Precautions

In order to avoid accidents, please read the User's manual carefully before operations.

1. Please charge the recorder frequently even when you do not use it for a long time.
2. Please keep it away from the high temperature, moisture or dusty places.
3. The recorder should be handled with great care. Do not drop or crash it.
4. Please do not turn off the power during recording and playing. Otherwise it may cause file corruption or information loss.
5. Please backup data regularly on your computer to avoid information loss which may be caused by wrong operations or machine breakdown.
6. We're not responsible for the failures of recording which caused by wrong operations or machine breakdown.
7. Please do not disassemble and repair the recorder by yourself. Please backup your data before sending it for repair service. We're not responsible for the data loss which caused by maintenance or other reasons.

8. We have nothing to do with the dispute over the misbehavior such as record voice without permission . We're not responsible for that.
9. We will endeavor to ensure the integrity of the User's manual. But if the contents of the User's manual do not match for the product itself completely due to technique or production batches, please take the product as standard.
