User's manual

DVB-T DIGITAL TV RECEIVER
1. Introduction

1.1 Precautions

Install correctly. Your new equipment will provide you with years of enjoyable and safe usage. Installing this unit requires technical expertise. This unit should be installed by a qualified technician or service personnel. If you try to install this unit by yourself, do it properly, referring to the installation and wiring diagrams in this operating manual. Improper installation may result in fire or electric shock.

1.2 Main function

This unit can connect external equipment such as video, DVD, and TV. It can also connect external power supply systems such as a car battery, power cord, and power source. This unit can control remote functions such as remote controllers, phone numbers, and remote control functions. This unit can use the operating function (Favorite, move, lock, delete) to control remote controllers such as remote controllers with the pressing of the phone number, lock, and delete buttons.

1.3 Layout of the remote control

This unit can be used to control remote controllers using the operating function (Favorite, move, lock, delete) to control remote controllers such as remote controllers with the pressing of the phone number, lock, and delete buttons.

1.4 System

This unit can be used to control remote controllers using the operating function (Favorite, move, lock, delete) to control remote controllers such as remote controllers with the pressing of the phone number, lock, and delete buttons.

1.5 System Information

This unit can be used to control remote controllers using the operating function (Favorite, move, lock, delete) to control remote controllers such as remote controllers with the pressing of the phone number, lock, and delete buttons.

1.6 Installation

This unit can be used to control remote controllers using the operating function (Favorite, move, lock, delete) to control remote controllers such as remote controllers with the pressing of the phone number, lock, and delete buttons.

1.7 Channel management

This unit can be used to control remote controllers using the operating function (Favorite, move, lock, delete) to control remote controllers such as remote controllers with the pressing of the phone number, lock, and delete buttons.

1.8 Automatic search

This unit can be used to control remote controllers using the operating function (Favorite, move, lock, delete) to control remote controllers such as remote controllers with the pressing of the phone number, lock, and delete buttons.

1.9 Manual search

This unit can be used to control remote controllers using the operating function (Favorite, move, lock, delete) to control remote controllers such as remote controllers with the pressing of the phone number, lock, and delete buttons.

1.10 Default setting

This unit can be used to control remote controllers using the operating function (Favorite, move, lock, delete) to control remote controllers such as remote controllers with the pressing of the phone number, lock, and delete buttons.

1.11 Program record

This unit can be used to control remote controllers using the operating function (Favorite, move, lock, delete) to control remote controllers such as remote controllers with the pressing of the phone number, lock, and delete buttons.

1.12 Time shift

This unit can be used to control remote controllers using the operating function (Favorite, move, lock, delete) to control remote controllers such as remote controllers with the pressing of the phone number, lock, and delete buttons.

1.13 Trouble shooting

This unit can be used to control remote controllers using the operating function (Favorite, move, lock, delete) to control remote controllers such as remote controllers with the pressing of the phone number, lock, and delete buttons.

1.14 Technical specification

This unit can be used to control remote controllers using the operating function (Favorite, move, lock, delete) to control remote controllers such as remote controllers with the pressing of the phone number, lock, and delete buttons.
### 1.3.1 Layout Of The Main Unit

1. Twin Antenna Input (SMA connector)
2. Ext. Remote Sensor
3. AV Output
   a) Video Output (Yellow RCA)
   b) Right Audio Output (Red RCA)
   c) Left Audio Output (White RCA)
4. Power Input DC12-24 Volts
5. Power LED
6. Remote Sensor
7. AV Output
8. USB Connector

2. Installation
2.1 Connections

2.2 Replacing the Remote Control Battery
1) Always use new battery when replace the old set.  
2) Do not attempt to charge, short-circuit, disassemble, heat or burn used batteries, battery may explode if mistrusted.  
3) Battery replacement is necessary when remote control acts spontaneously or stops operating.  
4) Do not drop, apply shock or step on the remote control.  
5) Do not spill water on the remote control.  
6) Do not place objects between the remote control and remote sensor.  
7) Do not use remote control for the other equipments at the same time.  
8) Do not leave the remote near any heat sources, or in a place subject to direct sunlight (especially on the dashboard).  
9) Keep the lithium battery out of the reach of children. Should the battery be swallowed, immediately consult a doctor.  
10) If the REMOTE does not operate even when you operate the remote control from a close range, it is time to replace the battery, refer to the label on the back of the basic control. Use any of other battery may be a risk of fire or explosion.  
11) Do not hold the battery with metallic tweezers, otherwise a short-circuit may occur.  
12) Wipe the battery with dry cloth to assure a good contact.  
13) Under normal conditions, batteries will last approximately 1 year. The service life may be shorter depending on the conditions of use.

