Extend the battery life:

Some functions may use up more power, which eventually shorten the battery life. You could:

● Close all the wireless connection when not in use bluetooth, Wi-Fi or GPS.

● Reduce the brightness and shorten the screen timeout to save battery, or press power key to shut down the screen when the phone is not in use.

● Close any automatically synchronized applications such as Email, calendar, contacts and other.

● Some applications which are downloaded could also shorten the battery life.
