SAFETY INFORMATION

Please read the manual carefully before using this DVD projector, and keep it safe for future reference.

All contents subject to change without notice

**WARNING**

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment. The shielded interface cable recommended in this manual must be used with this equipment in order to comply with the limits for a digital device pursuant to Subpart B of Part 15 of FCC Rules.

**IMPORTANT SAFETY INSTRUCTIONS**

- **WARNING**
  - This is a Class A product. In a domestic environment, this product may cause radio-interference in which case the user may be required to take adequate measures.

- **WARNING**
  - In order to prevent the risk of fire or electric shock, do not expose the machine to rain or any moisture. Do not open the case of the unit because of the risk of electric shock. Repair work must be undertaken by qualified personnel.

- **CAUTION**
  - If the unit is moved from a cold to warm environment condensation may develop on the lens of the laser. To ensure correct operation switch the unit off and leave it for one hour before using.

**CAUTION**

- Warning: To alert the user to dangerous voltage.
- Caution: To remind the user of important operating and maintenance instructions attached.

**CAUTION**

- In order to prevent the risk of fire or electric shock, do not expose the machine to rain or any moisture. Do not open the case of the unit because of the risk of electric shock. Repair work must be undertaken by qualified personnel.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8) Do not install near any heat sources such as radiators, heat registers, Stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart / apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15) Operate the unit on AC 200–240 / 110–240 V, 50/60 Hz to DC 12V power adaptor.
16) Should any liquid or solid object fall into the cabinet, unplug the unit and have it checked by qualified personnel before operating it further.
17) Unplug the unit from the wall outlet or set the power switch to OFF position if it is not to be used for several days.
18) To disconnect the cord, pull it out by the plug. Never pull the cord itself.
19) The wall outlet should be near the unit and easily accessible.
20) The unit is not disconnected from the AC power source (mains) as long as it is connected to the wall outlet and the power switch is set to the OFF position.
21) Do not look into the lens while the lamp is on.
22) Do not place your hand or objects near the ventilation holes. The air coming out is hot.
23) Avoid using an extension cord with a low voltage limit, as it may cause short-circuiting and physical injury.
24) Do not catch your finger between the unit and surface of the floor when moving the projector installed on the floor.
INTRODUCTION

Projector features:

The LED projector integrates high-performance optical engine projection and a user-friendly design to deliver high reliability and ease of use. The projector offers the following features:

[Model]: GD-300PG
[Function]: LCOS Projector with DVD Playback/card reader
[Projection method]: Front/Top/Ceiling
[Maximum resolution]: 1024x768 pixel
[Zoom ratio]: Fixed zoom
[Focus]: Manual focus
[Brightness]: 200Lumens Maximum
[Screen size]: 21” - 120”
[Aspect ratios]: 4:3, 16:9
[Operation Temp.]: 10 - 40 degree
[Acoustic]: <40dB
[Full compatibility with disc]: DivX / MPEG4 / DVD / VCD / SVCD / CD / CD-R / DVD MP3 / DVDRW
Quick cooling time
Portable multi-function unit
Multi-language on-screen menus
Built-in speakers for stereo audio(2W x 2PCS)
Built-in SD/MMC/MS cards reader, USB host module
Powerful AV function to provide high quality AV picture
External Power Adapter with Universal AC Voltage input 110~240V, DC12V output

SHIPPING CONTENTS

The projector is shipped with the cables required for connection to a TV and video output devices. Carefully unpack and verify that you have all of the items shown below. If any of these items are missing, please contact your place of purchase.

The supplied accessories will be suitable for your region, and may differ from those illustrated.

LCOS Projector  User's manual  DC adapter
Remote control  A/V Cable
**PROJECTOR EXTERIOR VIEW**

1. Left / upper side
   - Lens
   - Projection Lens & Focus adjuster
   - IR remote sensor
   - Speaker (Left)
   - Air exhaust vent (Left)

2. Right / upper side
   - Disc door button
   - Air intake vent (right)
   - HDMI in port
   - USB port
   - DC input jack
   - SD/MMC/MS card reader
   - Earphone port
   - Audio Line-in jack
   - VGA in Jack
   - Coaxial jack
   - S-Video in jack
   - A/V out jack
   - A/V in jack
   - Speaker right
   - Cable TV in jack

3. Front side
   - Foot

**CONTROLS AND FUNCTIONS**

1. Control panel
   - Volume Up / Down button
     - Change channels (TV Mode Only)
   - Power button: Press to turn Off/On the device.
   - TV Menu button: Press to enter the TV Menu.
   - Source button to change Source.

2. Remote Controller Layout & Functions
   - Up / Down / Left / Right button (OSD control only)
   - Setup button to DVD Menu
   - 4:3 / 16:9 change button
   - Stop button
   - Next / Pre, Forward/backward
POSITIONING YOUR PROJECTOR

Choosing a location
Your projector is designed to be installed in two possible installation locations:

1. Floor in front of screen.
Select this location with the projector placed near the floor in front of the screen. This is the most common way to position the projector for quick setup and portability.