2.3 Accessories Included

3. Installation Wizard
When powering on your receiver for the first time, the installation wizard is automatically started. (You can enable the Installation Wizard in [Default Setting]).

It recommends you to finish the Installation Wizard. If you exit the Installation Wizard without fully completing the setting procedures, you may not watch all TV or radio programs. In this case, you can use the Installation Menu to configure your receiver as you like.

4. Basic Operation
This chapter describes the basic functions such as switching channel, volume control when watching TV.

4.1 Switch Channel
The channel can be changed through one of the following methods.
1) Press the [▲] keys to move to the numerical prior or next channel.  
2) Input the desired channel number using the numerical keys (0-9) to move to the channel directly.  
3) Press the "TV/Radio" key to switch between TV channel and Radio channel.  
4) You can also switch channel using Electronic Program Guide or Channel List.

4.2 Volume Control
1) Press the [▲] keys to decrease/increase the audio volume.
4.3 Program Information

Program information is always displayed for a specific period of time whenever you switch channels. You can view the detail program information by pressing the "INFO" key while watching a program, and then press the "EXIT" key to hide it.

(1) General Information

General Information is displayed as follows on the screen.

(1) Channel number and channel name.
(2) Program bar.
(3) Icons

- Displayed only when the channel is locked.
- Displayed only when the channel is in one of the FAV list.

- LANG
- Displayed when multi audio languages is available in this program.
- TTX
- Displayed only when there is teletext in this program.
- SUB
- Displayed only when subtitle information is available.

(4) Now: Current program name, program begin time and end time.
(5) Next: Next program name, program begin time and end time.
(6) Current time.

(2) Detail Program Information

You can see detail information about the current channel by pressing the "INFO" key.

Note: Press the "EXIT" key to hide the information box.

4.4 Channel List

Three types of channel lists are provided for easy and quick channel switch. TV list and RADIO list are list of TV and radio channels.

(1) Press "OK" key to display the TV list, and then you can press ▼ keys to switch to RADIO list and FAV list, or you can press "FAV" key to display FAV list directly.
(2) Select your desired channel using ▲▼keys and press the "OK" key to change the channel.

4.5 Text service

If your chosen channel has teletext feature, you can access it. Teletext service often is loaded automatically shortly after the Digital Teletext window is displayed.

(1) Press TEXT key to access teletext features.
(2) Press EXIT key again to return to normal viewing.

5. EPG

The Electronic Program Guide (EPG) displays program information about each channel, based on the date and time. You can also schedule your watching using the information given. There are three elements on the screen.

- Video window: Display current channel program.
- Channel list: Press ▲▼ keys to switch to prior/next channel. Press "TV / RADIO" key to switch between [TV List] and [Radio List].
- Program list: A list of program information of current channel.

5.1 Browse Program Information

- If the focus are not on the channel list, press "EPG" key;
- Press ▲▼ keys to select a day from Monday to Sunday. It will be displayed at the top of the program list.
- Press "EPG" key to set the focus on program list, and then press ▲▼ keys browse the program information.
6. System

6.1 Parent Control

If password is enabled, [Parent Control] can prevent children from watching some channels which are locked. Of course it will restrict them to access some system setting menus only if they know the right password.

- Password Enable: Use < > keys to select between Enable and Disable.
- Old Password: If you want to change the password, you have to enter the old password first. Press ▲▼ keys to set the focus on [Old Password], then input four number using numeric keys (0-9) on the remote control. If this is finished, the focus will switch to [New Password] automatically.
- New Password: Enter a four-number new password.
- Verify Password: Input the new password again for confirmation.

Note:
- One channel can be added to several lists.
- The FAV list can be displayed by pressing the “Red” key when you are watching TV.

7. Channel Management

7.1 Edit TV Channels

From here, you can lock channels, delete channels and move channels.

