

# LED WATCH INSTRUCTION MANUAL

Power: The watch works with two CR2032 batteries. Change the batteries when the luminosity is too weak.

Function: 1) 12hr or 24hr mode  
2) Day and date  
3) Year  
4) PM indicator (only in 12hr mode)

Press the A button repeatedly to move through the watch modes.

- ☑ Clock Icon Represents the time in either 12hr or 24hr mode.
- ☑ Sun Icon. Represents the day/date.
- ☑ Dollar Icon. Represents the year. Making more and more money after year.
- ☑ Martini Icon. Represent PM. Drinking is usually done at night.
- ☑ Read the watch: Press A button. Clock icon lights (when Martini icon also lights, it means PM). The watch has four lines led: the left two lines indicates hours, and the right two lines indicates day, and the right two lines indicates year.

Read day/date: Press A button, when Sun icon lights, then the watch indicates year.

How to set the watch: Press A button, when Dollar icon lights, then the watch indicates date.

The watch should be set in order blow. The watch has a built in calendar to set weekday automatically, so it is required to set the year/month before the day/date. Set the time setting the time.

- Press A button, ☑ icon lights, then press B button to begin setting the time.
- The hours will be flashing. Press A button to change hours, then press B button to accept.
- Now the minutes will flashing. Press A button to change minutes, then press B button to accept.
- Lastly, select 12hr or 24hr mode. Press A button to change and press B button to accept.

Set the year/month: Press A button, ☑ icon lights, then press B button to begin setting the year/month.

Press A button, ☑ icon lights, then press B button to change and press B button to accept.

- Now the year LED will be flashing. Press A button to change and press B button to accept.
- Now the month LED will be flashing. (01=Jan, 02=Feb, etc.) Press A button to change and press B button to accept.

Set date: Press A button, ☑ icon lights, then press B button to begin set the date.

- Now the watch two right lines will be flashing. Press A button to change and press B button to accept.
- Now the month LED will be flashing. (1=Sunday, 2=Monday, etc.)

Once this is set the watch will know how many days are in the month and what day of the week it should be.