2. Ceiling
Select this location with the projector suspended upside-down from the ceiling in front of the screen.

Your room layout or personal preference will dictate which installation location you select.
Take into consideration the size and position of your screen, the location of a suitable power outlet, as well as the location and distance between the projector and the rest of your equipment.
CABLE CONNECTION

Cable TV Connection

1. Use a supplied antenna cable to connect the TV signal to the Projector's TV Cable terminal.
2. Connect the adaptor to Projector and press the POWER key to Turn ON the Projector.
3. Press the Source button on the top panel or Remote control to select TV Item.
4. For different Area the signal is not same, so first connect Cable TV must to Search the Channel firstly and setting the TV System (TV Manual as next page).

Connecting a PC

1. Use a D-SUB(VGA) cable to connect the PC's D-SUB(VGA) output jack to the Projector VGA input jack. Use an audio cable to connect the Projector audio Line-in jack.
2. Connect the adaptor to Projector and press the POWER key to Turn ON the Projector.
3. Press the Source button on the top panel or Remote control to select VGA Item.
4. Please connect the VGA cable, Turn On the PC and set the display to VGA type firstly.

Connecting an A/V Device with Composite Connector

1. Use a composite cable to connect the external A/V device's composite Video/Audio jacks to the Projector's Video/Audio In jacks.
2. Connect all AC power sources, before turning on the power switch of the projector or other connected equipment.
3. Press the POWER button on the Top panel or remote control to turn on the Projector.
4. To view the A/V device's with component input, press the SOURCE button on the top key or remote control to select AV item (Source Menu as above AV item).
5. Not all A/V devices have the ability to connect to a Projector. Please check your A/V devices user guide for compatibility.
CABLE CONNECTION

**S-Video in Connection**

1. Use a S-Video cable to connect the external S-Video out jack to the Projector's S-Video input jack.
2. Connect the adaptor to Projector and press the POWER key to Turn ON the Projector.
3. Press the Source button on the top panel or Remote control to select S-VIDEO item.
4. Please connecting the S-Video cable and turn on the external device firstly.

**Connecting HDMI Source**

1. Use a HDMI cable to connect the external HDMI output jack to the Projector HDMI input jack.
2. Connect the adaptor to Projector and press the POWER key to Turn ON the Projector.
3. Press the Source button on the top panel or Remote control to select HDMI item.
4. Please connecting the HDMI cable and turn on the external device firstly.

**Audio/Video out Connection**

1. Use a composite cable to connect the external TV's composite Video/Audio-in jacks to the Projector's Video/Audio out jacks.
2. Press the Source button on the top panel or remote control to select DVD item.
3. To view the A/V device's with component input, and turn on the TV to change A/V-in item. (Source Menu as above DVD item).
4. This Projector Audio/Video out just support DVD Model. Not all A/V devices have the ability to connect to a Projector. Please check your A/V devices user guide for compatibility.

**USB, Card Reader and Earphone Connection**

1. Use a SD/MMC/MS Card or USB to in set the jack, Earphone to the earphone jack.
2. Connect the adaptor to Projector and press the POWER key to Turn ON the Projector.
3. Press the "USB or Card" or Remote control to select "USB or Card" item.
4. Please select the DVD Model before inter the USB or the Card, this Projector just at DVD model can support the USB and Card.
CABLE CONNECTION

Coaxial Digital Audio out Connection

1. Use a Coaxial cable to connect the external Audio Receiver Coaxial in jack to the Projector's Coaxial out jack.

2. Connect all AC power sources, before turning on the power switch of the projector or other connected equipment.

3. Press the POWER button on the Top panel or remote control to turn on the Projector.

4. Press the SOURCE button on the top key or remote control to select DVD item and select SPDIF audio output.

5. Coaxial Digital Audio output just support DVD Model.

Not all Audio devices have the ability to connect to a Projector. Please check your A/V devices user guide for compatibility.

Press TV button to enter the TV set up menu, use function buttons select image, sound, feature and TV menu, press the TV button and you can exit the menu settings.

(Remote control settings).

Press OSD button to enter the set up menu, use OSD and VOL+ keys, select image, sound, menu, function, TV setting, press the OSD button and you can exit the menu settings (Machine button settings).

Following is TV set method, according to remote control illustrate steps, if user need to use machine button, please check * machine button set steps.
OSD SETUP MENU

Picture mode
Press "left / right" direction keys to set the Color Temperature you want, press the TV menu to exit the setting.

Color Temperature
Press "left / right" direction keys to set the Color Temperature you want, press the OSD keys to exit the setting.

SOUND SETTING
According to the main OSD menu:
Press "up/down" button, pop up a sound option, you can set the bass, treble, balance, sound mode, AVC, press the OSD keys to exit the setting.

Scale (Image ratio)
Press "left / right" direction keys to set the Scale you want, press the OSD keys to exit the setting.

Bass
Press "left / right" direction keys to set the bass you want, press the OSD keys to exit the setting.