- Lock
Select the channel that you want to lock and then press “Red” key. The selected channel will be marked with a lock symbol. If you want to unlock the channel, press “Red” key again.

7.2 Edit Radio Channels

Please refer to section 7.1 Edit TV Channels.

7.3 Add TV Favorites

From here, you can add TV channels to or remove TV channels from one of the four favorite channel lists labeled with FAV1, FAV2, FAV3 and FAV4.

8. Installation

This chapter describes how to search for channels and a series of procedures.

8.1 Automatic Search

Press “MENU” key, and then select [Installation], [Automatic Search], you will see Automatic Search interface as follows. Here, you don’t need to enter any other information then press “OK” key, and then it will automatically search all the channels.

(1) Press “OK” key to begin the auto search procedure. If there are already some channels, the receiver will ask if or not to carry out the procedure.
(2) Press “OK” key to stop the procedure at any time if you want to.
8.2 Manual Search

You can search single channel manually by searching parameters, if you know the channel information.

- Channel Number
  - Press 

- Frequency
  - You can also enter the frequency that you want to search by pressing numeric keys (0-9) on the remote control when the focus is on frequency.

If you think all the above parameters are ready, press "OK" key to begin the manual search procedure. When finished, the result will be displayed.

8.3 Default Setting

Default Setting restores the receiver to the factory default settings. After Default Setting is carried out and exit the main menu, the Installation Wizard will be automatically run.

Warning: Please note that once you perform Default Setting, all data such as Channel information and user configured data are deleted.

9 Program record

you can directly press the key of [Yellow] on the Remote Controller, set the recording time. Press [OK] to start recording after the recording.

Recording, press the remote control [Yellow] key to stop recording.

Enter the menu, "USB" - "PLAYBACK", USB devices can list a list of recorded programs. Can select the appropriate file for playback.

10. Time shift

you can directly press the key of [PLAY/PAUSE] on the Remote Controller, the screen suspended. Such as inserting USB device, start recording.

[PLAY/PAUSE] on the remote control again key, the moratorium began to broadcast from the bottom of the screen time to be playing there.
11. Trouble Shooting

Before contacting your local service, please make sure following instructions. If the product does not work normally after completing the following trouble shooting, please contact your local product distributor or service center.

1. No message is displayed on the front panel or product has no power
   - Check the main power cable and check that it is plugged into a suitable power outlet.
   - Check whether Power Switch is On.

2. No picture
   - Make sure that the product is in Operation Mode.
   - Make sure that the AV Cable is firmly connected to the TV.
   - Make sure that aerial line is correctly connected to the equipment.
   - Check the brightness level of TV.
   - Check the channel is on air.

3. Poor picture & sound quality
   - Install aerial where there is not obstacle ahead.
   - Make sure to avoid putting mobile phone or microwave oven near around the equipment.

4. No sound
   - Check the volume level of the TV and the remote control.
   - Check the mute status of the TV and product.
   - Press the Audio button to change the Sound Track type.

5. Remote control does not operate
   - To manipulate the equipment with remote control, the remote control's emitting part should directly point towards the receiving part of receiver's remote control.
   - Check the battery of Remote control.

12. Technical Specification

TUNER
Frequency Range: VHF/UHF and L-band
Band: 7/8 MHz (Switchable)

CHANNEL DECODING
Standard: DVB-T
Demodulation: COFDM
PBC: 1/2, 2/3, 3/4, 4/3, 3/2, 2/1
Burst solomons: 204, 188, i = 8

DEMULTIPLEXER
Standard: ISO/IEC 13818-1

VIDEO DECODING
Standard: H.264 MP@Level 3.0, MPEG2 MP@ML, MPEG-4

AUDIO DECODING
Decoding: MPEG-1 layer1, II & III, MPEG-2 layer1, II & III, MPEG2 AAC, MPEG-4 AAC LC/HE/AC3
Output mode: Dual channel, Stereo

PROCESSOR
CPU: Hi3560Q
Processor speed: 270MHz

Power Source
DC12-24 Volts +/-0.5%
Negative Earth

Power Consumption
<5W (Power on)
Less than 1.50mW (Power off)

Operating Condition
0°C–30°C

Board Dimensions
140 mm x 125 mm x 25 mm

Weight
380 g

NOTE
Designs and specifications are subject to change without prompt notice. Weight and dimensions shown are approximate.
