Usage Notice

Do:
- Turn off and unplug the power before cleaning the product.
- Use a soft dry cloth with mild detergent to clean the display housing.
- Unplug the power if the product is not used for a long period of time.

Do not:
- Block the ventilation opening.
- Use abrasive cleaners, waxes or solvents to clean the unit.
- Use under the following conditions:
  - In extremely hot, cold or humid environments.
  - In areas susceptible to excessive dust and dirt.
  - Near any appliance generating a strong magnetic field.
  - In direct sunlight.

Cleaning discs
- Some problems (frozen picture, sound disruptions, picture distortions) occur because the disc inside the player is dirty.
- To avoid these problems, discs should be cleaned on a regular basis.
- To clean a disc, use a micro fibre cleaning cloth and wipe the disc from the center to the edge in a straight line.

Power On/Off

Connect one end of the AC adapter to DVD projector and the other end to a power socket. Then turn the power/volume wheel as indicated to turn on power. To turn off the power, turn the wheel in the reverse direction until you hear a click sound.

Adjusting Distance and Focus

Appropriate place and distance:
1. Place DVD projector on a flat and stable surface, such as on the top of a table.
2. Adjust the distance between DVD projector and the projected screen. The recommended distance is between 50cm-200cm.

Adjust focus:
1. When the image is projected on a wall or screen, you can fine-tune the clarity of the image by adjusting the focus bar.
2. When the projection distance is short, push the focus bar upward; when the projection distance is extended, push the focus bar downward to adjust the image.
DVD Operation

Playing DVD Disc

1. Uplift the cover to open it, and then place a DVD into the tray.
2. Close the cover and the DVD will automatically play.
3. If the DVD does not automatically start, you can press the Play(△) button to start playing.

Menu selection:
Press and hold down the Play (△) / Stop (●) button for 2–3 seconds to shift between the menu items on the screen.

Pause/Resume playing:
To pause playing, press the Play(△) button. To resume playing, press the Play button again.

Fast forward/rewind:
Press the ◆ button to fast forward.
Press the ▴ button to fast forward.
The speed changes in sequence: 2X → 4X → 8X → 16X. To switch to normal speed, press the Play(△) button.

Stop playing:
To stop playing, press the Stop (●) button.

Adjust sound:
Turn the volume wheel to adjust sound volume

Enabling Subtitle

1. While playing, press and hold down the ◆ button for 2–3 seconds and the subtitle will show up.
2. If the DVD provides more than one set of subtitle, you may need to repeat step 1 for several times to switch to your desired subtitle.

Alterting Audio Language

1. While playing, press and hold down the ◆ button for 2–3 seconds to switch to a different audio language.
2. If the DVD provides several audio languages, you may need to repeat step 1 for several times to switch to your desired audio language.

Region codes

This DVD player is designed to support the Region Management System. Check the regional code number (see table below), and make sure the player is able to play the disc in your region.

Note:
If you are having trouble playing a certain disc, remove the disc and try a different one. Improper formatted disc will not play on this DVD player.
