3.1 Bluetooth setting

3.2 Restore factory setting
The phone will be restored factory default setting after select this function. But it needs to insert the password, default password is “1122”

3.3 Audio player
The inner music player can play music, and set the music to be the ring. But attention: The MP3 files only can be played after saved to the Root directory “my music”

Choosing the suitable volume when listening the music as it may harm your hearing in continued high volume.

3.4 FM radio
Using the phone to listen the broadcast, please insert the earphone to the usb port. The earphone line is same as the antenna of radio, so please let it hanging freely

3.5 Apk install for smart phone
1: APK must be installed first in your Smart Phone, then the Sync service can work.
Scan QC code in watch to get “APK”, download this APK, install it in the phone.

Then you will enter the below interface:

Then you can click to choose open and closed about the push notification service to the watch. ICON means “Open”.

3: Click “Accessibility settings” To activate the bluetooth notice. “ON” means activated state.

PS: Looking phone, Sedentary remind, Pedometer, Sleep monitor use the same sensor, so can not use them together at the same time.
Before use the camera to take photo or video, please insert TF card in the watch.
4. Click “Notification APP”, can choose which APP notifications need to push to the watch:
