If use this wireless mini combo, who can sit in comfortable chair and select viewing pleasures without walking to computer to change channels or scroll through options.
Introduction
Product overview
Touchpad
This product was added to the innovative function of the mouse wheel, when you press the Fn button with your fingers Touch anywhere in the sliding region, can facilitate the realization of the mouse wheel functions. This human design, it can be easier for you to browse the web better, edit documents.

Connecting the receiver
Slide the receiver out from the side of keyboard, and insert to the devices with a standard USB interface. Once connected, slide the power switch to the “On” position located on the left side of the unit to establish the connection.

Auto sleep and wake feature
The keyboard also features an auto sleep and auto wake mode. If there is a long period of inactivity, the keyboard will automatically go into a sleep mode. During the sleep mode, the user can wake the unit up by pressing any key. The 2.4 GHZ receiver and keyboard’s RF indicator will continue to flash and will not power down.

Interference
After finishing using the keyboard, push the switch to the off position. This turns off the power of the keyboard. The USB receiver should be plugged out from the PC and then inserted back in the keyboard so it is being kept safely.

Charging the battery (Only for Configure A)
The device with built-in lithium-ion battery, please use only approved data lines and chargers.
Fully charge the unit before operating for the first time. This device can be used when charging, but will extend the charging time; When the battery is low, the low-voltage light will flash to warn the user. The unit will automatically turn off the battery has been depleted.

Notes: This product has the configuration of A and B configuration can choose
Configure A: lithium battery version, this version built in rechargeable lithium battery, additional charge USB line.
Configure B: install AAA 2 battery, this version dose not support the charging function.

Appendix
Technical parameters
Specification
Measurements (LxWxH): 146.8x97.5x19mm
Weight (grams): 110g
Operational Range: up to 10 meters
Transmit power: +5dB Max
Operation voltage: 3.3V
Operation current: <50mA
Charging current: <300mA
Sleep current: <1mA

Computer system requirements
Windows 2000
Windows XP, Vista, Windows CE, Windows 7
Linux (Debian-3.1, Redhat-9.0 Ubuntu-8.10 Fedora-7.0 tested)
Android/Google/Smart TV

**Maintenance**

Do not attempt to disassemble the device or replace rechargeable battery. Doing so will void the warranty. The battery will discharge if stored for a long period of time without usage. Use the specified charger. Disconnect the device after the battery has been fully charged. Overcharging the battery, Do not expose the device in extreme heat or cold. Extreme temperatures will cause the life span of the battery to shorten. Use only a damp cloth with mild soap to clean the device. Solvents and other cleaning agents may cause damage to the device.

**Troubleshooting**

Below are some basic troubleshooting scenarios for the device. Please contact support from the place of purchase if you are unable to resolve any issue with the device. **Problem** Possible issue Solution

<table>
<thead>
<tr>
<th>Unit does not respond</th>
<th>1. Low battery power. 2. Unit is not turned on.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Keyboard cannot establish a connection to the receiver</td>
<td>1. The receiver may not be inserted correctly</td>
</tr>
<tr>
<td>The mouse pointer moves erratically and/or unresponsive</td>
<td>1. Device may not be within optimal range of the receiver 2. Low voltage 3. Dust or oil on the touching</td>
</tr>
<tr>
<td>The unit does not charge (only for Configure A)</td>
<td>1. Defective battery. 2. Check connections</td>
</tr>
</tbody>
</table>
