-Marketing application if you have allowed the installation of it. Make sure that you select an application developed for your device and processor type before installing it.

- Copy the application file to the SD card and install the card on your phone.
- Press **Home key** > tap  > **File Manager**, and open the folder where the application file is.
- Tap the file to start installation.
- Read the installation instructions that come with the application and follow it to complete the setup.

**NOTE:** please take your handset as the standard.

## Removing an Application

- Press **Home key** > tap  > **Settings** > **Apps**.
- Select the application you want to delete.
- Tap **Uninstall** and **OK** to confirm.

## Moving an Application

You can move the applications downloaded or installed on your phone to the memory card when the phone memory is full. You can also move applications to your phone if the memory card is getting full.

**NOTE:** Not all applications can be move to your phone or memory card.

- Press **Home key** > tap  > **Settings** > **Apps**.
- Click the application you want to move on the **Downloaded** tab.
