

INSTRUCTION:

This high-quality laser pointer incorporates the latest technology in laser optics and Microelectronics. Use your laser pointer to point at any desired targets, project screens, or video monitors, presentations, museum and tour guides, point at the stars, and inspection. The Laser Pointer carries a limited warranty 30days, if a failure occurs, Do NOT try to open the laser unit. To do so will void the warranty.

USE:

Press the button switch to turn the laser ON.

Release the switch to turn it OFF.

Insert batteries:

Unscrew the end cap, insert batteries with positive end upward and screw the end cap.

Use alkaline batteries.

Specifications:

- Batteries: 2x1.5Volt[AAA]
Output Mode: Constant Wave
Laser Wave Length: 532nm 405nm 650nm
Output power: <1mW <5mW <10mW <20mW <30mW
 <50mW <100mW <150mW <200mW <250mW
 <300mW Other _____ mW

OPERATING TEMP RANGE: 15 ~ 30

STORAGE TEMP RANGE: -10 ~ +50

Safety Precaution:

DO NOT LOOK INTO THE APERTURE OF THE LASER BEAM.

Laser radiation is potentially harmful! Do not directly aim into eye.

KEEP OUT OF REACH OF CHILDREN!