Treble
Press "left / right" direction keys to set the Treble you want, press the OSD to exit the setting.

Blance
Press "left / right" direction keys to set the Blance you want, press the OSD to exit the setting.

Sound mode
Press "left / right" direction keys to set the Sound mode you want, press the OSD to exit the setting.

Menu horizontal Position
Press "left / right" direction keys to set the Menu horizontal Position you want, press the OSD menu to exit the setting.

Menu vertical position
Press "left / right" direction keys to set the Menu vertical position, press the OSD to exit the setting.

Language
Press "left / right" direction keys to set the Language Time you want, press the OSD to exit the setting.

According to the main TV menu: Press "up / down" button, pop up options, you can set the language, menu horizontal position, menu vertical position, duration, half tone, menu size, memory recall, information, press the OSD keys to exit the setting.
OSD SETUP MENU

Menu duration
Press "left / right" direction keys to set the menu duration you want, press the OSD keys to exit the setting.

Information
Press "left / right" direction keys to set the information you want, press the OSD keys to exit the setting.

Menu halftone
Press "left / right" direction keys to set the menu halftone you want, press the OSD keys to exit the setting.

FUNCTION SETTING
According to the main TV menu: Press "up / down" button, pop-up TV set options, you can set the sleep timer, advance, press the OSD keys to exit the setting.

MENU SIZE
Press "left / right" direction keys to set the menu size you want, press the OSD keys to exit the setting.

Sleep timer
Press "left / right" direction keys to set the Sleep timer you want, press the OSD keys to exit the setting.

Reset
Press "left / right" direction keys to set the reset you want, press the OSD keys to exit the setting.

Advance
Press "left / right" direction keys to set the Advance you want, press the OSD keys to exit the setting.

TV SETTING
According to the main TV menu: Press the "up / down" button, pop-up TV set options, you can set the color-SYS, sound-SYS, auto scan, manual search, fine, skip, area, freq, freq from, press the OSD keys to exit the setting.

Auto scan
Press "left / right" direction keys to set the Auto scan you want, press the OSD keys to exit the setting.

Manual search
Press "left / right" direction keys to set the Manual search you want, press the OSD keys to exit the setting.

Fine
Press "left / right" direction keys to set the Fine you want, press the OSD keys to exit the setting.

Sound-SYS
Press "left / right" direction keys to set the Sound-SYS you want, press the OSD keys to exit the setting.

CHANNEL EDIT
Press "left / right" direction keys to set the Skip you want, press the OSD keys to exit the setting.
Area freq . . . . . . Press "left / right" direction keys to set the Area freq you want, press the "left / right" direction keys to exit the setting.

Freq from . . . . . . Press "left / right" direction keys to set the Area freq you want, press the "left / right" direction keys to exit the setting.

DVD SETUP MENU
Press the SETUP button to enter the SETUP MENU. Use the direction buttons to select SYSTEM, LANGUAGE, AUDIO, VIDEO, SPEAKER and DIGITAL SETUP screens, and press the ENTER button to confirm.

MAINTENANCE

Care of the projector
Your projector needs little maintenance. The only thing you need to do on a regular basis is to keep the lens clean. Never remove any parts of the projector. Contact your dealer if parts need replacing.

Cleaning the lens
Clean the lens whenever you notice dirt or dust on the surface. Use a canister of compressed air to remove dust. If there is dirt or smears, use lens-cleaning paper or moisten a soft cloth with lens cleaner and gently wipe the lens surface. Never rub the lens with abrasive materials.

Cleaning the projector case
Before you clean the case, turn the projector off and unplug the power cord. To remove dirt or dust, wipe the case with the cleaning cloth. To remove stubborn dirt or stains, moisten a soft cloth with water and a neutral pH detergent. Then wipe the case. Never use wax, alcohol, benzene, thinner or other chemical detergents. These can damage the case.

Storing the projector
If you need to store the projector for an extended time, please follow the instructions below:
- Make sure the temperature and humidity of the storage area was within the recommended range for the projector.
- Retract the adjuster feet.
- Remove the batteries from the remote control.
- Pack the projector in its original packing or equivalent.

Transporting the projector
It is recommended that you ship the projector with its original packing or equivalent. When you carry the projector yourself, please use the original box or provided soft carry case.

#### Limited Warranty

DVD Combo warrants this product against any defects in material and workmanship, under normal usage and storage.

Proof of purchase date will be required with any warranty claim. In the event this product is found to be defective within the warranty period, DVD Combo's only obligation and your exclusive remedy shall be replacement of any defective parts (labor included). To obtain warranty service, immediately notify the dealer from which you purchased the product of any defects.

Important: The above warranty shall be void if the customer fails to operate the product in accordance with DVD Combo's written instructions, especially the ambient humidity must be in-between 10% and 80%, temperature in-between 10°C and 40°C, altitude lower than 10000 feet, and avoiding to operate the projector in a dusty environment. This warranty gives you specific legal rights, and you may have other rights, which vary from country to country.

Please refer to the warranty card and limited warranty is subject to change without notice.
