Components indication

Feature

1. High capacity: 5000 mAh is equivalent to 4-8 times of the capacity of cellphone battery .
2. charging for your electric devices .
3. Rechargeable Lithium - Ion battery , up to more than 500 circles , after more than 500 circles, the power can still remain 80 %.
4. USB output :5V, applicable for cellphone, MP4/PSP/PDA, etc.
5. Many kinds of connectors, can charge many kinds of cellphone, MP4/ PDA/PSP
7. Intellectual protection chip: protection for

2

overcharge, overdischarge, overload and short circuit protection.

Specification

Dimension: 92*46*21 (mm)

Weight: 141g

Battery type: lithium-ion battery

Capacity: 5000 mAh/18.5 Wh

Rated input: mini USB: 5V/800mA(MAX)

Rated output: USB: 5V/500mA

Working temperature: -10°C ~ 50°C

Standard accessories: connecting cable, cellphone connectors, DC connector, Adaptor(selectable)

Charger time: about 8 hours

Idle discharge current : less than 100uA

Compatible devices list

Cellphone

Music Players

PSP

PMP

PDA

Accessories

cellphone connectors

USB cable

DC connecting cable

How to use

1、Charge the mobile charger

1) the status of battery capacity :

green LED on: 80%-100% power

red and green LED on: 35%-80% power

red LED on: 15%-35% power

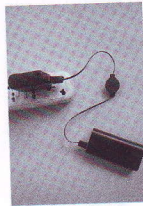

No LED on: less than 15% power

2) connect the adaptor's DC outlet with the charger's DC inlet.

5

3) plug the adaptor into a power outlet.

4) or you can charge the power from PC via USB cable.

5) charging is finished when the LED becomes green.

2、Charge your electric devices (cell phone, MP4)
