## **SAFETY PRECAUTIONS:**

- This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.
- This is a Class A product. In a domestic environment, this product may cause radio interference in which case the user may be required to take adequate measures.
- 3. Do not gaze forward the lens when the machine is working. It will damage your eyes, especially for children.
- 4. The lighting flash and arrowhead wihin the triangle is a warming sign alerting you of dangerous voltage inside the product.
- 5. To remind the user of important operating and maintenance instructions attached.
- 6. To reduce the possibility of the fire, electric shock or damage of the product, do not expose the machine to rain and damp no objects filled with liquids. Do not open the cover of the product because of the risk of electric shock. Repair work must be undertaken by qualified personnel.
- If the unit is moved from a cold to warm environment condensation may develop
  on the lens laser. To ensure correct operation switch the unit off and leave it for
  one hour before using.
- 8. Do not use damaged or loose plug to avoid electricity shock or fire.
- 9. It is not allowed to touch the high-heat lamp area at the rear of the machine.
- 10. About the remote control battery: The remote control battery should be foxed correctly, or it will damage the remote control. Keep the remote control out of the reach of children.

The LED projector integrates high-performance optical projection and a user-friendly design to deliver high reliability and ease of use.

# **SPECIFICATION**

Display Technology	5.8" LCD display
Resolution	1280*768
Focus changing	Hand control
LED Light Source	150W
Aspect Ratio	4:3/16:9
Projector Way	Front / Rear / ceiling mount
Brightness	2500 Lumens
Contrast Ratio	3000:1
Color	Full real color (1.67 million)
LED life	30000Hours
Source Input	VGA/USBx2(SD)/MMC/AV/HDMIx2/TV/S-VIDEO
Source Output	Mini stereo audio output
Speaker	5.0W / 8Ω*2
TV Compatibility	Global system
Menu Language	Chinese / English
Keystone Correction	±15·
Power Supply	AC110-240V /50-60Hz
Noise	Less than 40db
Picture Size	37~200inch
Power Consumption	180W in working / 0.3W in Standby mode
Operating Temperature	0℃~40℃
Operating Humidity	<80%
Start Time	About 3 seconds
Size	320*268*105mm
Net Weight	3.6kg

aligned properly.	well as the height of the unit if necessary.
The lens cap is still attached to the lens.	Remove the lens cap.

#### REMOTE CONTROL DOES NOT WORK

Possible cause	Solution
The battery is out of power	Replace the battery with a new one.
There is an obstacle between the remote control and the projector.	Remove the obstacle.
You are too far away from the projector.	Stand within 6 meters (19.5 feet) of the projector.

### Maintenance

# Care of the projector

Your projector needs little maintenance. The only thing you need to do a regular basis is to keep the lens clean.

# Cleaning the lens

Clean the lens whenever you notice dirt or dust on the surface.

Use a canister of compressed air to remove dust.

If there is dirt or smears, use lens-cleaning paper or a soft cloth with lens cleaner and gently wipe the lens surface.

Never rub the lens with abrasive materials.

## Cleaning the projector case

Before you clean the case, turn the projector off and unplug the power cord.

To remove dirt or dust, wipe the case with the cleaning cloth.

To remove stubborn dirt or stains, moisten a soft cloth with water and a neutral PH detergent. Then wipe the case.

Never use wax, alcohol, benzene, thinner or other chemical detergents. These can damage the case

# Storing the projector

If you need to store the projector for an extended time, please follow the instructions below:

Make sure the temperature and humidity of the storage area was within the recommended range for the projector.

Retract the adjuster feet.

Remove the batteries from the control.

Pack the projector in its original or equivalent.

# Transporting the projector

It is recommended that you ship the projector with its original packing or equivalent.

When you carry the projector yourself, please use the original box or provided soft carry case.
